Life, Liberty and the Pursuit of Anything 2019-07-29
Edward Quiros MD MBA FACS I am not a writer or an author of novels or essays. It always discourages me to see so many authors or writers, some established, others just attempting to make a name for themselves every time I enter a bookstore and see thousands and thousands of titles of novels or books or whatever the writer thinks it is worth writing about. Some are new editions, others neatly arranged in that heap called

bargain purchases. It immediately put a stop to my idea of putting what I think is a subject that must be indelible, of everyday events that people talk about after seeing it on TV or coming across it on a page of a local or national newspaper. Something like Charles Krauthammer’s seminal essays in Things That Matter, Andy Rooney’s astute observations in Common Sense, or the provocative articles in humorist Dave Barry’s I Am Not Making This Up. But growing older in age and with the remaining future not so distant anymore, the impulse and the courage to tell anyone who is interested in what you have to say becomes compulsive as magma wanting to erupt from the bowels of the earth’s core. That is why these essays compiled and culled from the

files of what I have kept these years writing editorials in magazines, from applications to a graduate school I never finished and received a diploma, and from other sources the names I can't recall, from recent and contemporaneous events onerously repeated by pundits and so-called experts, became bound in a form you are holding today. The ideas may be past but still relevant. They might be current and dissecting them with the pros and cons of opinions providing the diversity we strive for. I do not claim originality in the subjects I write about. They might not be original, but I have burnished them with a different patina the reader never thought of colorizing. The research of some of the data was done via websites, different articles read, speeches made, my notes and recollections, and some older versions of articles I have written in some newsmagazines. For privacy reasons, I have changed the names in one essay in particular, as I was not successful in communicating with the persons despite attempts at doing so. I have also, to the best of my ability, adhered to the fair use doctrine using some data or quotations in some of my

essays. In any case, I hope it is while your time, effort, and your trip to the bookstore to come up and peruse what is in your hands.

Theological Perspectives for Life, Liberty, and the Pursuit of Happiness 2013-11-07 A. Isasi-Diaz Rather than wield religion as a weapon or a ruse in irrational appeals, the book attempts to reimagine a shared American mythos and ethos, by reminding us of our shared stake in creating an America committed to the life of all peoples and species and to the full developments of our capabilities as an exercise of liberty.

Life, Liberty, and the Pursuit of Happiness 2012-03-08 Charles R. Kesler Over the past 10 years, the Claremont Review of Books has become one of the preeminent conservative magazines in the United States, offering bold arguments for a reinvigorated conservatism that draws upon the timeless principles of the American Founding and applies them to the moral and political

problems we face today. With essays by the likes of William F. Buckley, Jr., Christopher Hitchens, Richard Brookhiser, James Q. Wilson, Allen C. Guelzo, Victor Davis Hanson, Ross Douthat, and many others, this collection surveys the range of issues addressed in the Claremont Review of Books first decade, from the conservative critique of American progressivism to foreign policy, politics, history, and culture. Liberally illustrated with art director Elliot Banfield's popular cartoons, *Life, Liberty, and the Pursuit of Happiness* provides the magazine's many devotees with a treasured keepsake of a tumultuous decade and will be of interest to all those who care about American politics and culture.

The OPA! Way 2014-11-18 Alex Pattakos Named the "2015 Self-Help Book of the Year" at the New Mexico-Arizona Book Awards In chasing "the good life," many of us sacrifice our relationships, our health, and our sanity, but at the end of the day, we still find ourselves with lives and work that bring us little fulfillment. Life isn't about the pursuit of happiness, which is superficial and fleeting. It's about meaning, which helps us realize our full potential, and knowing that our lives and work matter—regardless of circumstances. Dr. Alex Pattakos and Elaine Dundon, two bestselling authors and leaders of the Meaning Movement, give readers The OPA! Way: Finding Joy & Meaning in Everyday Life & Work. Inspired by the wisdom of ancient Greek philosophy and traditional village values, and backed by years of research, The OPA! Way provides a breakthrough approach and practical tools to renew your

outlook and rejuvenate your life. Pattakos and Dundon demystify the subject of meaning by sharing insights, stories, and three core lessons to guide you on your odyssey: Connect meaningfully with Others Engage with deeper Purpose Embrace life with Attitude Stop searching for happiness and start searching for meaning. Create the life you want, The OPA! Way.

Mixtus-Americans 2021-06-30 William A. Scott
Mixtus-Americans: We Still Practice Griot continues the challenges of healing, institutionally and nationally, from the result of faith divided by racism and perceived superiority. These views were first expressed in my book called Mixtus-Americans' Salvation from Oppressive Sin. Ten years later, the divide, the long centuries of White-and-Black church division, has driven the Black community to worship Yahweh (YHVH) and his Son, the Messiah, Jesus the Christ, differently. These differences are highlight in these writings. For the most part, Mixtus folk-Black Americans-hold to a Bible-based empowerment that supports personal

accomplishments. The church has traditionally been an important element in social and political movements. Black Christians are more socially conservative than other groups, and they change less than any other segment of society based on religion. As Joe "The Black Eagle" Madison might say, "I would encourage you to read these twenty-four views with a third ear"-the timbre that shapes the knowing.

The Constitution on the Campaign Trail 2007-09-16 Andrew E. Busch
The Constitution is the fundamental governing document of the United States. But to what extent do candidates and parties make constitutional arguments in the course of American elections? By examining party platforms, candidate messages, presidential debates, and television ads, *The Constitution on the Campaign Trail* answers that question, and the results are fascinating. Busch finds evidence for both a long, broad decline in the use of constitutional rhetoric since the mid-19th century and a limited resurgence in that rhetoric over the last four decades. The political analysis found here is firmly grounded in historical research and the conclusions reached are trenchant.

Life, Liberty, and the Pursuit of Happiness, Version 4.0 2009-09 Gordon Anderson
The American founders designed a Constitution for governance of the United States based on the idea that citizens are sovereign and that function of government is to protect their pursuit of life, liberty, and happiness. This book calls the original system "version 3.0," and discusses five basic political principles required for a modern government to accomplish that function. These principles were either explicit or implicit at the founding. However, the United States has deviated from these principles over time, and today the federal government is doing many of the things the Constitution sought to protect against. Congress is in a position much like the programmers of a computer operating system that seek to increase the

functionality of the system and to ward off attacks from viruses. However, not only have they passed laws that take away from the citizen's abilities to pursue life, liberty, and happiness, they have also introduced various viruses that threaten the existence of the entire system. This book describes how we can eliminate these viruses infecting the system and update the U.S. government to "version 4.0," allowing U.S. citizens to pursue life, liberty, and happiness, thereby producing a solid foundation for a strong and durable society in which all can freely prosper. There are several conclusions that run against the current prevailing views. The most significant conclusion involves the relationship of the government to the economy. Several principles adopted as prevailing economic wisdom in both the Republican and Democratic Parties are considered harmful to the pursuit of life, liberty, and happiness of citizens, and harmful to the society as a whole. There are many books on reforming the U.S. government, which a majority of Americans consider to be broken. However, there is no comprehensive systematic vision based on these core

principles of government. Rather, most approaches are patches on symptoms produced by not adhering to these fundamental principles in the first place.

What I Saw at the Revolution 2003-10-14 Peggy Noonan On the hundredth anniversary of Ronald Reagan's birth comes the twentieth-anniversary edition of Peggy Noonan's critically acclaimed bestseller *What I Saw at the Revolution*, for which she provides a new Preface that demonstrates this book's timeless relevance. As a special assistant to the president, Noonan worked with Ronald Reagan—and with Vice President George H. W. Bush—on some of their most memorable speeches. Noonan shows us the world behind the words, and her sharp, vivid portraits of President Reagan and a host of Washington's movers and shakers are rendered in inimitable, witty prose. Her priceless account of what it was like to be a speechwriter among bureaucrats, and a woman in the last bastion of male power, makes this a Washington memoir that breaks the mold—as spirited, sensitive, and thoughtful as Peggy Noonan herself.

Abraham Lincoln and a New Birth of Freedom 2002-04-01 Howard Jones In Abraham Lincoln and a New Birth of Freedom, Howard Jones explores the relationship between President Lincoln's wartime diplomacy and his interrelated goals of forming a more perfect Union and abolishing slavery. From the outset of the Civil War, Lincoln's central purpose was to save the Union by defeating the South on the battlefield. No less important was his need to prevent a European intervention that would have facilitated the South's move for independence. Lincoln's goal of preserving the Union, however, soon evolved into an effort to form a more perfect Union, one that rested on the natural rights principles of the Declaration of Independence and thus

necessitated emancipation.

The Motivation Manifesto 2014-10-28 Brendon Burchard "The Motivation Manifesto is a poetic and powerful call to reclaim our lives and find our own personal freedom. It's a triumphant work that transcends the title, lifting the reader from mere motivation into a soaringly purposeful and meaningful life. I love this book." —Paulo Coelho The Motivation Manifesto is a pulsing, articulate, ferocious call to claim our personal power. World-renowned high performance trainer Brendon Burchard reveals that the main motive of humankind is the pursuit of greater Personal Freedom. We desire the grand liberties of choice—time freedom, emotional freedom, social freedom, financial freedom,

spiritual freedom. Only two enemies stand in our way: an external enemy, defined as the social oppression of who we are by the mediocre masses, and an internal enemy, a sort of self-oppression caused by our own doubt and fear. The march to Personal Freedom, Burchard argues, can be won only by declaring our intent and independence, stepping into our personal power, and battling through self-doubt and the distractions of the day until full victory is won. Recalling the revolutionist voices of the past that chose freedom over tyranny, Burchard—at times poetic yet always fierce—motivates us to free ourselves from fear and take back our lives once and for all.

Running Alone 2009-06-16 James MacGregor Burns
Since mid-century, America has witnessed an ominous decline in presidential leadership, culminating in the failing presidency of George W. Bush today. How did this happen? In *Running Alone*, the distinguished political scientist and leadership expert James MacGregor Burns finds the origin of the problem in

John F. Kennedy's presidential style—and its influence on his successors in the Oval Office. Kennedy rejected collective leadership in favor of a highly personalized executive branch, run by a small group of hand-picked advisors. His successors followed his lead; each in his own way ran and governed alone, exploiting the party base while often ignoring party platforms and party needs. Burns charts the decline of genuine leadership in the Oval Office and offers practical proposals for restoring the kind of transforming leadership that this country so desperately needs. With unsurpassed knowledge of American history and politics, Burns shows us the way forward.

Contextuality in Reformed Europe 2004 Christine Lienemann-Perrin
The scope of this volume is how churches experience themselves and their mission in their context. The discussions in this volume provide ample material to substantiate the claim that the church should not be an *ecclesia incurvata in se ipsa*, (a church curved into itself) but welcoming and directed not only

to personal needs but to social needs as well--but not bound to what people often feel the needs are and delving deeper to the real roots of sin and selfishness, be it personal, social or national. Contextualization in itself is part of the mission of the churches, but it is on the edge: should the church adapt to its context and lose both its identity and witness or should it find a way between the Scylla of easy adaptation to the changing contexts of this world that is passing and the Charybdis of a preservation of forms and identities of bygone times that have lost the freshness of the message of liberation of bondage, conversion and freedom, freedom to be what the church is called to be, a sign of hope, peace, reconciliation, justice and love?

Lives in the Law 2006-05 Austin Sarat The essays look at the consequences that legal practice has on the lives of its practitioners as well as on the individual legal subject and on the shape of shared identities. These essays challenge liberal and communitarian notions of what it means to live the law. In the first of the essays, Pnina Lahav presents a study of the Chicago Seven Trial to paint a picture of the law's power to serve as a site for the definition of a collective group identity. In contrast,

Sarah Gordon focuses on the experience of an individual legal subject, namely, the defendant in the Hester Vaughn trial, a notorious nineteenth-century case of infanticide. Frank Munger looks at how law constructs the identity of women and explores the strategies by which poor women resist the law's construction of their dependency. In the fourth essay, Vicki Schultz offers a moral vision of equality that straddles the liberal and communitarian positions with her articulation of the concept of a "life's work." Lastly, Annette Wiewiorka examines the recent trial of Maurice Papon for complicity in crimes against humanity to reveal how the very identity of a nation--in this case, France--can be defined through juridical and legal acts. Austin Sarat is William Nelson Cromell Professor of Jurisprudence and Political Science and Professor of Law, Jurisprudence and Social Thought, Amherst College. Lawrence Douglas is Associate Professor of Law, Jurisprudence and Social Thought, Amherst College. Martha Umphrey is Assistant Professor of Law, Jurisprudence and Social Thought, Amherst College.
