Luna Loves Art Joseph Coelho 2021

Hyperion, Or the Hermit in Greece Friedrich Hölderlin 2019-03-05 Friedrich Hölderlin's only novel, *Hyperion* (1797-99), is a fictional epistolary autobiography that juxtaposes narration with critical reflection. Returning to Greece after German exile, following his part in the abortive uprising against the occupying Turks (1770), and his failure as both a lover and a revolutionary, *Hyperion* assumes a hermitic existence, during which he writes his letters. Confronting and commenting on his own past, with all its joy and grief, the narrator undergoes a transformation that culminates in the realisation of his true vocation. Though Hölderlin is now established as a great lyric poet, recognition of his novel as a supreme achievement of European Romanticism has been belated in the Anglophone world. Incorporating the aesthetic evangelism that is a characteristic feature of the age, *Hyperion* preaches a message of redemption through beauty. The resolution of the contradictions and antinomies raised in the novel is found in the act of articulation itself. To a degree remarkable in a prose work of any length, what it means is inseparable from how it means. In this skilful translation, Gaskill conveys the beautiful music and rhythms of Hölderlin's language to an English-speaking reader.

NAACP Image Award • Named one of the best
books of the year by The New York Time, USA
Today, San Francisco Chronicle, NPR, Esquire,
Newsday, and Booklist Trevor Noah's unlikely
path from apartheid South Africa to the desk of
The Daily Show began with a criminal act: his
birth. Trevor was born to a white Swiss father
and a black Xhosa mother at a time when such a
union was punishable by five years in prison.
Living proof of his parents' indiscretion, Trevor
was kept mostly indoors for the earliest years of
his life, bound by the extreme and often absurd
measures his mother took to hide him from a
government that could, at any moment, steal him
away. Finally liberated by the end of South
Africa's tyrannical white rule, Trevor and his
mother set forth on a grand adventure, living
openly and freely and embracing the
opportunities won by a centuries-long struggle.
Born a Crime is the story of a mischievous young
boy who grows into a restless young man as he
struggles to find himself in a world where he
was never supposed to exist. It is also the story
of that young man's relationship with his
fearless, rebellious, and fervently religious
mother—his teammate, a woman determined to
save her son from the cycle of poverty, violence,
and abuse that would ultimately threaten her
own life. The stories collected here are by turns
hilarious, dramatic, and deeply affecting.
Whether subsisting on caterpillars for dinner
during hard times, being thrown from a moving
car during an attempted kidnapping, or just
trying to survive the life-and-death pitfalls of
dating in high school, Trevor illuminates his
curious world with an incisive wit and
unflinching honesty. His stories weave together
to form a moving and searingly funny portrait of
a boy making his way through a damaged world
in a dangerous time, armed only with a keen
sense of humor and a mother's unconventional,
unconditional love.

Mindstorms Seymour A Papert 2020-10-06 In this revolutionary book, a renowned computer scientist explains the importance of teaching children the basics of computing and how it can prepare them to succeed in the ever-evolving tech world. Computers have completely changed the way we teach children. We have Mindstorms to thank for that. In this book, pioneering computer scientist Seymour Papert uses the invention of LOGO, the first child-friendly programming language, to make the case for the value of teaching children with computers. Papert argues that children are more than capable of mastering computers, and that teaching computational processes like debugging in the classroom can change the way we learn everything else. He also shows that schools saturated with technology can actually improve socialization and interaction among students and between students and teachers. Technology changes every day, but the basic ways that

computers can help us learn remain. For thousands of teachers and parents who have sought creative ways to help children learn with computers, Mindstorms is their bible.

Nature Poem Tommy Pico 2017-05-09 A book-length poem about how an American Indian writer can't bring himself to write about nature, but is forced to reckon with colonial-white stereotypes, manifest destiny, and his own identity as a young, queer, urban-dwelling poet. A Best Book of the Year at BuzzFeed, Interview, and more. Nature Poem follows Teebs—a young, queer, American Indian (or NDN) poet—who can't bring himself to write a nature poem. For the reservation-born, urban-dwelling hipster, the exercise feels stereotypical, reductive, and boring. He hates nature. He prefers city lights to the night sky. He'd slap a tree across the face. He'd rather write a mountain of hashtag punchlines about death and give head in a pizza-parlor bathroom; he'd rather write odes to Aretha Franklin and Hole. While he's adamant—bratty, even—about his distaste for the word “natural,” over the course of the book we see him confronting the assimilationist, historical, colonial-white ideas that collude NDN people with nature. The closer his people were identified with the “natural world,” he figures, the easier it was to mow them down like the underbrush. But Teebs gradually learns how to interpret constellations through his own lens, along with human nature, sexuality, language, music, and Twitter. Even while he reckons with manifest destiny and genocide and centuries of disenfranchisement, he learns how to have faith in his own voice.

The Prime of Miss Jean Brodie Muriel Spark 2012-03-20 “A perfect book”—and basis for the Maggie Smith film—about a teacher who makes

a lasting impression on her female students in the years before World War II (Chicago Tribune). "Give me a girl at an impressionable age, and she is mine for life!" So asserts Jean Brodie, a magnetic, dubious, and sometimes comic teacher at the conservative Marcia Blaine School for Girls in Edinburgh. Brodie selects six favorite pupils to mold—and she doesn't stop with just their intellectual lives. She has a plan for them all, including how they will live, whom they will love, and what sacrifices they will make to uphold her ideals. When the girls reach adulthood and begin to find their own destinies, Jean Brodie's indelible imprint is a gift to some, and a curse to others. The Prime of Miss Jean Brodie is Spark's masterpiece, a novel that offers one of twentieth-century English literature's most iconic and complex characters—a woman at once admirable and sinister, benevolent and conniving. This ebook features an illustrated biography of Muriel Spark including rare photos and never-before-seen documents from the author's archive at the National Library of Scotland.

Finding Latinx Paola Ramos 2020-10-20 Latinos across the United States are redefining identities, pushing boundaries, and awakening politically in powerful and surprising ways. Many—Afrolatino, indigenous, Muslim, queer and undocumented, living in large cities and small towns—are voices who have been chronically overlooked in how the diverse population of almost sixty million Latinos in the U.S. has been represented. No longer. In this empowering cross-country travelogue, journalist and activist Paola Ramos embarks on a journey to find the communities of people defining the controversial term, "Latinx." She introduces us to the indigenous Oaxacans who rebuilt the main street in a post-industrial town in upstate New York, the "Las Poderosas" who fight for reproductive rights in Texas, the musicians in Milwaukee whose beats reassure others of their belonging, as well as drag queens, environmental activists, farmworkers, and the migrants detained at our border. Drawing on intensive field research as well as her own personal story, Ramos chronicles how "Latinx" has given rise to a sense of collectivity and solidarity among Latinos unseen in this country for decades. A vital and inspiring work of

reportage, *Finding Latinx* calls on all of us to expand our understanding of what it means to be Latino and what it means to be American. The first step towards change, writes Ramos, is for us to recognize who we are.

The Girl Who Became a Tree Joseph Coelho 2020-08 Award-winning poet and author Joseph Coelho breaks new ground with his first novel in verse. *The Girl Who Became a Tree* is a powerful and mesmerising exploration of grief and renewal. Daphne is unbearably sad and adrift. She feels the painful loss of her father acutely and seeks solace both in the security of her local library and the escape her phone screen provides by blocking out the world around her. As Daphne tries to make sense of what has happened she recalls memories of shared times and stories past, and in facing the darkness she finds a way back from the tangle of fear and confusion, to feel connected once more with her friends and family. *The Girl Who Became a Tree* sees Joseph Coelho deploy a wide variety of poetic forms with consummate skill in its narration of events. He seamlessly but searingly weaves together the ancient legend of Daphne, who was turned into a tree to avoid the attentions of the god Apollo, and a totally modern tale, mixing real-life and fantasy, in which a latter-day Daphne seeks her own freedom. This a heart-stoppingly imaginative story told in poems, at times bleak and even tragic, which is layered, rich, and ultimately a tour de force of poetic skill and energy.

A Thousand Splendid Suns Khaled Hosseini
2008-09-18 A riveting and powerful story of an unforgiving time, an unlikely friendship and an indestructible love

From Song to Book Sylvia Huot 2019-05-15 As the visual representation of an essentially oral text, Sylvia Huot points out, the medieval illuminated manuscript has a theatrical, performative quality. She perceives the tension between implied oral performance and real visual artifact as a fundamental aspect of thirteenth- and fourteenth-century poetics. In this generously illustrated volume, Huot examines manuscript texts both from the performance-oriented lyric tradition of *chanson courtoise*, or courtly love lyric, and from the self-consciously literary tradition of Old French narrative poetry. She demonstrates that the evolution of the lyrical romance and dit, narrative poems which incorporate thematic and rhetorical elements of the lyric, was responsible for a progressive redefinition of lyric poetry as a written medium and the emergence of an explicitly written literary tradition uniting lyric and narrative poetics. Huot first investigates the nature of the vernacular book in the thirteenth and fourteenth centuries, analyzing organization, page layout, rubrication, and illumination in a series of manuscripts. She then describes the relationship between poetics and manuscript format in specific texts, including works by widely read medieval authors such as Guillaume de Lorris, Jean de Meun, and Guillaume de Machaut, as well as by lesser-known writers including Nicole de Margival and Watriquet de Couvin. Huot focuses on the

writers' characteristic modifications of lyric poetics; their use of writing and performance as theme; their treatment of the poet as singer or writer; and of the lady as implied reader or listener; and the ways in which these features of the text were elaborated by scribes and illuminators. Her readings reveal how medieval poets and book-makers conceived their common project, and how they distinguished their respective roles.

The Poisonwood Bible Barbara Kingsolver 2009-10-13 New York Times Bestseller • Finalist for the Pulitzer Prize • An Oprah's Book Club Selection "Powerful . . . [Kingsolver] has with infinitely steady hands worked the prickly threads of religion, politics, race, sin and redemption into a thing of terrible beauty."

—Los Angeles Times Book Review *The Poisonwood Bible*, now celebrating its 25th anniversary, established Barbara Kingsolver as one of the most thoughtful and daring of modern writers. Taking its place alongside the classic works of postcolonial literature, it is a suspenseful epic of one family's tragic undoing and remarkable reconstruction over the course of three decades in Africa. The story is told by the wife and four daughters of Nathan Price, a fierce, evangelical Baptist who takes his family and mission to the Belgian Congo in 1959. They carry with them everything they believe they will need from home, but soon find that all of it—from garden seeds to Scripture—is

calamitously transformed on African soil. The novel is set against one of the most dramatic political chronicles of the twentieth century: the Congo's fight for independence from Belgium, the murder of its first elected prime minister, the CIA coup to install his replacement, and the insidious progress of a world economic order that robs the fledgling African nation of its autonomy. Against this backdrop, Orleanna Price reconstructs the story of her evangelist husband's part in the Western assault on Africa, a tale indelibly darkened by her own losses and unanswerable questions about her own culpability. Also narrating the story, by turns, are her four daughters—the teenaged Rachel; adolescent twins Leah and Adah; and Ruth May, a prescient five-year-old. These sharply observant girls, who arrive in the Congo with racial preconceptions forged in 1950s Georgia, will be marked in surprisingly different ways by their father's intractable mission, and by Africa itself. Ultimately each must strike her own separate path to salvation. Their passionately intertwined stories become a compelling exploration of moral risk and personal
