The Roman Republic: A Very Short Introduction

2012-08-30 David M. Gwynn The rise and fall of the Roman Republic occupies a special place in the history of Western civilization. From humble beginnings on the seven hills beside the Tiber, the city of Rome grew to dominate the ancient Mediterranean. Led by her senatorial aristocracy, Republican armies defeated Carthage and the successor kingdoms of Alexander the Great, and brought the surrounding peoples to east and west into the Roman sphere. Yet the triumph of the Republic was also its tragedy. In this Very Short Introduction, David M. Gwynn provides a fascinating introduction to the history of the Roman Republic and its literary and material sources, bringing to life the culture and society of Republican Rome and its ongoing significance within our modern world. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Nineteenth-Century Britain: A Very Short Introduction

2000-08-10 Christopher Harvie First published as part of the best-selling The Oxford Illustrated History of Britain, Christopher Harvie and Colin Matthew's Very Short Introduction to Nineteenth-Century Britain is a sharp but subtle account of remarkable economic and social change and an even more remarkable political stability. Britain in 1789 was overwhelmingly rural, agrarian, multilingual, and almost half Celtic. By 1914, when it faced its greatest test since the defeat of Napoleon, it was largely urban and English. Christopher Harvie and Colin Matthew show the forces behind Britain's rise to its imperial zenith, and the continuing tensions within the nations and classes of the 'union state'. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Eighteenth-Century Britain: A Very Short Introduction

2000-08-10 Paul Langford Part of The Oxford Illustrated History of Britain, this book spans from the aftermath of the Revolution of 1688 to Pitt the Younger's defeat at attempted parliamentary reform.

Roman Britain

2015 Peter Salway For four centuries Britain was an integral part of the Roman Empire, a political system stretching from Turkey to Portugal and from the Red Sea to the Tyne and beyond. Its involvement with Rome started long before the Conquest launched by the Emperor Claudius in 43 AD, and it continued to be a part of the Roman world for some time after the final break with Roman rule. Bringing together archaeological investigation and historical scholarship, Peter Salway explores some of the key issues arising from this period in Britain's history, discussing the question of identity at this time and analysing the importance of widespread literacy in Roman Britain. Covering the period from Julius Caesar's first forays into Britain and Claudius's subsequent conquest, as well as Britain under the later Roman Empire, Salway outlines the key events of this time period, providing a focus on society in Roman Britain, and offering a thoughtful consideration of the aftermath of Roman rule. In the new edition of this Very Short Introduction, Peter Salway makes a number of essential updates in light of recent research in the area. He looks at issues of ethnicity, "Britishness," and post-colonialism, provides alternative theories to the end of the Roman period in Britain, and draws parallels between the history of Roman Britain and a wide range of other periods, territories, and themes, including the modern experience of empires and national stereotypes. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Roman Britain

1984 Peter Salway 'The toga was often to be seen among them': with these words the Roman Historian Tacitus describes the Britons adopting the Roman way of life at an early stage of their long history as Roman provincials.

The Roman Empire: A Very Short Introduction

2006-08-24 Christopher Kelly The Roman Empire was a remarkable achievement. With a population of sixty million people, it encircled the Mediterranean and stretched from northern England to North Africa and Syria. This Very Short Introduction covers the history of the empire at its height, looking at its people, religions and social structures. It explains how it deployed violence, 'romanisation', and tactical power to develop an astonishingly uniform culture from Rome to its furthest outreaches.

Medieval Britain: A Very Short Introduction

2000-08-10 John Gillingham First published as part of the best-selling The Oxford Illustrated History of Britain, John Gillingham and Ralph A. Griffiths' Very Short Introduction to Medieval Britain covers the establishment of the Anglo-Norman monarchy in the early Middle Ages, through to England's failure to dominate the British Isles and France in the later Middle Ages. Out of the turbulence came stronger senses of identity in Scotland, Wales, and Ireland. Yet this was an age, too, of growing definition of Englishness and of a distinctive English cultural tradition. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Twentieth-Century Britain: A Very Short Introduction

2000-08-10 Kenneth O. Morgan First published as part of the best-selling The Oxford Illustrated History of Britain, Kenneth Morgan's Very Short Introduction to Twentieth-Century Britain is a crisp analysis of the forces of consensus and of conflict in modern Britain since the First World War.

A History of Roman Britain

2001-05-31 Peter Salway 'One could not ask for a more meticulous or scholarly assessment of what Britain meant to the Romans, or Rome to Britons, than Peter Salway's Monumental Study' Frederick Raphael, Sunday Times From the invasions of Julius Caesar to the unexpected end of Roman rule in the early fifth century AD and the subsequent collapse of society in Britain, this book is the most authoritative and comprehensive account of Roman Britain ever published for the general reader. Peter Salway's narrative takes into account the latest research including exciting discoveries of recent years, and will be welcomed by anyone interested in Roman Britain.

The Holy Roman Empire: A Very Short Introduction

2018-06-14 Joachim Whaley Voltaire's description of the Holy Roman Empire as 'neither holy, nor Roman, nor an empire' is often cited to underline its worthlessness. German historians traditionally despised it because it had allegedly impeded German unification. Since 1945 scholars have been more positive but the empire's history and significance is still largely misunderstood. In this Very Short Introduction Joachim Whaley outlines the fascinating thousand-year history of the Holy Roman Empire. Founded in 800 on the basis of Charlemagne's Frankish kingdom, its imperial title went to the German monarchy which became established in the ninth and ten centuries. They claimed Charlemagne's legacy, including his role as protector of the papacy and guardian of the Church. Around 1500 the title Holy Roman Empire of the German Nation was adopted. An elective monarchy, the empire gradually developed from a feudal monarchy into a legal system that pacified the territories and cities of German-speaking Europe. By 1519 it had a supreme court and a regional enforcement system ended feuding. Throughout its lifetime, the empire's growth and history was shaped by the major developments in Europe, from the Reformation, to the Thirty Years War, to the French revolutionary wars, which led to Napoleon destroying the empire in 1806. The sense of a common history over a thousand years and the legal traditions established by the empire have shaped the history of German-speaking Europe ever since. Joachim Whaley analyses the empire's crucial impact and role in the history of European power and politics, and shows that there has never been a more durable political system in German history. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

Miracle roman britain a very short introduction very

Like other strategies used in treating health conditions, acupuncture may have some side effects. Medications have side effects and allergic reactions, surgeries have risk of infection and complications. For needle puncture, there is a risk of injury, rare infections, minor bleeding, small bruises, and some dizziness. You can minimize the possible side effects by choosing a licensed acupuncturist. Most countries either have government licensing in place or have professional organizations with very strict rules and regulations. How do treatments go? An acupuncturist will do an initial evaluation of your medical history and your body's current state. Multiple pressure points are palpated, and a regimen of treatment is formulated. Most courses involve a series of 10 to 20 treatment sessions, each lasting 30 to 90 minutes. Needles will be carefully placed at the required points and kept in place for some time. Most patients report a feeling of mild sensation at the site of the puncture, but no real pain.

For Free roman britain a very short introduction very:Common Oral Health Problems in Adolescents

Adolescents face many oral health problems which may require them to visit a dentist or any other healthcare professional. Irregular teeth growth is a common problem and adolescents with braces are a common sight. Another problem is wisdom teeth extraction or the removal of the third molar. Dental cavities are yet another common problem in adolescents. Orthodontics is a specialty in dentistry which deals with correction, development and prevention of irregular teeth, jaw and bite. Orthodontics also helps to correct jaw disorders and facial abnormalities. If a general dentist feels abnormalities in the adolescent, he/she will refer the patient to an orthodontist. The American Dental Association suggests that every adolescent above the age of seven should get an orthodontic evaluation done. Problems which require orthodontic treatment are crowded or crooked teeth, extra teeth, missing teeth, under-bite, overbite, jaw joint disorder, and incorrect or misaligned jaw position. To get braces or any other orthodontic treatments, the appropriate age is ten to fourteen years. But regardless of the age, the same physical and biological process is used in correcting and moving the teeth alignments. Braces are also known as fixed orthodontic appliances. There are three types of braces used to move and reposition the teeth. The first consists of brackets which are made out of plastic or metal. They are either of tooth color or clear and are bonded onto the teeth. The second type is the lingual type of brackets which are attached to the back teeth and cannot be seen while talking. The third type is a band. It is a metal band which covers the teeth and wraps around the last ones.

Challenge roman britain a very short introduction very:As more people are opening their minds to this practice, people should know that getting an acupuncture degree will not replace traditional medicine since there are limits to what it can do for the patient. It is merely a form of holistic healthcare that works hand in hand with science to help the person deal with an illness.

When you think about it, that might be something that the practice has going for it. If it has existed already for thousands of years and is still being practiced by millions up to now, then it must have worked already for quite a number of people.

What typically happens when you go to an acupuncturist?

When you go to an acupuncturist, you would typically first be asked about your medical history, how youre feeling and any symptoms of sicknesses you might have. The specialist would observe features of your face, including your tongue. According to specialists, your tongue is a good indicator of the health of your internal organs. The acupuncturist would listen to sounds that your body makes like the sounds coming from your lungs. How your body smells could also be an indicator of your overall health for the acupuncturists diagnosis.

First roman britain a very short introduction very__Forensic Accounting

Is there such a thing as a forensic accountant? Well, you might find it hard to believe but there are actually forensic accountants out there and it is a very good profession. Forensic accounting is used in areas like litigation support and investigative accounting.

Litigation support is very important and the forensic accountants play a very important role in it. But before it can provide litigation support, forensic accountants should first investigate the concerned company's financial operations. After the investigation, the forensic accountants will prepare the necessary information that will be used for filing civil or criminal court cases.

These accountants spend most of their time in the concerned company or enterprise. There they investigate, collect, and analyze all gathered financial data. In order to be a forensic accountant, one should be well-versed with the computer. You see, the analysis of the financial data is done mainly on computers.

Excellent computer skills as well as knowledge in the specific accounting software used are critical if you want to become a forensic accountant.

Learn roman britain a very short introduction very

Even though acupuncture isnt part of Western medicine, Western medicine experts have studied it extensively. Some theories as to why it works involve acupuncture perhaps stimulating the brains release of the bodys natural painkillers. Acupuncture could also stimulate proper circulation in the human body.

Western medicine is still studying acupuncture and trying to find out how to best integrate it with practices in Western medicine. That is why, along with Western medicine and trips to the doctor, one could certainly try acupuncture.

It couldnt hurt and it might actually be the one to finally relieve you of a lot of your bodys aches and pains and even make you healthier.

Obsession roman britain a very short introduction very

Based on what the acupuncturist finds out about your sickness, he or she would then formulate the treatment that your body needs. With traditional Chinese medicine, sicknesses are seen as a kind of imbalance and loss of harmony between your bodies organs. You can consider the use of needles on your body as just a way to push your body and its organs back into balance.

The specialist would begin inserting very thin needles into the right places in your body. To many people, inserting these needles doesnt really hurt. After all, an acupuncturists needles are usually much thinner than the needles that are used for injections. Many have claimed that inserting these needles actually calms them down and relaxes them.

How does the use of these needles help you?

A lot of problems have been claimed to have been alleviated through this practice. These include headaches, the common cold, arthritis, back pains, asthma and even infertility.

roman britain a very short introduction very,Consulting with a Professional Acupuncturist

There are a number of acupuncture practitioners in existence nowadays, offering a host of services. If you are considering this form treatment for your weight management, make sure that you settle with no less than a trained and professional acupuncturist. A poorly trained acupuncturist may not be able to pinpoint the specific meridian points and worse, may cause unnecessary bodily pain and discomfort.

Moreover, your acupuncturist may require an herbal supplement for your treatment, to encourage a longer-term effect. Your sessions need not be maintained for an extensive period; however you may be required to visit your acupuncturist during the entire course of the sessions.

There are other means for losing weight successfully, and this does not include crash dieting and strenuous work outs. If carried out by trained professionals, acupuncture can be the answer for effective weight management. While it is far from being a cure-all, it may just be the right weight loss solution for you.
