Kinesiology Taping for Horses

2018-01-15 Katja Bredlau-Morich Kinesiology taping on human athletes is all the rage: widely used by physical therapists, chiropractors, and personal trainers, we see it on Olympians, runners, basketball players—on amateurs and professionals. The idea behind taping is that it provides incredible support and stabilization of ligaments and tendons while simultaneously stretching and flexing like a "second skin" to allow full range of motion. It can also activate or relax muscles, depending on its application. Our equine athletes can benefit hugely from taping techniques, and this terrific guidebook provides the ultimate reference for understanding both the uses of kinesiology tape and its numerous applications. With hundreds of color photographs

The Years of Alienation in Italy

2019-06-11 Alessandra Diazzi
The Years of Alienation in Italy offers an interdisciplinary overview of the socio-political, psychological, philosophical, and cultural meanings that the notion of alienation took on in Italy between the 1960s and the 1970s. It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity. Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigm.
