profili criminali e psicopatologici del reo 2014-05 Anna Maria Casale Questo testo nasce dall'esigenza di fornire chiarimenti e competenze specialistiche su un fenomeno quanto mai attuale in ambito processuale, quale la definizione del profilo criminale e psicopatologico degli autori di crimini violenti. Il volume gode di una struttura multidisciplinare nell'approccio ai fenomeni delittuosi trattati, tra i quali i più rilevanti e conosciuti sono: lo stalking, il femminicidio, i serial killer, i mass murder, gli omicidi in famiglia ed i reati ad opera e contro i minori. I temi sono analizzati partendo da nozioni giuridiche e nel dettaglio approfonditi dal punto di vista psicologico, psichiatrico, medico-legale e psichiatrico-forense. L'opera si suddivide in due parti: 1. la prima, Profili sostanziali e processuali, offre un taglio giuridico e di approfondimento su aspetti giudiziari che vedono imputato il reo nel processo penale; 2. la seconda, Profili psicopatologici e criminali dei soggetti autori di reato, analizza gli argomenti partendo dal generale, attraverso la trattazione degli aspetti psicologici e delle patologie psichiatriche, per poi approfondire l'analisi delle singole tipologie di azioni criminali, passando in rassegna i più comuni e conosciuti crimini violenti contro la persona. Una parte significativa del volume è dedicata all'analisi dei crimini sessuali, esaminati nella loro peculiare specificità, con l'esame degli aspetti psicopatologici della sessualità e lo studio della pedofilia, operando una precisa distinzione tra quella maschile e la meno conosciuta pedofilia femminile. Un accento particolare è posto sui minori, sia in veste di autori che di vittima di reato, soprattutto in ambito familiare, spesso per mano femminile. Mamadou va a morire 2012-10-02 Gabriele Del Grande La seconda edizione aggiornata di un grande reportage – già tradotto in tedesco e in spagnolo – che racconta le vittime dell'immigrazione clandestina, l'invasione che non c'è e i nuovi gendarmi di un cimitero chiamato Mediterraneo. Dal 1988 oltre 12.000 giovani sono morti tentando di espugnare la fortezza Europa. Vittime dei naufragi, ma anche del caldo del Sahara, degli incidenti di tir carichi di uomini, delle nevi sui valichi, dei campi minati e degli spari della polizia. Mamadou va a morire è il racconto coraggioso di un giovane giornalista che ha seguito per tre mesi le rotte dei suoi coetanei lungo tutto il Mediterraneo, dalla Turchia al Maghreb e fino al Senegal, nello sforzo di custodire i nomi e la memoria di una generazione vittima di una mappa. Il suo è anche un grido d'allarme su una tragedia negata, che chiama in causa l'Europa, i governi africani e le società

civili delle due sponde del Mare di Mezzo. "Dimenticare, rimuovere, rassegnarsi alla normalità delle tragedie dell'immigrazione descritte in questo libro, sarebbe come lasciare morire ancora una volta le persone vittime dell'immigrazione irregolare. Ancora peggio sarebbe ritenere, come pure qualcuno sembra fare, che queste tragiche storie possano avere un effetto pedagogico sui 'candidati' all'emigrazione clandestina". English by the Nature Method 2021-02-23 Arthur M Jensen English by the by Nature Method. The aim of the natural approach is to develop communicative skills, and it is primarily intended to be used with beginning learners.It is presented as a set of principles that can apply to a wide range of learners and teaching situations, and concrete objectives depend on the specific context in which it is used.Terrell outlines three basic principles of the approach: "Focus of instruction is on communication rather than its form." "Speech production comes slowly and is never forced." "Early speech goes through natural stages (yes or no response, one- word answers, lists of words, short phrases, complete sentences.)"These principles result in classrooms where the teacher emphasizes interesting, comprehensible input and low-anxiety situations.

Abide With Me 2013-04-12 Elizabeth Strout From the Man Booker Prize Longlisted author of My Name is Lucy Barton Katherine is only five-years-old. Struck dumb with grief at her mother's death, it is down to her father, the heartbroken minister Tyler Caskey, to bring his daughter out of silence she has observed in the wake of the family's tragedy. But Tyler Caskey is barely surviving himself. His cold, church-assigned home is colder still since Lauren's death, and he struggles to find the right words for his sermons; struggles to be a leader to his congregation when he himself is lost. When Katherine's schoolteacher calls to discuss his daughter's anti-social behaviour, it sparks a chain of events that begins to tear down Tyler's defences. The small-town rumour-mill has much to make of Katherine's odd behaviour, and even more to say about Tyler's relationship with his housekeeper, Connie Hatch. And in Tyler's darkest hour, a startling discovery will test his congregation's humanity - and his own will to endure the kinds of trials that sooner or later test us all. From the Orange Prize-shortlisted author of Amy & Isabelle, this is a startlingly beautiful novel about love and abandonment, faith and hypocrisy; and the peril of family secrets...

Madame Curie 2016-04-29 Pier Luigi Gaspa «Il genio ribelle di Marie non ha investito soltanto la costellazione delle più avanzate teorie della fisica e della chimica... Ha rivoluzionato i costumi abituali del mondo della sua epoca. Dovremmo dire, però, che non era tanto la personificazione di una conoscenza perversa quanto un simbolo di modernità e indipendenza. E tutto ciò non sarebbe stato possibile senza l'intreccio profondo tra il voler scavare oltre le proprietà visibili delle entità materiali e la dedizione al lavoro, nella convinzione che la determinazione nella ricerca e l'insofferenza per i vincoli ingiusti fossero due facce della stessa medaglia: una curiosità che era piacere della scoperta e disprezzo di ogni rischio personale». G.G. Marie Curie è stata una delle personalità più importanti del Ventesimo secolo. Scopritrice insieme al marito Pierre del radio, ha dato il via a una vera e propria era: quella dell'esplorazione dell'atomo. Prima donna a ottenere il Nobel (insieme a Pierre), primo scienziato a riceverne un secondo, prima donna a insegnare alla Sorbona di Parigi, la sua carriera è stata una continua, caparbia, appassionata ricerca alla scoperta dei misteri della radioattività e delle sue applicazioni. Una tenace figura di genio che, pur vacillando a causa delle tragedie che l'hanno colpita, ha continuato a operare con abnegazione e impegno, lasciando un'eredità di incomparabile portata. Pier Luigi Gaspa, biologo prestato al fumetto e non restituito, traduttore e saggista, si interessa in particolare dell'uso educativo e didattico delle strisce disegnate. Fra i suoi libri, La scienza tra le nuvole (2007, con Giulio Giorello), Per la libertà. La Resistenza nel fumetto (2009, con Luciano Niccolai), Verso Selene. Il romanzo dell'Uomo sulla Luna. Dall'immaginazione alla scienza (2009).

Glottodidattica. Dalle scienze del linguaggio all'educazione plurilingue 2009 Elisabetta Zuanelli Sonino In un momento cruciale dell'evoluzione sociale e culturale italiana e internazionale, nel quale il tema dell'integrazione multilingue e multietnica sfida lo storico etnocentrismo occidentale e attraversa pesantemente le responsabilità delle agenzie educative, prime fra tutte la scuola, si colloca la necessità di una preparazione specialistica di addetti e insegnanti. Lauree magistrali, specializzazioni, master in glottodidattica e discipline affini, conseguiti nelle università italiane e nei centri di ricerca accreditati, sollecitano manuali specifici che propongano insieme la dimensione scientifica e la prospettiva applicativa dell'insegnamento/apprendimento di lingue e culture, materne, seconde e straniere. Glottodidattica: dalle scienze del linguaggio all'educazione plurilingue si pone in questa prospettiva e ripropone una visione costitutiva della glottodidattica, nella quale la visione linguistica dei problemi non oscura la dimensione psico- e sociopedagogica degli stessi. In tal senso, la via indicata nel volume rispecchia, anche attualmente, il retroterra scientifico delle discipline interessate allo specifico glottodidattico e propone una traduzione metodologica frutto di sperimentazioni condotte da chi scrive in un arco ventennale di progetti. La trattazione di nozioni complesse quali i processi educativi di autorealizzazione, culturizzazione e socializzazione attraverso il linguaggio, sono sostenute da una trattazione essenziale delle principali scienze del linguaggio, dalla linguistica del testo, alla sociolinguistica, dalla pragmatolinguistica, alla psicolinguistica, presentate nelle loro implicazioni didattiche. Metodi e tecniche glottodidattiche sono richiamati e proiettati nella prospettiva di pianificazione dell'educazione plurilingue. Programmazione glottodidattica, mete e obiettivi educativi e didattici, unità didattiche disciplinari e interdisciplinari, sono trattati ed esemplificati nella prospettiva di un'integrazione plurilingue e pluriculturale, destinata agli addetti e alle istituzioni scolastiche.

Discourse on the State of the Jews 2019-07-08 Simone Luzzatto In 1638, a small book of no more than 92 pages in octavo was published "appresso Gioanne Calleoni" under the title "Discourse on the State of the Jews and in particular those dwelling in the illustrious city of Venice." It was dedicated to the Doge of Venice and his counsellors, who are labelled "lovers of Truth." The author of the book was a certain Simone (Simḥa) Luzzatto, a native of Venice, where he lived and died, serving as rabbi for over fifty years during the course of the seventeenth century. Luzzatto's political thesis is simple and, at the same time, temerarious, if not revolutionary: Venice can put an end to its political decline, he argues, by offering the Jews a monopoly on overseas commercial activity. This plan is highly recommendable because the Jews are "wellsuited for trade," much more so than others (such as "foreigners," for example). The rabbi opens his argument by recalling that trade and usury are the only occupations permitted to Jews. Within the confines of their historical situation, the Venetian Jews became particularly skilled at trade with partners from the Eastern Mediterranean countries. Luzzatto's argument is that this talent could be put at the service of the Venetian government in order to maintain – or, more accurately, recover – its political importance as an intermediary between East and West. He was the first to define the role of the Jews on the basis of their economic and social functions, disregarding the classic categorisation of Judaism's alleged privileged religious status in world history. Nonetheless, going beyond the socio-economic arguments of the book, it is essential to point out Luzzatto's resort to sceptical strategies in order to plead in defence of the Venetian Jews. It is precisely his philosophical and political scepticism that makes Luzzatto's texts so unique. This edition aims to grant access to his works and thought to English-speaking readers and scholars. By approaching his texts from this point of view, the editors hope to open a new path in research into Jewish culture and philosophy that will enable other scholars to develop new directions and new perspectives, stressing the interpenetration between Jews and the surrounding Christian and secular cultures.

BRAIDED IN FIRE 2020-06-30 SOLACE WALES BRAIDED IN FIRE is the stirring author's search to understand the drama that unfolded between the Italian peasants and African-American infantrymen of the 366th Infantry Regiment whose lives were lost, or changed irrevocably by a village battle in Tuscany during the Battle of Garfagnana. Cultures and relationships are intertwined to become BRAIDED IN FIRE in Sommocolonia, a medieval Tuscan village in the Apennines directly on the highly fortified Third Reich's 'Gothic Line' stretching across northern Italy. Only at Sommocolonia did attacking German troops break through that formidable line, with dire consequences to the inhabitants and their defenders, a handful of black GIs, who were outnumbered three to one by the Axis troops. In the desperate fight, Lt. John Fox sacrificed himself with supreme heroism. (He was posthumously awarded the Medal of Honor 52 years later.) Although the military action, (and tragic inaction of certain senior white officers), is described in detail, BRAIDED IN FIRE is not just military history, but tells of the human toll of war: the drama, the folly, the heartache – all present in grand measure for two peoples marginalized over the years for reasons of race and economic circumstances. BRAIDED IN FIRE is a celebration of human dignity in desperate circumstances. This book is painted in a narrative befitting the beauty and rich hues of the Tuscan hills and its people, juxtaposed by the toils of a segregated America in black versus white, even while in Army green. Together these two worlds are BRAIDED IN FIRE with all of the passion, heartbreak, and violence of war, ultimately providing the reader with a redemptive peace, and cultural harmony. Praise for BRAIDED IN

FIRE Braided in Fire tells the story of Lieutenant John Fox, a forward artillery observer and posthumous Medal of Honor recipient, who directed friendly artillery fire on his own position as German troops overran Sommocolonia, Italy, on December 26, 1944. Fox's selfless sacrifice went unrecognized by the U.S. government for half a century simply because he was black. Solace Wales has invested decades in researching this instance of forgotten valor, producing a rich tapestry that interweaves the experiences of the black GIs and Italian villagers caught in the hellish maelstrom that engulfed Sommocolonia the day John Fox died. The result is a moving meditation on the cost of war and a tribute to the African Americans who fought for a country that treated them like second-class citizens. ~ Gregory J.W. Urwin, Professor of History, Temple University, author of Facing Fearful Odds: The Siege of Wake Island Braided with Fire vividly recounts the intertwined histories of the small Italian town of Sommocolonia and the black 366th Infantry Regiment, which intersected during the German Winter Storm Offensive in December 1944. At the center of Solace Wales' story are the brave Biondi family and forward artillery observer Lieutenant John Fox, who won the Medal of Honor for his heroism in Sommocolonia. Thoroughly researched and dramatically retold, Braided with Fire adds a valuable new page to our understanding of the Second World War. ~ Ian Ona Johnson, P.J. Moran Assistant Professor of Military History, the University of Notre Dame Solace Wales contributes a remarkable, unique account which is not available anywhere else. . . Because of her gracious literary style, she vividly captures the ways in which the African American soldiers and the Italians of Sommocolonia's lives became intertwined. The book breaks new ground. ~ Carolyn Ross Johnston, author of My Father's War: Fighting with the Buffalo Soldiers in World War II

A Good School 2014-07-29 Richard Yates Richard Yates, who died in 1992, is today ranked by many readers, scholars, and critics alongside such titans of modern American fiction as Updike, Roth, Irving, Vonnegut, and Mailer. In this work, he offers a spare and autumnal novel about a New England prep school. At once a meditation on the twilight of youth and an examination of America's entry into World War II, A Good School tells the stories of William Grove, the quiet boy who becomes an editor of the school newspaper; Jack Draper, a crippled chemistry teacher; and Edith Stone, the schoolmaster's young daughter, who falls in love with most celebrated boy in the class of 1943.

Decadent Genealogies 2018-03-15 Barbara Spackman Barbara Spackman here examines the ways in which decadent writers adopted the language of physiological illness and alteration as a figure for psychic otherness. By means of an ideological and rhetorical analysis of scientific as well as literary texts, she shows how the rhetoric of sickness provided the male decadent writer with an alibi for the occupation and appropriation of the female body.

Lettere alla figlia Caterina de' Medici Gonzaga duchessa di Mantova (1617-1629) 2015-07-03 Beatrice Biagioli Il carteggio tra Cristina e sua figlia Caterina rappresenta un caso unico nel panorama epistolare conservato in casa Medici, per l'ampiezza, per la varietà dei temi trattati, per il tono intimo e confidenziale che traspare dalle lettere. Nei dieci anni trascorsi a Mantova da Caterina le due donne si scambiarono consigli, raccomandazioni e timori che ci permettono di seguire e delineare lo scenario più ampio in cui si muovevano entrambe. Con questa edizione abbiamo ricreato l'unità di un fitto scambio epistolare, costituitosi come unicum nella volontà della scrivente, ma separato poi in due nuclei distinti nelle vicende della sua trasmissione. Sono qui pubblicate le lettere inviate dalla granduchessa Cristina di Lorena alla figlia Caterina de' Medici Gonzaga presenti nella filza 6110 del fondo Mediceo del Principato conservato nell'Archivio di Stato di Firenze e nelle buste 1095, 1096 e 1097 dell'Archivio Gonzaga presso l'Archivio di Stato di Mantova.

Castiglione 2013 Timothy J. Standring One of the great artists of the Baroque, Giovanni Benedetto Castiglione (1609-64) was perhaps the most innovative and technically brilliant Italian draftsman of his time. He practised as a painter, but won fame for his drawings and prints. Castiglione worked in oils on paper to produce large, vibrant compositions, and combined drawing and printmaking to invent the technique of monotype. Despite leading a violent and turbulent life, he produced works of grace and rare beauty, which were highly esteemed for a century after his death. But Castiglione unaccountably fell from fame in the modern era. The Royal Collection holds the finest surviving group of the artist's works. 0Exhibition: The Queen's Gallery, Buckingham Palace, London, UK (11.2013).

Un tè con Jane Austen 2023-06-06T00:00:00+02:00 Catherine Bell Steventon, Hampshire, 1795. Jane ha vent'anni e si prepara a festeggiare il Natale insieme alla sua famiglia. Quest'anno, tuttavia, l'atmosfera è diversa dal solito: la sorella maggiore Cass, cui Jane è molto legata, trascorrerà le festività a Kintbury, dalla famiglia del futuro marito. Jane è contenta per il matrimonio della sorella, ma sa che da quel momento in poi la madre non si darà pace pur di trovarle un buon partito, e Jane non ha alcuna intenzione di sposarsi. Il suo unico desiderio è quello di scrivere e di diventare, un giorno, una scrittrice di successo. Ma quando al ballo di fine anno conosce Tom, l'affascinante e colto

nipote di Madame Lefroy, il colpo di fulmine è immediato; purtroppo però il ragazzo, con cui condivide letture e argomenti di conversazione, sta per trasferirsi a Londra... Jane ha il cuore spezzato e si rifugia nella scrittura, dando vita al personaggio memorabile di Elizabeth Bennet e compensando la mancanza di Tom con il suo alter ego fittizio, Mr Darcy. Londra, 1810. Dopo una serie di delusioni amorose e di clamorosi rifiuti editoriali, Jane ha già scritto due romanzi, senza tuttavia riuscire a pubblicarli. Ma quando suo fratello Henry ne fa leggere uno a Mr Egerton, uno dei più famosi editori d'Inghilterra, il suo entusiasmo è tale che le propone di pubblicare subito Ragione e sentimento e, a distanza di poco, anche Orgoglio e pregiudizio. Dopo tanti sacrifici, rifiuti e riscritture Jane ha finalmente avuto il riconoscimento che meritava. Ed è diventata ciò che voleva sin dall'inizio: Jane Austen, la scrittrice. Attraverso questo romanzo Catherine Bell ha voluto rendere omaggio alla scrittrice più famosa di tutti i tempi, al suo mondo e alle atmosfere che solo lei è riuscita a creare.

Invecchiare 2021-07-02T00:00:00+02:00 Jacopo Favi I contributi presentati in questo volume forniscono delle coordinate introduttive per affrontare il campo di studi sui processi d'invecchiamento, rimasto finora marginale all'interno del dibattito antropologico. E offrono al lettore strumenti metodologici e concetti teorici per approfondire tanto le diverse costruzioni dell'anzianità, quanto le continue riorganizzazioni della società e dei valori che la legittimano. Dai casi etnografici scelti, emerge la capacità degli anziani di adattarsi a nuovi rapporti di forza e a nuovi significati di rispetto e autorità, nonché il loro ruolo attivo in queste trasformazioni, invalidando lo stereotipo che vede gli anziani come meri soggetti passivi sia nella sfera privata che in quella pubblica.

A Court of Silver Flames 2021-02-16 Sarah J. Maas Sarah J. Maas's sexy, richly imagined series continues with the journey of Feyre's fiery sister, Nesta. Nesta Archeron has always been prickly-proud, swift to anger, and slow to forgive. And ever since being forced into the Cauldron and becoming High Fae against her will, she's struggled to find a place for herself within the strange, deadly world she inhabits. Worse, she can't seem to move past the horrors of the war with Hybern and all she lost in it. The one person who ignites her temper more than any other is Cassian, the battle-scarred warrior whose position in Rhysand and Feyre's Night Court keeps him constantly in Nesta's orbit. But her temper isn't the only thing Cassian ignites. The fire between them is undeniable, and only burns hotter as they are forced into close quarters with each other. Meanwhile, the treacherous human queens who returned to the Continent during the last war have forged a dangerous new alliance, threatening the fragile peace that has settled over the realms. And the key to halting them might very well rely on Cassian and Nesta facing their haunting pasts. Against the sweeping backdrop of a world seared by war and plagued with uncertainty, Nesta and Cassian battle monsters from within and without as they search for acceptance-and healing-in each other's arms.

Marked 2010-12-31T00:00:00+01:00 P. C. Cast Mi chiamo Zoey, ho sedici anni, una madre apprensiva, un patrigno scostante e una sorella maggiore tutta perfettina. E per lungo tempo sono stata convinta che questi fossero i miei problemi. Mi sbagliavo. Perché un giorno ho ricevuto il Marchio: una mezzaluna blu tatuata sulla fronte. E tutto è cambiato. Dovete sapere che il Marchio è la prima tappa per diventare un vampiro. La successiva è entrare nella Casa della Notte, una scuola dove s'impara a controllare i propri poteri e ad affrontare la delicatissima fase della Trasformazione. Cosa succede, allora? Alternativa uno: mi trasformo in vampiro, cioè divento più che umana; più forte, più intelligente, più dotata. Alternativa due: il mio corpo rifiuta la Trasformazione e io muoio. Per sempre. Ma neppure questo è il mio problema più grosso. Oh, no. Il fatto è che il mio Marchio è diverso da quello degli altri, è il segno di capacità incredibili per una ragazza della mia età, e ciò non aiuta a farmi nuovi amici. Senza contare che Afrodite, la presidentessa delle Figlie Oscure, il club più esclusivo della scuola, non ha preso molto bene la mia «superiorità». Insomma mi odia. Talvolta vorrei tornare indietro, ma non posso. Anche perché qui, nella Casa della Notte, sta succedendo qualcosa di profondamente sbagliato e pericoloso. E io sono l'unica che possa fermarlo.

First Love and Other Sorrows 2013-06-18 Harold Brodkey These short stories filled with “narrative grace and rare craftsmanship” chronicle the loss of innocence and the anguish of young love (San Francisco Chronicle). First Love and Other Sorrows is the hauntingly beautiful debut collection of short stories from American master Harold Brodkey. Written when the author was in his twenties, these strong, affecting tales recall the intoxicating joy of young,

springtime love, while lamenting the betrayal of dreams and false ideals in the glaring light of reality. Set in the Midwest during the 1950s, First Love and Other Sorrows centers around a Jewish family that has recently lost its patriarch—and with him the world of privilege. Through the eyes of a son, a sister, and a mother—each one struggling to find a foothold in both family and society—these stories explore class prejudice, obsessive love, and the tragic foibles and emotional truths of being human. First Love and Other Sorrows is masterful fiction from an extraordinary literary artist.

How Acupuncture Induces Weight Loss

Most acupuncturists will target the spots behind the ear when it comes to promoting weight loss. When these points behind the ear are stimulated, endorphins are released in large doses. Endorphins are called the feel-good hormones, and these are also often referred to as natural pain and fever relievers. The release of endorphins is what makes you feel better after an increased level of physical activity, as in the case of a good workout.

These bodily compounds allow the patient to experience better relaxation, thus considerably alleviating stress. There is a greater possibility of enhanced weight loss when the patient has already achieved emotional wellness. Endorphins are also released whenever the body experiences low levels of bodily pain, thus their moniker as a natural pain reliever.

Project la sorella maggiore pdf..The profit & loss of a certain company is determined by finance professionals through accounting. They can determine what created the profits as well as the losses. Accountants form some sort of business equation so justify the profits & losses of a business. By doing so, they can easily tell a company's net worth.

It seems that by simply starting to define one accounting term, it eventually leads to defining other terms as well. Net worth is another term that is quite difficult to understand. It refers to the resulting amount after deducting the liabilities of a company from the assets. Private companies refer to net worth as owner's equity.

Why owner's equity? Well, after deducting all the liabilities, what's left basically belongs to the owner. In the case of public companies, the profit of the business is returned as dividends to shareholders. As you can see, before owner or shareholders of a company can take hold of the profits, all liabilities must be deducted first.

The treatment is finished after an hour and when the needles are removed, you are advised to wear ear magnets so your session continues even when you leave the clinic. While acupuncture itself is a painless procedure, some smokers have claimed that they felt a prick or get sleepy.

Most smokers will have to come to the clinic 4 to 6 times before seeing any significant results. Just to give you an idea, one study shows that the respondents reported a decrease in the number of cravings to smoke just after one or two sessions. Seven out of 10 of the respondents were able to kick the habit after 5 or 6 sessions.

Because the number of test subjects is small, there are some who doubt the effectiveness of acupuncture. This is because although there are positive signs with regards to the short term effects of this technique, its effects were not sustained. This is why some medical journals have stated that it is unclear what acupuncture can do in smoking cessation.

High blood pressure is a condition where the blood pressure is more than normal. It is also known as hypertension. Heart pumps out blood, so that oxygen can reach to different parts of the body via blood. The pressure with which heart pumps blood is known as blood pressure. The blood pressure comprises of two measures, the systolic pressure and diastolic pressure. Systolic pressure is the larger figure and represents the pressure within the artery of the heart, when contractions take place which pump blood to different parts of the body. Diastolic pressure is the pressure within the artery of the heart, when the blood is filling in the heart and it is at rest. Both the pressures are measured in millimeters of mercury or mmHg. High blood pressure is abnormal increase in systolic pressure or diastole pressure.

Blood pressure is measured by putting a blood pressure cuff on the arm and placing a stethoscope on the chest. There can be very little variation in blood pressure depending upon the time, emotional moods, age, gender, weight, height, physical activity, stress and other illness such as heart disease and kidney disease. Children and adolescents become anxious when they visit the doctor. This is also an important factor which affects the blood pressure and the readings taken get tampered because of it. That is the reason why many blood pressure readings are taken in order to determine whether the adolescent has high blood pressure or not. The nurse may even ask the adolescent to calm down while taken the readings. Time gap is given between each reading, so as to give time to the adolescent to calm down. Emotions can also affect the blood pressure reading.

Only then will you be told to lie down on a padded examining table and the needles are inserted to the skin. The difference with this kind of needle is that they twirl and jiggle each time they are pushed further into the body.

You may not feel them at all and if you do, it will only be a twitch that soon goes away. Once the session is complete, the needles are removed and you will be on your way.

Modern science has found little evidence to prove the existence of these energy channels, but this is the technique that has been used effectively for thousands of years.

In medical acupuncture, the practitioners are graduates of western medical schools. Their application of needles is not based on the traditional acupuncture points, but on anatomic data. These acupuncturists use shorter needles and the insertions are shallower. They also tend to use fewer needles and leave them inserted for shorter periods of time. Adherents to TCM feel this is a watered-down version of the real thing. Nevertheless, many patients have felt relief of symptoms through this method.

How does needle puncture work?

Practitioners of Chinese traditional medicine believe in energy flows. This energy, called Qi, circulates around the body using pathways called meridians. Meridians run very close to the surface of the skin in certain areas and can be accessed by needles. Much like plumbing, these pipes can get blocked or go the wrong way, causing health problems. The insertion of needles at these points is aimed to help loosen blocks and normalize flow.

Instruments

Modern acupuncturists nowadays use disposable fine stainless steel needles that are 0.007 to 0.020 inches in diameter which are sterilized with either ethylene oxide or by autoclave. Since they are way finer than hypodermic syringe needles, being poked by these needles are relatively painless. The upper third of the needle is covered with either a thicker bronze wire or plastic to make the needle sturdier and easier to handle. The length of the needle and how far they are inserted is all up to the acupuncturist and his practised style of acupuncture.

Example Of Treatment

If a patient has a headache, he/she is diagnosed and is treated by stimulating the sensitive points located at the webs between the thumbs and palms. In acupuncture theory, these points are connected to the face and head and can be used for treatment of headaches and other ailments involved. Needles are then carefully inserted into the skin until the patient feels a twinge, which is usually accompanied by a slight involuntary twitching of the area. During this treatment, a number of things may occur.

- Sensitivity to pain in where needles are inserted.
- A hint of nausea during treatment in case of bad headaches.
- Near-immediate headache relief.
