Beartown Fredrik Backman 2017-04-25 Now an HBO Original Series “You’ll love this engrossing novel.” –People Named a Best Book of the Year by LibraryReads, BookBrowse, and Goodreads From the #1 New York Times bestselling author of Anxious People, a dazzling and profound novel about a small town with a big dream—and the price required to make it come true. By the lake in Beartown is an old ice rink, and in that ice rink Kevin, Amat, Benji, and the rest of the town’s junior ice hockey team are about to compete in the national semi-finals—and they actually have a shot at winning. All the hopes and dreams of this place now rest on the shoulders of a handful of teenage boys. Under that heavy burden, the match becomes the catalyst for a violent act that will leave a young girl traumatized and a town in turmoil. Accusations are made and, like ripples on a pond, they travel through all of Beartown. This is a story about a town and a game, but even more about loyalty, commitment, and the responsibilities of friendship; the people we disappoint even though we love them; and the decisions we make every day that come to define us. In this story of a small forest town, Fredrik Backman has found the entire world.

The Selected Poetry of Pier Paolo Pasolini Pier Paolo Pasolini 2014-08-20 Most people outside Italy know Pier Paolo Pasolini for his films, many of which began as literary works—Arabian Nights, The Gospel According to Matthew, The Decameron, and The Canterbury Tales among them. What most people are not aware of is that he was primarily a poet, publishing nineteen books of poems during his lifetime, as well as a visual artist, novelist, playwright, and journalist. Half a dozen of these books have been excerpted and published in English over the years, but even if one were to read all of those, the wide range of poetic styles and subjects that occupied Pasolini during his lifetime would still elude the English-language reader. For the first time, Anglophones will now be able to discover the many facets of this singular poet. Avoiding the tactics of the slim, idiosyncratic, and aesthetically or politically motivated volumes currently available in English, Stephen Sartarelli has chosen poems from every period of Pasolini’s poetic oeuvre. In doing so, he gives English-language readers a more complete picture of the poet, whose verse ranged from short lyrics to longer poems and extended sequences, and whose themes ran not only to the moral, spiritual, and social spheres but also to the aesthetic and sexual, for which he is most known in the United States today. This volume shows how central poetry was to Pasolini, no matter what else he was doing in his creative life, and how poetry informed all of his work from the visual arts to his political essays to his films. Pier Paolo Pasolini was “a poet of the cinema,” as James Ivory says in the book’s foreword, who “left a trove of words on paper that can live on as the fast-deteriorating images he created on celluloid cannot.” This generous selection of poems will be welcomed by poetry lovers and film buffs alike and will be an event in American letters.

Romanzi storici di Walter Scott versioni diverse con note Walter Scott 1839*

L’ultimo Paradiso Simona Diodovich Il tempo è effimero ma, a volte, sembra non voler passare mai. Si prende gioco di te, e della tua voglia di morire, per poter così porre fine alla tua lenta agonia. Ti guarda oltre lo specchio del tuo cuore e sorride beffardo, dicendoti che devi continuare, che non è ancora giunta la tua ora. Ma se la tua ora non dovesse giungere mai? Se il tuo compito è combattere per sempre, dove la trovi la forza per continuare? E quando pensi che sia finita e trovi colui con cui vuoi dividere il tuo cuore ferito per l’eternità, sperì ancora che il tempo scorra veloce? Sono io che ho camminato in lungo e in largo il mondo intero, senza fermarmi, sempre combattendo, fiduciosa che un giorno tutto ciò avrà fine. Ancora oggi lo spero. Ancora oggi guardo lo specchio del mio cuore e spero di addormentarmi, infine. Esmeralda. *Eravamo immortali* Marco Cassardo Stefano e Nando, i due amici "immortali" di questo romanzo, vengono da lontano. Attraversano sessant'anni della nostra storia e come eroi omerici si muovono sotto le mura di Troia che sono di volta in volta la drammatica ritirata di Russia del 1943, le lotte operaie alla Fiat, la battaglia per un nuovo benessere, la rivolta delle generazioni più giovani. Stefano e Nando si battono, nel bene e nel male, per un'idea di mondo che cresce insieme a loro, ai loro amori, alle loro famiglie, e che non dimentica mai l'amicizia che li lega. Appartengono al popolo e nel popolo maturano il patrimonio di emozioni che li ha segnati. Nascono entrambi come promesse del ciclismo, e a quel sogno su due ruote restano legati come all'orizzonte di una sfida che sembra non esaurirsi mai. Stefano e Nando appartengono al popolo e Eravamo immortali è un vero romanzo popolare, che moltiplica passioni e strappi, che muove personaggi e destini, che scivola lungo la catena degli anni finché i due amici si trovano davanti a responsabilità sempre più nette, compresa l'ultima, enorme, che concerne il senso della loro amicizia. Si entra in questa storia e da subito si comincia a correre; e ci si ritrova a ogni svolta narrativa con l'ansia di sapere quale sarà la via che ci chiama a partecipare, a sapere, a commuoverci. Sia lode a Cassardo, scrittore che non ha paura, e, come un fiume in piena, mette le ragioni del narrare al servizio della nostra identità, che viene dal passato e guarda oltre il presente.

Into the Gray Zone Adrian Owen 2017-06-20 In this “riveting read, meshing memoir with scientific explication” (Nature), a world-renowned neuroscientist reveals how he learned to communicate with patients in vegetative or “gray zone” states and, more importantly, he explains what those interactions tell us about the working of our own brains. “Vivid, emotional, and thought-provoking” (Publishers Weekly), Into the Gray Zone takes readers to the edge of a dazzling, humbling frontier in our understanding of the brain: the so-called “gray zone” between full consciousness and brain death. People in this middle place have sustained traumatic brain injuries or are the victims of stroke or degenerative diseases, such as Alzheimer’s and Parkinson’s. Many are oblivious to the outside world, and their doctors believe they are incapable of thought. But a sizeable number—as many as twenty percent—are experiencing something different: intact minds adrift deep within damaged brains and bodies. An expert in the field, Adrian Owen led a team that, in 2006, discovered this lost population and made medical history. Scientists, physicians, and philosophers have only just begun to grapple with the implications. Following Owen’s journey of exciting medical discovery, Into the Gray Zone asks some tough and terrifying questions, such as: What is life like for these patients? What can their families and friends do to help them? What are the ethical implications for religious organizations, politicians, the Right to Die movement, and even insurers? And perhaps most intriguing of all: in defining what a life worth living is, are we too concerned with the physical and not giving enough emphasis to the power of thought? What, truly, defines a satisfying life? “Strangely uplifting...the testimonies of people who have returned from the gray zone evoke the mysteries of consciousness and identity with tremendous power” (The New Yorker). This book is about the difference between a brain and a mind, a body and a person. Into the Gray Zone is “a fascinating memoir...reads like a thriller” (Mail on Sunday).

The Book of Disquiet: The Complete Edition Fernando Pessoa 2017-08-29 For the first time—and in the best translation ever—the complete Book of Disquiet, a masterpiece beyond comparison The Book of Disquiet is the Portuguese modernist master Fernando Pessoa’s greatest literary achievement. An “autobiography” or “diary” containing exquisite melancholy observations, aphorisms, and ruminations, this classic work grapples with all the eternal questions. Now, for the first time the texts are presented chronologically, in a complete English edition by master translator Margaret Jull Costa. Most of the texts in The Book of Disquiet are written under the semi-heteronym Bernardo Soares, an assistant bookkeeper. This existential masterpiece was first published in Portuguese in 1982, forty-seven years after Pessoa’s death. A monumental literary event, this exciting, new, complete edition spans Fernando Pessoa’s entire writing life.

Il lupo bianco David Gemmell 2015-04-17 Skilgannon il Dannato è scomparso dalle pagine della storia. Dopo lo straordinario trionfo a Perapolis, il Generale ha preso con se le leggendarie Spade della Notte e del Giorno e si è allontanato a cavallo dalle terre di Naashan. Nessuno sa dove sia andato, e gli assassini mandati dalla Strega-Regina non sono riusciti a trovare tracce del suo passaggio. Tre anni dopo, mentre una massa di criminali si raccoglie all’esterno di un lontano monastero, vengono affrontati da un prete solo e disarmato. In pochi terrificanti secondi il loro mondo cambia per sempre, e la notizia si diffonde attraverso le terre dell’Est. Skilgannon è tornato. Ora deve viaggiare attraverso un pericoloso reame infestato da demoni, alla ricerca di un tempio misterioso e della dea senza età che lo governa. Con assassini sulla sua scia e un armata di pericolosi nemici di fronte, il Dannato inizia un viaggio per condurre la morte alla vita. L'uomo accanto a lui è Druss la Leggenda.

L’oscurità della notte Jeaniene Frost 2016-06-09 Nell’ultimo periodo, la vita è stata stranamente tranquilla per Cat e Bones, ma i due vampiri avrebbero dovuto immaginare che il tempo di abbassare la guardia non è ancora giunto. Una rivelazione sconvolgente sta per porre fine alla fragile pace che resiste tra gli umani e i non morti, portando la tensione a un livello senza precedenti. A quanto pare un agente della cia, fuori controllo, è coinvolto in pericolose attività segrete che se portate a compimento potrebbero segnare per sempre le sorti delle forze in campo. Il mondo è sull’orlo di una guerra devastante, da scongiurare a ogni costo: per Cat e Bones è il momento di uscire allo scoperto e tornare in azione. Spetta a loro intraprendere questa lotta contro il tempo per sfuggire a un destino che sembra peggiore della morte, perché più segreti riusciranno a svelare, più mortali si riveleranno le conseguenze. E se falliranno, le loro vite e quelle di coloro che amano finiranno sull’orlo di una fossa. Un mix di emozioni forti, humour nero e una scrittura da manuale al servizio di una trama avvincente. Un romanzo destinato, come i suoi predecessori, a diventare un successo internazionale.

Alone on the Wall (Expanded edition) Alex Honnold 2018-10-02 Including two new chapters on Alex Honnold’s free solo ascent of the iconic 3,000-foot El Capitan in Yosemite National Park. On June 3rd, 2017, Alex Honnold became the first person to free solo Yosemite’s El Capitan—to scale the wall without rope, a partner, or any protective gear—completing what was described as “the greatest feat of pure rock climbing in the history of the sport” (National Geographic) and “one of the great athletic feats of any kind, ever” (New York Times). Already one of the most famous adventure athletes in the world, Honnold has now been hailed as “the greatest climber of all time” (Vertical magazine). Alone on the Wall recounts the most astonishing achievements of Honnold’s extraordinary life and career, brimming with lessons on living fearlessly, taking risks, and maintaining focus even in the face of extreme danger. Now Honnold tells, for the first time and in his own words, the story of his 3 hours and 56 minutes on the sheer face of El Cap, which Outside called “the moon landing of free soloing...a generation-defining climb. Bad ass and beyond words...one of the pinnacle sporting moments of all time.”

Made In Sicily Giorgio Locatelli 2012-12-26 From Giorgio Locatelli, bestselling author of Made in Italy, comes an exquisite cookbook on the cuisine of Sicily, which combines recipes with the stories and history of one of Italy's most romantic, dramatic regions: an island of amber wheat fields, lush citrus and olive groves, and rolling vineyards, suspended in the Mediterranean Sea. Mapping a culinary landscape marked by the influences of Arab, Spanish, and Greek colonists, the recipes in Made in Sicily showcase the island’s diverse culinary heritage and embody the Sicilian ethos of primacy of quality ingredients over pretentiousness or fuss in which “what grows together goes together.”

The Years of Alienation in Italy Alessandra Diazzi 2019-06-11 The Years of Alienation in Italy offers an interdisciplinary overview of the socio-political, psychological, philosophical, and cultural meanings that the notion of alienation took on in Italy between the 1960s and the 1970s. It addresses alienation as a social condition of estrangement caused by the capitalist system, a pathological state of the mind and an ontological condition of subjectivity. Contributors to the edited volume explore the pervasive influence this multifarious concept had on literature, cinema, architecture, and photography in Italy. The collection also theoretically reassesses the notion of alienation from a novel perspective, employing Italy as a paradigmatic case study in its pioneering role in the revolution of mental health care and factory work during these two decades.

Evolution Giuseppe Chidichimo 2015-10-14 Ho scritto questo libro per puro divertimento, spinto da un’estrapolazione fantastica del mio lavoro di ricerca all’Università della Calabria. Tra le altre cose negli ultimi anni, soprattutto per merito dei miei giovani collaboratori, ho avuto modo di scoprire alcuni interessanti effetti prodotti dalle radiazioni elettromagnetiche millimetriche sulle cellule umane. Si tratta di effetti risonanti che, anche a potenze bassissime, cambiano l’organizzazione strutturale delle membrane biologiche producendo inaspettate risposte del metabolismo cellulare. Questa è la scienza, ma il divertimento è nato dall’immaginare una scoperta scientifica, prossima a quella realmente fatta, suscettibile di indurre un'importante fase evolutiva della specie umana. Ancora più divertente è stato il collegare il tema della scienza a quello della fede religiosa che ho la fortuna di avere come compagna di vita. Naturalmente per indurre l’eventuale lettore a proseguire nella lettura ho dovuto inventare vicende umane di personaggi spinti ad agire non da riflessioni teologiche, scientifiche o filosofiche, ma da sentimenti umani come l’amicizia, l’amore... Spero tanto che chi avrà la ventura di leggere questo libro possa ricavarne elementi di stimolo alla riflessione ma soprattutto il mio stesso divertimento!

Europe and Empire Massimo Cacciari 2016-01-04 The European Union and the single currency have given Europe more stability than it has known in the past thousand years, yet Europe seems to be in perpetual crisis about its global role. The many European empires are now reduced to a multiplicity of ethnicities, traditions, and civilizations. Europe will never be One, but to survive as a union it will have to become a federation of “islands” both distinct and connected. Though drawing on philosophers of Europe’s past, Cacciari calls not to resist Europe’s sunset but to embrace it. Europe will have to open up to the possibility that in few generations new exiles and an unpredictable cultural hybridism will again change all we know about the European legacy. Though scarcely alive in today’s politics, the political unity of Europe is still a necessity, however impossible it seems to achieve.

Atlas Obscura Joshua Foer 2016-09-20 It's time to get off the beaten path. Inspiring equal parts wonder and wanderlust, Atlas Obscura celebrates over 700 of the strangest and most curious places in the world. Talk about a bucket list: here are natural wonders—the dazzling glowworm caves in New Zealand, or a baobob tree in South Africa that's so large it has a pub inside where 15 people can drink comfortably. Architectural marvels, including the M.C. Escher-like stepwells in India. Mind-boggling events, like the Baby Jumping Festival in Spain, where men dressed as devils literally vault over rows of squirming infants. Not to mention the Great Stalacpipe Organ in Virginia, Turkmenistan's 40-year hole of fire called the Gates of Hell, a graveyard for decommissioned ships on the coast of Bangladesh, eccentric bone museums in Italy, or a weather-forecasting invention that was powered by leeches, still on display in Devon, England. Created by Joshua Foer, Dylan Thuras and Ella Morton, ATLAS OBSCURA revels in the weird, the unexpected, the overlooked, the hidden and the mysterious. Every page expands our sense of how strange and marvelous the world really is. And with its compelling descriptions, hundreds of photographs, surprising charts, maps for every region of the world, it is a book to enter anywhere, and will be as appealing to the armchair traveler as the die-hard adventurer. Anyone can be a tourist. ATLAS OBSCURA is for the explorer.

Life Of Galileo Bertolt Brecht 2015-02-13 This Student Edition of Brecht's classic dramatisation of the conflict between free enquiry and official ideology features an extensive introduction and commentary that includes a plot summary, discussion of the context, themes, characters, style and language as well as questions for further study and notes on words and phrases in the text. It is the perfect edition for students of theatre and literature Along with Mother Courage, the character of Galileo is one of Brecht's greatest creations, immensely live, human and complex. Unable to resist his appetite for scientific investigation, Galileo's heretical discoveries about the solar system bring him to the attention of the Inquisition. He is scared into publicly abjuring his theories but, despite his self-contempt, goes on working in private, eventually helping to smuggle his writings out of the country. As an examination of the problems that face not only the scientist but also the whole spirit of free inquiry when brought into conflict with the requirements of government or official ideology, Life of Galileo has few equals. Written in exile in 1937-9 and first performed in Zurich in 1943, Galileo was first staged in English in 1947 by Joseph Losey in a version jointly prepared by Brecht and Charles Laughton, who played the title role. Printed here is the complete translation by John Willett.

Roswell: Punto di contatto Francesco Gnutti 2016-10-06 Roswell punto di incontro spiega esattamente cosa ci è stato nascosto in questi anni. Il presidente degli stati uniti d'america Kennedy, i vari complotti, una tecnologia che ancora non siamo in grado di controllare ed un probabile punto di incontro con altre civiltà, per raccontare questa storia, come unico punto di partenza abbiamo Roswell e la sua alquanto misteriosa vicenda che riguardava l'UFO Crash. Da dire che la concezione di alieni non inizia da Roswell, Roswell è stato solo l'inizio della consapevolezza e della esistenza di altre forme di vita intelligenti. Nella lunga storia dell'umanità abbiamo una notevole e vasta gamma di informazioni che ci riportano alla probabilità che gli alieni, per come li conosciamo siano stati avvistati e abbiano addirittura avuto contatti con altre civiltà nel passato. La prima forma di vita trovata è stata a livello unicellulare, micro organismi e forme unicellulari. Per poi arrivare a vere e proprie forme più complesse, arriviamo alla faccia Marziana, un volto vero e proprio raccontato anche da Holliwood nel serial X-Files, e nel film dedicato Mission To Mars. Quando fu avvistata si disse che sembrava quasi una testa di una sfinge come se i Marziani avessero copiato la struttura Egizia oppure erano gli Egiziani ad aver costruito la sfinge su commissione di questi antichi visitatori? Questo è un concetto non ben chiaro come lo era la foto facilmente taggabile come bufala o errore di strumentazione, nel corso della storia però ci sono stati altri casi anche quelli errori di strumentazione? Questa specie di umanoide o statua di pietra, è stata avvistata sulla superficie Marziana, se l'uomo non è mai giunto su Marte chi poteva averla messa e perchè? Perchè fu vista e documentata proprio dopo che l'uomo grazie ai due robotini riuscì a scoprire mari e fiumi e a trovare tracce di acqua? Per capire meglio questo concetto con Photoshop ho provato a lavorarla e chiarirla, non ce dubbio è una forma umanoide. Pronti per un viaggio incredibile?
