The Dark Side of Discipleship 2020-10-21 Gary Tyra There's a dark side to Christian discipleship church members ignore to their peril. The New Testament has much to say about why and how Christ's followers must deal with the devil. Learning to take the evil one seriously without obsessing over him is crucial to the spiritual endurance training we all need if we are to someday hear Jesus say to us: "Well done, good and faithful servant!" Specifically, pastor/theologian Gary Tyra argues in this work that key to overcoming Satan is a balanced, Spirit-empowered engagement in what he refers to as the four cardinal components of Christian discipleship. Understanding the various ways the devil attempts to derail our experiences of worship, nurture, community, and mission can serve to motivate us with respect to them! With the help of the Holy Spirit, church members can cultivate a "lifestyle spirituality" that enables them to don the "full armor of God" and engage in several critical "close-quarters combat tactics" the New Testament encourages. In the end, The Dark Side of Discipleship is a no-nonsense yet inspirational New Testament theology of spiritual warfare that can serve Christ's church as a powerful aid to the spiritual, moral, and ministry formation of contemporary Christians.

Catholic Prophecy 2014-07-25 Yves Dupont Shortly after Vatican II many began to speculate that we might be in the 'end times' and that prophecies were being fulfilled. Some speculated that the Three Days of Darkness may be near or that Antichrist was already on earth. Yves DUpont assembled many prophecies, including some that refer to a comet striking the earth. With Comet Kahoutek in 1972, many thought this might be the one, but it wasn't. With the deterioration of morals in the world many believe that these prophetic days may be close.

Spain, a Global History 2018-11-12 Luis Francisco Martinez Montes From the late fifteenth to the nineteenth centuries, the Hispanic Monarchy was one of the largest and most diverse political communities known in history. At its apogee, it stretched from the Castilian plateau to the high peaks of the Andes; from the cosmopolitan cities of Seville, Naples, or Mexico City to Santa Fe and San Francisco; from Brussels to Buenos Aires and from Milan to Manila. During those centuries, Spain left its imprint across vast continents and distant oceans contributing in no minor way to the emergence of our globalised era. This was true not only in an economic sense-the Hispano-American silver peso transported across the Atlantic and the Pacific by the Spanish fleets was arguably the first global currency, thus facilitating the creation of a world economic system-but intellectually and artistically as well. The most extraordinary cultural exchanges took place in practically every corner of the Hispanic world, no matter how distant from the metropolis. At various times a descendant of the Aztec nobility was translating a Baroque play into Nahuatl to the delight of an Amerindian and mixed audience in the market of Tlatelolco; an Andalusian Dominican priest was writing the first Western grammar of the Chinese language in Fuzhou, a Chinese city that enjoyed a trade monopoly with the Spanish Philippines; a Franciscan friar was composing a piece of polyphonic music with lyrics in Quechua to be played in a church decorated with Moorish-style ceilings in a Peruvian valley; or a multi-ethnic team of Amerindian and Spanish naturalists was describing in Latin, Spanish and local vernacular languages thousands of medicinal plants, animals and minerals previously unknown to the West. And, most probably, at the same time that one of those exchanges were happening, the members of the School of Salamanca were laying the foundations of modern international law or formulating some of the first modern theories of price, value and money, Cervantes was writing Don Quixote, Velázquez was painting Las Meninas, or Goya was exposing both the dark and bright sides of the European Enlightenment. Actually, whenever we contemplate the galleries devoted to Velázquez, El Greco, Zurbarán, Murillo or Goya in the Prado Museum in Madrid; when we visit the National Palace in Mexico City, a mission in California, a Jesuit church in Rome or the Intramuros quarter in Manila; or when we hear Spanish being spoken in a myriad of accents in the streets of San Francisco, New Orleans or Manhattan we are experiencing some of the past and present fruits of an always vibrant and still expanding cultural community. As the reader can infer by now, this book is about how Spain and the larger Hispanic world have contributed to world history and in particular to the history of civilisation, not only at the zenith of the Hispanic Monarchy but throughout a much longer span of time.

The Cultural Cold War 2013-11-05 Frances Stonor Saunders During the Cold War, freedom of expression was vaunted as liberal democracy's most cherished possession—but such freedom was put in service of a hidden agenda. In The Cultural Cold War, Frances Stonor Saunders reveals the extraordinary efforts of a secret campaign in which some of the most vocal exponents of intellectual freedom in the West were working for or subsidized by the CIA—whether they knew it or not. Called "the most comprehensive account yet of the [CIA's] activities between 1947 and 1967" by the New York Times, the book presents shocking evidence of the CIA's undercover program of cultural interventions in Western Europe and at home, drawing together declassified documents and exclusive interviews to expose the CIA's astonishing campaign to deploy the likes of Hannah Arendt, Isaiah Berlin, Leonard Bernstein, Robert Lowell, George Orwell, and Jackson Pollock as weapons in the Cold War. Translated into ten languages, this classic work—now with a new preface by the author—is "a real contribution to popular understanding of the postwar period" (The Wall Street Journal), and its story of covert cultural efforts to win hearts and minds continues to be relevant today.

Music and Culture in the Middle Ages and Beyond 2016-10-27 Benjamin Brand It has become widely accepted among musicologists that medieval music is most profitably studied from interdisciplinary perspectives that situate it within broad cultural contexts. The origins of this consensus lie in a decisive reorientation of the field that began approximately four decades ago. For much of the twentieth century, research on medieval music had focused on the discovery and evaluation of musical and theoretical sources. The 1970s and 1980s, by contrast, witnessed calls for broader methodologies and more fully contextual approaches that in turn anticipated the emergence of the so-called 'New Musicology'. The fifteen essays in the present collection explore three interrelated areas of inquiry that proved particularly significant: the liturgy, sources (musical and archival), and musical symbolism. In so doing, these essays not only acknowledge past achievements but also illustrate how this broad, interdisciplinary approach remains a source for scholarly innovation.

Broken Idols of the English Reformation 2015-11-26 Margaret Aston Why were so many religious images and objects broken and damaged in the course of the Reformation? Margaret Aston's magisterial new book charts the conflicting imperatives of destruction and rebuilding throughout the English Reformation from the desecration of images, rails and screens to bells, organs and stained glass windows. She explores the motivations of those who smashed images of the crucifixion in stained glass windows and who pulled down crosses and defaced symbols of the Trinity. She shows that destruction was part of a methodology of religious revolution designed to change people as well as places and to forge in the long term new generations of new believers. Beyond blanked walls and whited windows were beliefs and minds impregnated by new modes of religious learning. Idol-breaking with its emphasis on the treacheries of images fundamentally transformed not only Anglican ways of worship but also of seeing, hearing and remembering.

Freedom in the World 2009 2009-10 Arch Puddington Freedom in the World, the Freedom House flagship survey whose findings have been published annually since 1972, is the standard-setting comparative assessment of global political rights and civil liberties. The survey ratings and narrative reports on 193 countries and a group of select territories are used by policy makers, the media, international corporations, and civic activists and human rights defenders to monitor trends in democracy and track improvements and setbacks in freedom worldwide. Press accounts of the survey findings appear in hundreds of influential newspapers in the United States and abroad and form the basis of numerous radio and television reports. The Freedom in the World political rights and civil liberties ratings are determined through a multi-layered process of research and evaluation by a team of regional analysts and eminent scholars. The analysts used a broad range of sources of information, including foreign and domestic news reports, academic studies, nongovernmental organizations, think tanks, individual professional contacts, and visits to the region, in conducting their research. The methodology of the survey is derived in large measure from the Universal Declaration of Human Rights, and these standards are applied to all countries and territories, irrespective of geographical location, ethnic or religious composition, or level of economic development.

The Encyclopedia of New Testament Textual Criticism Robert B. Waltz This is a PDF based on the contents of a web site I've been working on for decades. I do not believe I will ever entirely finish it. But I wanted to make it available. Textual criticism is the process of recovering an ancient document from late and corrupt manuscript copies; New Testament Textual Criticism consists of trying to figure out what the New Testament originally said before scribes messed it up. Dedicated to Dr. Sally Amundson and Dr. Carol Elizabeth Anway and Lily. This version, from July 20, 2013, will probably be the last; the file is almost too large to edit.

Lost Libraries 2004-01-31 J. Fourteen original contributions, introduced by a major re-evaluative history of lost libraries, offer the first ever comparative discussion of the greatest catastrophes in book history from Mesopotamia and Alexandria to the dispersal of monastic and monarchical book collections, the Nazi destruction of Jewish libraries, and the recent horrifying pillage and burning of books in Tibet, Bosnia and Iraq.

Towards a General Theory of Translational Action 2014-04-08 Katharina Reiss This is the first English translation of the seminal book by Katharina Reiß and Hans Vermeer, Grundlegung einer allgemeinen Translationstheorie, first published in 1984. The first part of the book was written by Vermeer and explains the theoretical foundations and basic principles of skopos theory as a general theory of translation and interpreting or 'translational action', whereas the second part, penned by Katharina Reiß, seeks to integrate her text-typological approach, first presented in 1971, as a 'specific theory' that focuses on those cases in which the skopos requires equivalence of functions between the source and target texts. Almost 30 years after it first appeared, this key publication is now finally accessible to the next generations of translation scholars. In her translation, Christiane Nord attempts to put skopos theory and her own concept of 'function plus loyalty' to the test, by producing a comprehensible, acceptable text for a rather heterogeneous audience of English-speaking students and scholars all over the world, at the same time as acting as a loyal intermediary for the authors, to whom she feels deeply indebted as a former student and colleague.

Magic, Witchcraft, and Ghosts in the Greek and Roman Worlds 2002 Daniel Ogden In a culture where the supernatural possessed an immediacy now strange to us, magic was of great importance both in the literary mythic tradition and in ritual practice. In this book, Daniel Ogden presents 300 texts in new translations, along with brief but explicit commentaries. Authors include the well known (Sophocles, Herodotus, Plato, Aristotle, Virgil, Pliny) and the less familiar, and extend across the whole of Graeco-Roman antiquity.

Handbook to Life in Renaissance Europe 2007 Sandra Sider The word renaissance means rebirth, and the most obvious example of this phenomenon was the regeneration of Europe's classical Roman roots. The Renaissance began in northern Italy in the late 14th century and culminated in England in the early 17th century. Emphasis on the dignity of man (though not of woman) and on human potential distinguished the Renaissance from the previous Middle Ages. In poetry and literature, individual thought and action were prevalent, while depictions of the human form became a touchstone of Renaissance art. In science and medicine the macrocosm and microcosm of the human condition inspired remarkable strides in research and discovery, and the Earth itself was explored, situating Europeans within a wider realm of possibilities. Organized thematically, the Handbook to Life in Renaissance Europe covers all aspects of life in Renaissance Europe: History; religion; art and visual culture; architecture; literature and language; music; warfare; commerce; exploration and travel; science and medicine; education; daily life.

Death in Jewish Life 2014-08-27 Stefan C. Reif Jewish customs and traditions about death, burial and mourning are numerous, diverse and intriguing. They are considered by many to have a respectable pedigree that goes back to the earliest rabbinic period. In order to examine the accurate historical origins of many of them, an international conference was held at Tel Aviv University in 2010 and experts dealt with many aspects of the topic. This volume includes most of the papers given then, as well as a few added later. What emerges are a wealth of fresh material and perspectives, as well as the realization that the high Middle Ages saw a set of exceptional innovations, some of which later became central to traditional Judaism while others were gradually abandoned. Were these innovations influenced by Christian practice? Which prayers and poems reflect these innovations? What do the sources tell us about changing attitudes to death and life-after death? Are tombstones an important guide to historical developments? Answers to these questions are to be found in this unusual, illuminating and readable collection of essays that have been well documented, carefully edited and well indexed.

Reflections on Character and Leadership 2010-04-09 Manfred F. R. Kets de Vries Reflections on Character and Leadership is the first of the three books in the Manfred Kets de Vries on the Couch series. Here, Kets de Vries looks at entrepreneurship, the pathology of leadership, and the personality of the leader. The reader will visit the disturbed inner worlds of leaders like Alexander the Great, Shaka Zulu and Robert Maxwell, discover how to distinguish between a cold fish and a live volcano, and identify impostors, despots, organizational fools and global leaders. The book highlights the basic principles of the clinical paradigm—the process of putting organizations and the individuals who lead them on the psychoanalyst's couch. It includes studies of personality archetypes and the effects they have on organizational life and culture—and the effects that organizations have on them. Referring frequently to key management concepts, Kets de Vries looks not only at what happens when things go wrong, but also at how to create the psychological and organizational space to make sure that things go right. About the series: The series offers an overview of Kets de Vries's work spanning four decades, a period in which he has established himself as the leading figure in the clinical study of organizational leadership. The books in this series contain a representative selection of Kets de Vries' writings about leadership from a wide variety of published sources and cover character and leadership in a global context, career development and leadership in organizations. The original essays were all written or published between 1976 and 2008. Updated where appropriate and revised by the author, they present a digest of the work of one of the most influential management thinkers of the present day.

Making Sense of Administrative Leadership 1989-02-14 Estela M. Bension An integration and synthesis of the theoretical literature on leadership with the literature concerning higher education as a social institution is presented. The literature on a conceptual explanation of leadership is reviewed and related directly to higher education and its sociological and organizational uniqueness. The first four of the report's five sections discuss the following topics and subtopics: (1) the contemporary context and calls for leadership (constraints in responding to the calls for leadership and overcoming constraints to leadership); (2) conceptual explanations of leadership (theories and models of leadership and organizational theory and images of leadership); (3) higher education and leadership theory (trait theories, power and influence theories, behavioral theories, contingency theories, cultural and symbolic theories, and cognitive theories); and (4) higher education and organizational theory (the university as bureaucracy--the structural frame, the university as collegium--the human resource frame, the university as political system--the political frame, the University as organized anarchy--the symbolic frame, the university as cybernetic system, and an integrated perspective of leadership in higher education). The fifth and final section, Overview and Integration, discusses the effectiveness of leadership, cognitive complexity, transformational and transactional leadership, leadership paradigms, thinking about leadership, and an agenda for research on leadership in higher education. The report contains approximately 250 references. (SM)

The diamond was called the Star of Africa, and it was the greatest and most beautiful diamond in the globe. It was protected by a advanced security setup, and a group of equipped guards. And no one noticed them, no one overheard them, no one identified who they were. They exited no trace, no clue, no testimony. They faded into the darkness, with the Star of Africa. And the mystery of the missing diamond began.
