Routledge Handbook of Francophone Africa

2023-11-02 Tony Chafer The Routledge Handbook of Francophone Africa brings together a multidisciplinary team of international experts to reflect on the history, politics, societies, and cultures of French-speaking parts of Africa. Consisting of approximately 35% of Africa's territory, Francophone Africa is a shifting concept, with its roots in French and Belgian colonial rule. This handbook develops and problematizes the term, with thematic sections covering: Colonial and post-colonial ties between France and sub-Saharan Africa Belgium, Belgian colonialism and Africa The Maghreb African Francophones in France Francophone African literature and film 'Francophone' and 'Anglophone' Africa Beyond national boundaries and 'colonial partners' The chapters demonstrate the evolution of "Francophone Africa" into a multi-dimensional construct, with both a material and an imagined reality. Materially, it defines a regional territorial space that coexists with other conceptualisations of African space and borders. Conceptually, Francophone Africa constitutes a shared linguistic and cultural space within which collective memories are shared, not least through their connection to the French imperial imagination. Overall, the Handbook demonstrates that as global power structures and relations evolve, African agency is increasingly assertive in shaping French-African relations. Bringing this important debate together into a single volume, this Handbook will be an essential resource for students and scholars interested in Francophone Africa.

Strengthening Forensic Science in the United States

2009-07-29 National Research Council Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full

account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Allah is Not Obligated

2007-05-08 Ahmadou Kourouma ALLAH IS NOT OBLIGED TO BE FAIR ABOUT ALL THE THINGS HE DOES HERE ON EARTH. These are the words of the boy soldier Birahima in the final masterpiece by one of Africa's most celebrated writers, Ahmadou Kourouma. When ten-year-old Birahima's mother dies, he leaves his native village in the Ivory Coast, accompanied by the sorcerer and cook Yacouba, to search for his aunt Mahan. Crossing the border into Liberia, they are seized by rebels and forced into military service. Birahima is given a Kalashnikov, minimal rations of food, a small supply of dope and a tiny wage. Fighting in a chaotic civil war alongside many other boys, Birahima sees death, torture, dismemberment and madness but somehow manages to retain his own sanity. Raw and unforgettable, despairing yet filled with laughter, Allah Is Not Obligated reveals the ways in which children's innocence and youth are compromised by war.

Fama: A Pathetic Desecrated Prince Or a Disgruntled Foot-soldier? Critical Reflections on "The Suns of Independence" of Ahmadou Kourouma

2012-02 Mawuloe Koffi Kodah Research Paper (undergraduate) from the year 2012 in the subject Literature - Africa, grade: none, course: Language and Literature, language: English, abstract: This paper examines the character of Fama, the protagonist in The Suns of Independence of Ahmadou Kourouma, as an exact replica of a foot-soldier in contemporary Ghanaian socioeconomic and political

development. In this regard, it draws a parallelism between the character of Fama and a foot-soldier and makes recommendations for the way forward in order to sustain socioeconomic and democratic development. Consequently, the study draws attention to issues relating to political fanaticism and their accompanying tragic disenchantment for unsuspecting self-seeking citizens in emerging multiparty democratic states in developing countries such as Ghana. In the light of the inherent dangers in self-seeking political activism as seen in the character of Fama, for that matter, in that of foot-soldiers, the study recommends steps that will help sanitize political activities and democratic practice in Ghana, and Africa as a whole.

Energy Independence

2022-08-01 Alden M Hathaway, II The 20th century is known to the entire world as a century of American greatness. Innovations in energy drove that American superiority; innovations such as oil pipelines, petroleum-based fuel, the light bulb, electricity, and the power grid. However, our legacy energy economy leaves us wanting in the 21st century. Centralized vulnerability, wasted generation capacity, dependence on foreign fuel, and climate change are financed by every one of us at the pump and in our monthly utility bill. However, "Energy Independence" is not about what is wrong with our current energy economy; rather it describes a bright future that is waiting to be unlocked. It presents a plan where the average homeowner can not only achieve energy freedom for their household, but usher in the new energy economy.

The Suns of Independence

1981 Ahmadou Kourouma The "Suns of Independence" considered a masterpiece of modern African literature, enables the reader to gain unique insight into African culture and conflicts. Through Fama and Salimata, the husband and wife at the heart of the story, Kourouma conveys the confusion that torments many Africans when a traditional and a later, more materialistic culture collide. The last of the Dumbuya princes who had reigned over the Malinke tribe before the European

conquest, Fama seeks a place for himself within the new hierarchy of bureaucrats and border guards. Salimata, haunted by memories of a ritualistic excision and a brutal rape, searches for the means to have a child who will pass on the Dumbuya legacy to future generations. Interwoven with tales and proverbs from the ancient Malinke traditions, this modern novel brilliantly captures the struggles, desires, and dreams of a people in a West African country living through the tumultuous days of Independence. -- Publisher description.
