With each succeeding generation, these linear journey maps have become increasingly common and complex, responding to changes in forms of transportation, such as air and motor car 'flight' and print technology, especially the advent of multi-color printing. This is their story.

**South Pacific Diary, 1942-1943** Mack Morriss 2021-12-14 A unique chronicle of the war from the perspective of a sensitive twenty-four-year-old sergeant who wrote for the Army's in-house paper, Yank, the Army Weekly and a tale of the South Pacific that will not soon be forgotten. Correspondent Mack Morriss reluctantly left his diary in the Honolulu Yank office in July 1943. "Here is contained an account of the past eight and one-half months," he wrote in his last entry, "a period which I shall never forget." The next morning he was on a plane headed back to the South Pacific and the New Georgia battleground. Morriss was working out of the press camp at Spa, Belgium, in January 1945, when he learned that the diary he had kept in the South Pacific had arrived in a plain brown wrapper at the New York office. He was so happy "to know that this impossible thing had happened," he wrote to his wife, that he helped two friends "murder a quart of scotch." What was preserved and appears in print here for the first time is a unique chronicle of the war in the South Pacific from the perspective of a sensitive twenty-four-year-old sergeant. This is an intensely personal account, reporting the war from the ridge known as the Sea Horse on Guadalcanal, from the bars and dance halls of Auckland to a B-17 flying through the moonlit night to bomb Japanese installations on Bougainville. Morriss thought deeply and wrote movingly about everything connected with the war: the sordiness and heroism, the competence and ineptitude of leaders, the strange mixture of constant complaint and steady courage of ordinary GIs, friendships formed under combat stress, and, above all, what he perceived to be his own indecisiveness and weaknesses. Ronnie Day introduces Morriss's diary and illuminates the work with extensive notes based on private papers, government documents, travel in the Solomon Islands, and the recollections of men mentioned in the diary.

*Deception in War* Jon Latimer 2003-04-29 From the Trojan Horse to Gulf War subterfuge, this far-reaching military history examines the importance and ingenuity of wartime deception campaigns. The art of military deception is as old as the art of war. This fascinating account of the practice draws on conflicts from around the world and across millennia. The examples stretch from the very beginnings of recorded military history--Pharaoh Ramses II's campaign against the Hittites in 1294 B.C.--to modern times, when technology has placed a stunning array of devices into the arsenals of military commanders. Military historians often underestimate the importance of deception in warfare. This book is the first to fully describe its value. Jon Latimer demonstrates how simple tricks have been devastatingly effective. He also explores how technology has increased the range and subtlety of what is

possible—including bogus radio traffic, virtual images, even false smells. Deception in War includes examples from land, sea, and air to show how great commanders have always had, as Winston Churchill put it, that indispensable “element of legerdemain, an original and sinister touch, which leaves the enemy puzzled as well as beaten.”
