evolved out of essays presented at the inaugural Conference on Media History in Canada of 2006, which brought together media historians from across the disciplines and from both French and English Canada. The first collection of its kind, this volume assembles both well-established and up-and-coming scholars to address sizable gaps in the literature on media history in Canada. Communicating in Canada's Past includes a substantial introduction to media history as a field of study, historiographical essays by senior scholars Mary Vipond, Paul Rutherford, and

Fernande Roy, and original research essays on a range of subjects, including print journalism, radio, television, and advertising. Editors Gene Allen and Daniel J. Robinson have provided a sophisticated, wide-ranging introduction for those who are new to media history while also assembling a valuable collection of new research and theory for those already familiar with the field.

Spain in Our Ears 2023-09-06 Igor Contreras Zubillaga This book intends to reflect the variety and diversity of the musical responses that arose

in favour of the Republic and against fascism during the Spanish Civil War (1936-1939), encompassing a wide range of music (classical music, film music, popular music), geographies (the US, the URSS, Britain, Germany) and individuals (from well-known figures such as Paul Robeson and Dimitri Shostakovich, to unknown men and women). In doing so, the book expands upon existing bibliography on the Spanish Civil War, which has enjoyed significant advances in the last fifteen years but has paid limited attention to the international dimensions of such musical activity. In particular, the six chapters of this book together bring in pioneering perspectives to the study of music and the Spanish Civil War (e.g., race issues), while at the same time calling for an increased transnational approach to the study of music and war more generally. Spain in our Ears will be of great value to students and researchers interested in Spanish politics and history, as well as the relationship

between music and 1930s-40s. The chapters in this

book were originally published as a special issue of Journal of War and Cultural Studies.

Congressional Record 1941 United States. Congress The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Picture-Work 2023-11-21 Diana Kamin How the image collection, organized and made available for public consumption, came to define a key feature of contemporary visual culture. The origins of today's kaleidoscopic digital visual culture are many. In this book, Diana Kamin traces the sharing of photographs to an image economy developed throughout the twentieth century by major institutions. Picture-Work examines how three of these institutions—the New York Public Library, the Museum of Modern Art, and the stock agency H. Armstrong Roberts Inc.—defined the public's understanding of what the photographic image is, while building vast collections with universalizing ambitions. Highlighting underexplored figures, such as the first rights and reproduction manager at MoMA Pearl Moeller and visionary NYPL librarian Romana Javitz, and underexplored professional practices, Diana Kamin demonstrates how bureaucratic work communicates ideas about images to the public. Kamin artfully shows how

the public interfaces with these image collections through systems of classification and protocols of search and retrieval. These interactions, in turn, shape contemporary image culture, including concepts of authorship, art, property, and value, as well as logics of indexing, tagging, and hyperlinking. Together, these interactions have forged a concept of the image as alienable content, which has intensified with the advent of digital techniques for managing image collections. To survey the complicated process of digitization in the nineties and early aughts, Kamin also includes interviews with photographers, digital asset management system designers, librarians, and artists on their working practices.

Mass Media 1987 Robert Vernon Hudson This resource provides historical facts about the mass media in the United States from 1638, when the press was founded in the English colonies, to 1985. This book traces the origin and development of books, broadsides, pamphlets, newspapers, magazines, motion pictures, radio, and television with emphasis on achievements, dates, events, and people.

The Signal Corps 2015-07-03 Dulany Terrett The more mobile an armed force becomes, the more rugged the terrain it encounters, or the more widely the force is deployed, the greater becomes the difficulty of securing and maintaining rapid, completely linked communications. In the U.S. Army the Signal

Corps is the agency charged with developing, procuring, and furnishing signal equipment to overcome the difficulties mentioned above. In an age of swift and startling progress in electronics, this phase of its mission demands that it keep abreast of scientific advances at home and abroad and maintain close ties with civilian laboratories and industry in order to take advantage of their capabilities. This volume traces the course which the Signal Corps followed between the first and second world wars, a period of planning and preparation. Others to follow will recount the testing of the Corps' organization and equipment, and the results achieved at home and overseas. The author has dealt with the subject on a chronological basis, instead of following the topical treatment used in other technical service volumes. This broad-front approach has enabled him to weave into one pattern the many activities in which the Signal Corps was simultaneously engaged. The reader

radar and mobile radio, the first steps taken in the conversion of the civilian communications industry to war production, the expansion of training facilities, and the beginnings of the far-flung communications network that eventually encircled the globe. He will see the uncertainties of planning and the difficulties of organization incident to rapidly changing conditions, meager appropriations, and the clash of interest within the military household. These and many other matters showing human beings and institutions under pressure are replete with significance to us who must live in a turbulent world where revolution tends to have the upper hand over evolution.

He was weary of his existence. He was bored, sad, and discontented. He had a work he detested, a manager he loathed, and a girlfriend he didn't adore. He had no enthusiasm, no purpose, no significance. He felt like he was squandering his moment, his potential, his being. He wished to alter, he wished to run away, he wished to live. He decided to leave his employment, to break up with his significant other, to get rid of his stuff, and to buy a one-way pass to the far end of the world. He didn't realize where he was proceeding, he didn't realize what he was doing, he didn't realize what he was searching for. He only understood that he had to leave, that he had to explore, that he had to uncover. He set out on a trip of a thousand kilometers, a journey of adventure, of obstacle, of

education, of progress, of transformation.
