Infected Kin

2019-05-17 Ellen Block AIDS has devastated communities across southern Africa. In Lesotho, where a quarter of adults are infected, the wide-ranging implications of the disease have been felt in every family, disrupting key aspects of social life. In *Infected Kin*, Ellen Block and Will McGrath argue that AIDS is fundamentally a kinship disease, examining the ways it transcends infected individuals and seeps into kin relations and networks of care. While much AIDS scholarship has turned away from the difficult daily realities of those affected by the disease, *Infected Kin* uses both ethnographic scholarship and creative nonfiction to bring to life the joys and struggles of the Basotho people at the heart of the AIDS pandemic. The result is a book accessible to wide readership, yet built upon scholarship and theoretical contributions that ensure *Infected Kin* will remain relevant to anyone interested in anthropology, kinship, global health, and care. Straight

2012-01-31 Hanne Blank It's surprising that the term "heterosexuality" is less than 150 years old and that heterosexuality's history has never before been written, given how obsessed we are with it. In *Straight*, independent scholar Hanne Blank delves deep into the contemporary psyche as well as the historical record to chronicle the realm of heterosexual relations--a subject that is anything but straight and narrow. Consider how Catholic monasticism, the reading of novels, the abolition of slavery, leisure time, divorce, and constipation of the bowels have all at some time been labeled enemies of the heterosexual state. With an extensive historical scope and plenty of juicy details and examples, *Straight* provides a fascinating look at the vagaries, schisms, and contradictions of what has so often been perceived as an irreducible fact of nature.
