Startup Nation Jeff Sloan 2007-12-18 Want to take control of your life? Want to trade in that listless job and create the company you've always dreamed of? Millions of new businesses are started each year, from online diamond dealers to part-time "get projects" to the latest franchises. StartupNation is all about putting you in the driver's seat to start your own business. Jeff and Rich Sloan are lifelong entrepreneurs who have created dozens of successful businesses and have guided and advised thousands of others through their nationally syndicated radio talk show, on their Web site, and in their weekly online newsletter. In StartupNation, the Sloan Brothers examines every aspect of smart entrepreneurship and help you create the business you've always dreamed of. You'll learn about the dos and don'ts and the highs and lows of building your own business through the Sloan's in-the-trenches insights and the inspirational tales of over thirty other gutsy entrepreneurs. Among the stories you'll read about: • The Sloan's own patented invention, the Battery Buddy®, which generated more than \$1 million in royalties • Lavetta Willis, who built Dada Footwear into a fashion brand that now produces sneakers worn by NBA basketball stars • Tom Nardone, who created the booming ShopInPrivate.com, where people can order items they're embarrassed to buy at the local drugstore. StartupNation presents a master course in identifying a good idea, building the right kind of business around it, and avoiding the pitfalls that can derail you. If you've ever dreamed of pursuing your own business, StartupNation will be your most powerful resource.

The Busyness Delusion Chris Gardener 2018-06-17 When your business is a "job in disguise" and feels like a hamster wheel it's time to get smarter. How to have financial security, freedom and fulfillment ... without being so stupidly busy. When people find out you run your own business you know what they'll ask: "How's it going? Are you busy?" Somehow, "busy" has come to mean "successful." But you didn't wake up this morning thinking "my main aim today is to be as busy as possible!" You don't have your business "to be busy" ... so why DO you work so hard? We all have our businesses for the same reason. The same three reasons actually - to have financial security, freedom and fulfillment - the 3Fs. But these aren't the outcomes for most small businesses. Instead, the common experience feels like you're on a hamster wheel, where the hours are long and the rewards mediocre. Self-esteem is threatened and life, love and relationships impacted. This book explains why this happens and how to approach work in a smarter way, to have a better business with less busyness and more certain results, so you can get back to living and loving life again. How, by climbing off the hamster wheel and escaping The Busyness Delusion, you can take the easier, more certain route to turn your own business into one that does give you all 3Fs. It covers: Why the hustle method is seductive but flawed, and how to use a smarter approach Why most self-employed people unwittingly choose the hardest way to earn, and what the easier options are. How to overcome the biggest obstacle to a smarter business and better life. What financial security really means and how to achieve it quicker and more easily. How to get better results by applying a simple model of how the brain works to give you more control. How to eliminate your competition to make it easier to get better results. Providing a new framework, illustrated in clear diagrams and told through a compelling story, this book reveals why copying others creates the hamster wheel effect, and precisely what to do to have a business and life you deserve. "This book nails the problem with most small businesses. The solutions are time-tested principles, for the first time pulled together in an original and enjoyable way that's easy to understand and implement." Dan Sager

Family Business Secrets Irving Katz 2010-10 Irving Katz wrote this book because family business today is in trouble and needs a crash course in survival. Family business owners are working hard in their businesses-dealing with tactics, getting things done, and trying to cover all the bases. They take on too many responsibilities and waste time on activities they should delegate. Everyone else comes first, before the family and the family's future. They feel they are doing the best they can, but are not making progress. These owners work in the business, but have not really taken the time to work on their business. There has been no strategic planning-no stepping back to consider the business as a whole and in which direction it should be steered. If family business owners start working on their businesses, we will all benefit. This guide is not only about the why, but also the how.

Business Credit Blueprint Kimberly McFarlane 2016-12-20 In this book, the authors reveal how a small business owner can gain access to tens-of-thousands of dollars in Revolving Credit and Lines of Credit with little to no liability - whether it's a startup or established business. As an added bonus, they also include techniques on how to gain access to innovative funding options whether a business has Good Credit, Bad Credit or a Personal Guarantee.

Stealth Capital Secrets John Cleveland 2015-10-29 Through my journeys in business I wanted to help the next big idea, next fledgling company, or next revolutionary entrepreneur get around that learning curve that seems to get us more frustrated than anything. How to gain finances for your business came from very meager means that come from my extensive research over the years. Through this book I put together a how to guide and cut out all the fluff most other books use to bulk up the pages. The places we are going to explore don't require you to use your personal credit, nor does it require you to be 30 years into a business. These strategies certainly stay away from the traditional bank loan route that has been fed to the public for years. Effort or hard work was not the problem myself and other entrepreneurs took issue with. It was the lack of adequate capital driving us out of the fast lane of success into the non-moving lane of stagnation that many businesses struggle with on a daily bases. I have no illusions that business is not an overnight success. I agree that a successful business endures the marathon and not the sprint. Here is what we will be exploring in this book: Building business credit without needing a personal guarantor Obtaining Assets such as Real Estate without any credit or little to no money Rags to Riches Junk Flipping Using Alternative funding without a bank loan (MCA) Finding Sponsors to foot the bill Networking your way to Partnerships Crowdfunding Selling stocks and bonds with your business Donations and Grants!! Pre Sale Funding Rollover Financing The government spends millions of dollars of telling us how they want to create jobs and promote small business to grow the economy. The problem with that is that there is no one size fits all strategy for all businesses. The old school traditional rule of thought is to go down to the local bank and ask for a loan. There is no comprehensive or practical guide to obtaining that almighty dollar to startup capital. Until now..

Invest in Your-SELF Marc Eisenson 1998-09-22 Don't just invest in stocks and bonds. Invest in your life. "This book is guaranteed to make a difference in the way you approach money, work-and life in general-whether you're just starting out, struggling to succeed, or already on track." -Terry Savage, Chicago Sun-Times, personal finance columnist. "We Americans have a choice-spend life enslaved to the gods of consumerism, or live simply but free to fulfill our dreams. If you are yearning to give freedom a try, you'll find this inspiring book provides the road map you'll need to get started." -Ralph Warner, author of *Get a Life: You Don't Need a Million to Retire Well*. "The most important trend of the new millennium is the focus on freedom. Invest in Yourself will put you on the path to freedom, so you can live the life you freely choose. It will help you on the job, at home, and with your finances." -Gerald Celente, Director, Trends Research Institute and author of *Trends 2000*. A Money Book Club selection Put together the portfolio of your life-finances, family, and you Success in life consists of more than just a hefty bank account. Your happiness portfolio also includes family, friends, home, career, and the time to appreciate life's simple pleasures. Invest in Yourself offers six easy steps to simplify your life and enjoy it to the fullest. It all comes down to making decisions about what you really want and then mapping out a realistic game plan to get there. Where do you want to live? Do you want to put your career on hold to spend more time with your toddler? Are there a few small business ideas rattling around in your head that you'd like to turn into reality? Would you like some easy, proven ways to reduce the cost of college? When do you want to retire, and what hopes do you have for your golden years? Changing your direction doesn't have to send your life into a tailspin. Once you nail down your goals, Invest in Yourself provides savvy advice as well as painlessly practical and risk-free strategies you can use immediately to test drive your fantasies and discover for yourself if they are right for you. Invest in Yourself isn't afraid to challenge conventional wisdom. Do you really need to sock away a king's ransom for retirement? Is the purchase of a home the most important investment of your life? Do you need a lot of capital to start a small business, and is it worth the risk? How can you make sure your children will be accepted at the best college for them? Invest in Yourself offers the perfect mix of down-to-earth philosophy, financial strategies, and money-saving tips. You'll also learn how to start your own business with little risk, negotiate flex-time at work, plant a healthful garden, and help your children become smart consumers. Packed with sidebars, anecdotes, examples, homespun wisdom, and references to Web sites, newsletters, books, and other resources, Invest in Yourself is a comprehensive guide to creating the life of your dreams. It will have a major impact on your life's bottom line. Marc Eisenson is the author of the bestseller, *The Banker's Secret*, and a nationally recognized expert on how to painlessly exit from debt. Barreto 2007-12-14 Winning business strategies from CEOs of 50 successful small businesses (some of which are now large corporations) who share their experiences to help those starting or growing their own business Small business is the engine that drives America's new economy. In *The Engine of America*, former administrator of the Small Business Administration (SBA), Hector Barreto and veteran journalist Bob Wagman reveal the winning business strategies of CEOs from 50 companies. For all those starting or growing their own small business, the wisdom, experience, and counsel of these successful leaders provides inspirational and thoughtful advice on

making it as an entrepreneur. In this book, Barreto shares details of business success, and the insights he gained while administering the nation's largest small business loan, training, and counseling organization. Some of those sharing their stories in The Engine of America have grown their businesses from the most humble of beginnings into corporate giants whose brands are household names and whose operations are integral parts of the national economy. Others may not be instantly recognizable, but what they have in common is success. Hector Barreto believes if you can teach a small business owner something he or she doesn't know, but which is critical to the growth of their small business or which allows them to avoid a critical mistake, you have helped put them on the road to success. That's what The Engine of America will do. Hector V. Barreto (Los Angeles, CA) is the former five-year administrator of the U.S. Small Business Administration where he directed a \$60 billion support system for American entrepreneurs. He has lived and worked in all regions of the country, and is currently the Chairman of the Latino Coalition and a frequent speaker on small business topics. Robert Wagman (Washington, DC) is the former Capitol bureau chief for Scripps Howard's Newspaper Enterprise Association. He is also a former field producer for 60 Minutes, editor of the World Almanac on Politics, and author of many business and political nonfiction books.

The Business Credit Handbook Reid A. Nunn 2014-07-22 The business credit world is different from the consumer credit world. Business owners can access more capital, at better rates, terms, and conditions if they take the time to get their business set up properly. The required steps, detailed by chapter are: The Power of Business Credit, Business Credit Reporting Agencies, Business Credit Scoring, Building a Strong Business Foundation, Building Business Credit, Building Vendor Credit, Building Revolving Credit, Bank Ratings, Obtaining Business Funding, Types of Available Credit and Funding, and, Understanding Personal Credit. Though this book might be categorized in banking because it deals with credit and loans from various sources including banks (banks are typically the hardest to qualify for - and your banker usually won't tell you the real reasons you did not qualify).... it is as much about strategic planning to setting up proper business credit as it usually takes outside money when needed to get a company where it needs to go. In addition to preserving the corporate veil by not personally guaranteeing business loans, the business owner's own personal credit is enhanced. Learn about this in Chapter 11 - Understanding Personal Credit

The Entrepreneur's Growth Startup Handbook David N. Feldman 2013-08-07 An accessible guide to handling the unforeseeable consequences of becoming an entrepreneur in today and tomorrow's economy The spirit of an entrepreneur is often characterized as one of unbridled passion and a sense of fearlessness. But what about the consequences of choosing to become an entrepreneur? The occupational hazards associated with this endeavor range from maintaining focus, balancing work with your personal life, and finding good partners to burnout and boredom. Despite the abundance of entrepreneurial guides written, few focus on the essential aspect of dealing with the unexpected personal and professional costs of starting and financing a business. This new book will help you answer these tough questions. Engaging and informative, this book skillfully examines what usually goes wrong on the road to entrepreneurship, revealing what business owners regret and what you can do to address these issues. Along the way, it provides an overview of the personality traits and qualities that make success in entrepreneurship more likely, and also explores how the weight of wearing the entrepreneurial hat can affect you. Covers the seven principal obstacles that can arise at any level in the entrepreneurial game Filled with the valuable insights of an author who has experience as an entrepreneur and as a corporate attorney representing hundreds of entrepreneurs over his twenty-six year legal career Touches on issues associated with everything from the nerve-wrecking start-up phase to the disenchanted later stages when success does not necessarily guarantee personal or professional contentment If you're looking for a better way to manage and minimize some of the most prominent problems you'll face as an entrepreneur, look no further than this book.

The Entrepreneur's Secret to Creating Wealth Chris Hurn 2012 An often overlooked secret to creating wealth as a business owner has little to do with actually running the business. Marketing, customer service, quality products, and more are required to make a business successful...but when it comes to creating real and lasting wealth, decisions regarding this key "secret" will have the greatest impact. As both a small business lender and a small business owner himself, Chris Hurn has a bird's eye view of how businesses create wealth, as well as an in-the-trenches perspective on the tough decisions that must be made if a business is to go from good to great. In The Entrepreneur's Secret to Creating Wealth, Chris explains the myriad of factors and variables involved in this significant wealth-creation strategy. Plenty of books describe how entrepreneurs can create more than a happy employees. But no other business book outlines in such detail - and with such authority - how to actually develop the wealth behind the business. SPECIAL OFFER When you buy two or more copies of this book (say, one for you and one you give to a friend), we'll donate the net proceeds of the sale to the National Federation of Independent Business (NFIB) Young Entrepreneur Foundation. Business Loans Are Easy...If You Know the Secrets Alan Jewells 2012-05-31 Introduction It has been my experience that in almost every walk of life, there are, for want of a better word SECRETS. There are secrets to business, secrets to health, secrets to developing real estate, secrets to wine making you name it. The purpose of this book is to share with you the secrets and tricks of the trade that I have learned regarding small business loans. These tricks are not grand illusions or mysteries. They are not difficult to understand. They are, like almost all secrets, simple formulas, procedure and principles that if followed, will elevate your success. Business owners have a quality about them which is unlike other individuals, whom do not aspire to own a business. In working with entrepreneurs for over two decades, I have found they literally have a sense of magic about them. The ability to win success, lose it, and win it again; the ability to have vision and see beyond others in an industry; and the ability to focus with intention and purpose unlike spouses, friends, or associates that may be around them. Thus, the purpose of this book is to help business owners make their magic happen. They are the soul of the economy. I have been in banking and lending for 23 years. The bulk of my career has been working with small business owners who are seeking commercial credit. During this time, I have realized that I have spent the majority of my time answering questions about the start-to-finish process of business loans. It doesn't matter if I am talking to a client, real estate agent, business broker, mortgage loan broker, etc. Always, the majority of the conversation is focused on the details and how to succeed in the process. The purpose of this book is to answer 90% of these questions. Neither this, nor any book, will be able to give 100% of the answers. The commercial lending industry is always changing and in many ways is subjective in how items are considered for a loan. But, I promise that this book will provide you a solid foundation to move forward in the loan process. This book is an attempt to make the process easy to understand, and at the same time provide a sufficient guide to walk you through every step. It is being written in plain English, like I was sitting across the table from you. I am intentionally trying to avoid terms which only bankers will understand, and I am intentionally not going into details which you will not need to be concerned with. I am also writing this book in a brief version that could be read in a weekend. I know your time is money, and I don't want to waste it. This book is not written, however, as a guide for larger loan transaction (those over \$10 million). The focus of this book is to aid small business owners and the professionals that serve them. Also, it is intended to be an aid, but not a Band-Aid. In other words, don't try to use this book to cover up problems or deceive lenders. Deception or fraud to lenders is the worst thing you can do. It will waste everyone's time, and could place you in a position which you will regret later. The best thing to do is always be of full disclosure. Find the right loan program, find the right lender, complete the paperwork, and move on to success. It can be as easy as 1, 2, 3 Lending is an art, and this is my interpretation. Borrowers are encouraged to look at all options and available sources. In my quest to be a productive member of the lending and business community, I am genuinely hopeful that this book will be beneficial for you, with these intentions in mind. The greatest moments of my career are when I witness clients succeeding in their business. Be focused. Be successful.

Understanding the Secret Language of Money John E Moriarty 2014-07-24 When I started creating the content for this book, my intention was to touch, move, impact, or agitate you, the reader, enough to change your perspective on finance and money related decisions. Some parts of this book may make you feel uneasy. If so, I encourage you to keep reading because you could be nearing a breakthrough. It's very possible to experience several different emotions as you digest the material in this book: curiosity, fear, anger, excitement, or even relief. This process needs to occur so that you can uncover your limiting beliefs. Once you realize what is standing between you and financial security then you can identify the resources and services that can add value to your financial life. My passion in business is to awaken the inner entrepreneur in all of us. The entrepreneurial mindset is present when individuals, families, and small business owners do the following: Educate themselves on financial topics that protect their personal economies Gain confidence in their minds that financial freedom is attainable for them Take action toward customized, one-sized-fits-one solutions through proactive implementation of cutting-edge strategies Establish trust with a team of resources that properly manage expectations Adjust their paths as the world around them changes Why do I find this entrepreneurial awakening so important? I believe that there are real economic forces working against individuals, families, and small business owners who have saver mentalities because they contradict our consumer-driven society. I am not saying these forces are evil or intend to harm the average American, but I do believe that certain elements of our society benefit from the effects of consumerism. Also, I don't want readers to think that this book is only for business owners or entrepreneurs. I believe that you can have financial success regardless of occupation, current age, income, upbringing, or level of education. You will uncover the key to your success as you understand your relationship with money and the habits you have formed over time. Your beliefs about finance are built over many years of experiences. They start when you are a young child through adolescence into adulthood, culminating in your golden years. The ability to uncover your habits and relationship with money is a skill most financial professionals do not even possess. What differentiates our firm, E3 Consultants Group, from every other financial service organization in the country is how we use the science of neuro-linguistic programming (NLP). E3 is a comprehensive wealth management firm I started in 2003 that serves individuals, families, and small businesses interested in a different approach to finance and money related decisions. The science of NLP demystifies the link among the mindset, language, and behavior of any human being. NLP is a tool to unlock the clues to where you are right now in your relationship with money and helps solidify our firm's role in adding value to your financial future. Keep this in mind as you proceed, and I hope you can see why I want to proactively challenge the way Americans are educated about finance and money related decisions.

Jackpot! John-Paul Iwuoha 2021-02-04 Every year, hundreds of ideas die because the entrepreneurs behind them can't find the funds they need to bring those ideas to life. Across the world, thousands of businesses and projects remain small and perform below their true potential because they lack the capital to grow, scale and expand.** For any entrepreneur who is passionate about achieving their dreams, the ability to raise money is an essential survival skill. It is a skill that comprises the ability to identify the right funding sources to target, how to craft a compelling proposition and pitch it, and how to avoid the most common and expensive mistakes that rob many entrepreneurs of the opportunity to raise the money they need.** In **Jackpot**, John-Paul Iwuoha presents a very comprehensive guide on fundraising for business, projects, and non-profit causes. He uses a combination of detailed examples, real-life success stories, and illuminating case studies to show you exactly how it's done.** In **Jackpot**, you will learn: -- The 6 core motivations for investing in any business or project; -- The top 15 sources of funding in today's world; -- The upsides and downsides of each source so you can make the best choice for your business or project; -- The Success Formula for raising capital; and -- The most common mistakes to avoid.** If you really want to understand how the whole funding thing works and how you can significantly boost your chances of raising funds for your business in today's world, this is exactly the book you need.

The Unofficial Guide to Starting a Small Business Marcia Layton Turner 1999-10-01 In a state of diminished job security, Americans are choosing to start their own businesses at a record rate. Many of these "accidental entrepreneurs" are corporate refugees who have chosen self-employment by default. Nonetheless, aspiring business people need the insider information that only an Unofficial Guide can provide. Author Diana Lynn - a small business owner who has written several books and regularly lectures on small business concerns - explains: the slowdown on networking, selling your services, hiring and firing, and tax issues; the benefits of becoming your own boss - as well as the pitfalls; the savviest ways to keep overhead expenses to a minimum; and the inside scoop on where to find office space, cheaper supplies, temporary help, and more. **The Finance Supergrass, the Secrets of Small Business Credit** David Sparks 2012-04 With businesses on the receiving end of much closer financial scrutiny than before, many struggle to get their hands on finance. Banks, with less money available to lend, are forced to choose those business propositions that meet their tighter risk criteria. In the current back-to-basics era, a compelling business case for finance is now a 'must have' before meeting a bank. This book is an essential guide to what any business must know before talking to their bank about finance in these changing times. In this book you will discover: what kind of businesses banks actually like to lend to; how much finance you should ask for; how a bank decides on your credit rating; why banks don't just lend the money because you offer security; what a bank is really interested in knowing about your business; what ROE is and why it matters; how many business forecasts you should show your bank; how many banking relationships your business should have;

what sensitivity analysis is and why you need to know; and a whole lot more! David Sparks worked in business banking for over twenty years in the UK, Eastern Europe and the Middle East. Subsequently he established a successful training and consulting business with a particular focus on teaching bank managers how to evaluate business customers for credit. In *The Finance Supergrass*, *The Secrets of Small Business Credit*, David Sparks reveals the mindset of a commercial bank manager when assessing a business for credit. "If finance is not your thing, then this book is for you! In less than 90 minutes, you'll be up to speed on what matters and what's needed to make a persuasive case for finance for your business. An excellent straight-talking read; I defy anyone to go through this book and not come away with a 'to do' list that will improve their business case for finance." Joe Browne, Executive Chairman, SRXGlobal, Sydney, Australia "I think we all know this stuff but never think about it from the banks perspective. We still deliver our business plans and wonder why banks don't seem to get it! A well written, informative guide to how the guys with the money think and what we as entrepreneurs need to focus on when looking for funding." Ian Searle, Managing Director, Talkis Limited, West Sussex, UK "As a first time successful owner of an SME for three and a half years this book is like reading d j vu. A great reference guide on understanding how to analyse your business model, develop a persuasive case for finance and ensure success in securing funds for business growth in a new financial era." Steve Satherley, Owner, S & K Liquor, Wellington, New Zealand "If you want to have a meaningful conversation about finance with your bank, you need to talk their language. Take the time out to read this book and you'll be well equipped to have that conversation. A must-read for any business preparing its case for finance before meeting with their bank." Julio de Quesada, Independent Financial Services Professional; formerly Executive Vice President and Country Head, Citibank Mexico. "An excellent roadmap for any business on how to develop and maintain an empathic relationship with its bank...written in a style which is easy to understand and offers valuable insights into the mindset of lending institutions." Eamonn Fitzgerald, Chief Executive, Hermitage Medical Clinic, Dublin, Ireland.
