Roundell Palmer (1st earl of Selborne.) 1888  
**Religion and Society in the Diocese of St Davids 1485-2011** John Morgan-Guy 2016-04-01 During the medieval and early modern periods the Welsh diocese of St Davids was one of the largest in the country and the most remote. As this collection makes clear, this combination of factors resulted in a religious life which was less regulated and controlled by the institutional forces of both Church and State. Addressing key ideas in the development of popular religious culture and the stubborn continuity of long-lasting religious practices into the modern era, the volume shows how the diocese was also a locus for continuing major

religious controversies, especially in the nineteenth century. Presenting a fresh view of the Diocese of St Davids since the Reformation, this is the first new account of religion and society in over a century. It is, moreover, not one which is written primarily from an institutional perspective but from that of wider society. As well as a chronological treatment, giving an overview of the history of religion in the diocese, chapters address key themes, including a study of religious revivals which originated within the borders of the diocese; consideration of popular and elite education, including the contribution of Bishop Burgess's pioneering institution at Lampeter (the first degree

Oxford and Cambridge); the relationship of the Church to the revival of Welsh cultural identity; and new reflections on the agitation and realisation of disestablishment of the Church as it affected Wales. As such, this pioneering study has much to offer all those with an interest, not only in Welsh history, but ecclesiastical history more broadly.

**The Oxford History of Protestant Dissenting Traditions** Mark A. Noll 2017 The five-volume Oxford History of Dissenting Protestant Traditions series is governed by a motif of migration ('out-of-England'). It first traces organized church traditions that arose in England as Dissenters distanced themselves from a state church defined by diocesan episcopacy, the Book of Common Prayer, and the

evangelical or Methodist revival had a major impact on Welsh religion, society and culture, leading to the unprecedented growth of Nonconformity by the nineteenth century, which established a very clear difference between Wales and England in religious terms. Since the Welsh Calvinistic Methodist movement did not split from the Church to form a separate denomination until 1811, it existed in its early years solely as a collection of local society meetings. By focusing on the early societies in south-west Wales, this study examines the grass roots of the eighteenth-century Methodist movement, identifying the features that led to its subsequent remarkable success. At the heart of the book lie the experiences of the men and women

### **The Church in the Nineteenth Century**

Frances Knight

2008-04-07 The

nineteenth century was one of the most fascinating and volatile periods in Christian history. It was during this time that Christianity evolved into a truly global religion, which led to an ever greater variety of ways for Christians to express and profess their faith. Frances Knight addresses the crucial question of how Christianity contributed to individual identity in a context of widespread urbanisation and modernisation. She explores important topics such as the Evangelical revivalism

by the likes of the founder of the Christian Mission - later the Salvation Army - William Booth; the Oxford Movement under Newman, Keble and Pusey; Mormonism and Protestant revivalism in the USA; socialism and the impacts of Karl Marx and anarchism; continuing theological divisions between Protestants and Catholics; and the development of pilgrimage and devotion at places like Lourdes and Knock. Her book also examines the most significant intellectual trends, such as the rise of critical approaches to the Bible, and the different directions that these took in Britain and America. The author's unique emphasis on the 'ordinary' experience of Christians worldwide makes her volume indispensable for students and general

2013-10 This book considers the use of the Bible by dissenters in Britain from the mid-17th to the mid-20th centuries. It reconsiders the divided history of Protestantism: dissenters were people drawn together by the belief that they were truer to the Bible than any other Christians, yet still divided by differences in how they read it.

**Religion, Identity and Conflict in Britain: From the Restoration to the Twentieth Century**

Frances Knight

2016-04-08 The British state between the mid-seventeenth century to the early twentieth century was essentially a Christian state. Christianity permeated society, defining the rites of passage -

baptism, first Communion, marriage and Disestablishment 1603 shaped

individual lives, providing a sense of continuity between past, present and future generations, and informing social institutions and voluntary associations. Yet this religious conception of state and society was also the source of conflict. The Restoration of the monarchy in 1660 brought limited toleration for Protestant Dissenters, who felt unable to worship in the established Church, and there were challenges to faith raised by biblical and historical scholarship, science, moral questioning and social dislocations and unrest. This book brings together a distinguished team of authors who explore the interactions of religion, politics and culture that shaped and defined modern Britain. They consider expressions of

Norman Doe 2020-03-05

This book marks the centenary of the Church in Wales, following its disestablishment in 1920. Part I provides a historical overview: from the Age of the Saints to Victorian times; the disestablishment campaign; Christianity in Wales since 1920; and broad issues faced over the century. Part II explores the constitution, bishops and archbishops, clergy, and laity. Part III examines doctrine, liturgy, rites of passage, and devotions

with other faith communities. Part IV deals with the church and culture, education, the Welsh language, and social responsibility. Part V discusses the changing images of the Church and its future. Around themes of continuity and change, the book questions assumptions about the Church, including its distinctive theology and Welshness, ecumenical commitment, approach to innovation, and response to challenges posed by the State and wider world in an increasingly pluralist and secularised Welsh society over the century.

Nonconformity, the umbrella term for Congregationalists, Presbyterians, Baptists, Methodists and Unitarians, belongs specifically to the religious history of England and Wales.

Initially the result of both unwillingness to submit to the State's interference in Christian life and a dissatisfaction with the progress of reform in the English Church, Nonconformity has been primarily motivated by theological concern, ecclesial polity, devotion and the nurture of godliness among the members of the church.

Alongside such churchly interests, Nonconformity has also made a profound contribution to debates about the role of the

State, to family life and education, culture in general, trade and industry, the development of philanthropy and charity, and the development of pacifism. In this volume, for the first time, Nonconformity and the breadth of its activity come under the expert scrutiny of a host of recognised scholars. The result is a detailed and fascinating account of a movement in church history that, while currently in decline, has made an indelible mark on social, political, economic and religious life of the two nations.

Mita I Williamson*

between 1885 and 1901 - was a fluid and unsettling epoch of optimism and pessimism, endings and beginnings, as well as of new forms of creativity and anxiety. The end of the century has attracted much interest from scholars of literary and cultural studies, who regard it as a critical moment in the history of their disciplines; but it has been relatively ignored by religious historians. Frances Knight here sets right that neglect. She shows how late Victorian society (often said to be one of the most intensely Christian cultures the world has ever seen) reacted to the bold agendas being set by the thinkers of the fin de siècle; and how prominent Church figures during the era first identified many of the concerns that have

latterly. These include an active interest in social justice and the creation of new types of communities; increasingly open discussion of the sexual exploitation of children; debates about society's 'decadence'; new ideas about the role of women; and the belief in the redemptive powers of art, pioneered by figures as diverse as P.T. Forsyth, Percy Dearmer and Samuel and Henrietta Barnett. Examining in particular the Christian world of fin de siècle London, the author offers penetrating insights into a society in which the ritual and culture of Christianity sometimes permeated the aesthetic movement and where devotees of the aesthetic movement - like Walter Pater, Oscar Wilde and their disciples - often revealed a fascination

with Christianity. She argues that the 'long 1890s' was a decisive decade in which various sections of Christian opinion, both on the progressive and the more conservative wings of the faith, began to express views which set the tone for attitudes which would become commonplace in the twentieth century.

Victorian Christianity at the Fin de Siecle is the focussed treatment of religion and culture at the end of the nineteenth century that the field has long needed. It will be welcomed by scholars of church history, social and cultural history and the history of ideas.

and wide-ranging in its scope, The Oxford Dictionary of the Christian Church is the indispensable reference work on all aspects of the Christian Church. It contains over 6,500 cross-referenced A-Z entries, and offers unrivalled coverage of all aspects of this vast and often complex subject, from theology; churches and denominations; patristic scholarship; and the bible; to the church calendar and its organization; popes; archbishops; other church leaders; saints; and mystics. In this new edition, great efforts have been made to increase and strengthen coverage of non-Anglican denominations (for example non-Western European Christianity), as well as broadening the focus on Christianity and the history of churches.

areas beyond Western Europe. In particular, there have been extensive additions with regards to the Christian Church in Asia, Africa, Latin America, North America, and Australasia. Significant updates have also been included on topics such as liturgy, Canon Law, recent international developments, non-Anglican missionary activity, and the

increasingly important area of moral and pastoral theology, among many others. Since its first appearance in 1957, the ODCC has established itself as an essential resource for ordinands, clergy, and members of religious orders, and an invaluable tool for academics, teachers, and students of church history and theology, as well as for the general reader.
