Doing Ethics in Media Jay Black 2011-04-19 *Doing Ethics in Media: Theories and Practical Applications* is an accessible, comprehensive introduction to media ethics. Its theoretical framework and grounded discussions engage students to think clearly and systematically about dilemmas in the rapidly changing media environment. The 13-chapter text is organized around six decision-making questions— the "5Ws and H" of media ethics. The questions encourage students to articulate the issues; apply codes, policies or laws; consider the needs of stakeholders; sift and sort through conflicting values; integrate philosophic principles; and pose a "test of publicity." Specifically, the questions ask: • What's your problem? • Why not follow the rules? • Who wins, who loses? • What's it worth? • Who's whispering in your ear? • How's your decision going to look? As they progress through the text, students are encouraged to resolve dozens of practical applications and increasingly complex case studies relating to journalism, new media, advertising, public relations, and entertainment. Other distinctive features include: • Comprehensive materials on classic moral theory and current issues such as truth telling and deception, values, persuasion and propaganda, privacy, diversity, and loyalty. • A user-friendly approach that challenges students to think for themselves rather than imposing answers on them. • Consistent connections between theories and the decision-making challenges posed in the practical applications and case studies. • A companion website with online resources for students, including additional readings and chapter overviews, as well as instructor materials with a test bank, instructor's manual, sample syllabi and more. www.routledge.com/textbooks/black • A second website with continuously updated examples, case studies, and student writing – www.doingmediaethics.com. *Doing Ethics in Media* is aimed at undergraduates and graduate students studying media ethics in mass media, journalism, and media studies. It also serves students in rhetoric, popular culture, communication studies, and interdisciplinary social sciences.

Persuasion: Social Influence, and Compliance Gaining Robert H. Gass 2013-08-01 A comprehensive overview of persuasion theory *Persuasion: Social Influence and Compliance Gaining* first helps students understand established theories and models of persuasion. It then encourages them to develop and apply general conclusions about persuasion in real-world settings. The 5th edition explores how social media continues to be a form of influence, but it also looks at grassroots movements, such as the Tea Party and Occupy Wall Street, and traditional forms of persuasion, such as advertising, marketing, and political campaigning.

Rules for Writers with 2009 MLA and 2010 APA Updates Diana Hacker 2010-06-08 Click here to find out more about the 2009 MLA Updates and the 2010 APA Updates. *Rules for Writers* succeeds because it has always been grounded in classroom experience. By looking at her own students' needs, Diana Hacker created an affordable and practical classroom tool that doubles as a quick reference. Developed with the help of instructors from two- and four-year schools, the sixth edition gives students quick access to the information they need to solve writing problems in any college course. In the Hacker tradition, the new contributing authors – Nancy Sommers, Tom Jehn, Jane Rosenzweig, and Marcy Carbajal Van Horn – have crafted solutions for the writing problems of today's college students. Together they give us a new edition that provides more help with academic writing and research and one that works better for a wider range of multilingual students. Flexible content options – in print and online – allow students to get more than they pay for.

A Brief History of Psychology Michael Wertheimer 2020-06-03 This brief, inexpensive text offers great flexibility in teaching the history of psychology. Used as a stand-alone text or with readers, this engaging book is noted for its analysis of the scientific and philosophical emergence of the field as well as its coverage of contemporary psychology and emerging areas. Readers appreciate the book's balanced coverage of experimental, applied, and clinical psychology, as well as the clear and succinct presentation of the field's major events and schools of thought. The sixth edition features an expanded pedagogical program with bolded terms, a complete glossary, more illustrations, and web-based instructional materials including PowerPoints, a test bank, discussion questions, and more. Special emphasis has also been placed on the role of the American Psychological Association (APA) in the history of psychology. Extensively updated throughout, the sixth edition features: A revised final chapter with a current analysis of the state of the field, including the growth of the APA as well as specialized organizations that promote the science and profession of psychology, and the push to influence policies that address global challenges, such as environmental sustainability, intergroup conflict, health disparities, and the population explosion. A discussion of the growth in the number and role of women and ethnic minorities in psychology, and the promotion of diversity across both demographic and intellectual perspectives. Recent developments in the growth of neuroscience, cognitive science, artificial intelligence, and the diversification and internationalization of psychology. Portraits of some major figures in the history of psychology, including psychology's first Nobel Prize winners. Recent and evolving changes in the practice of psychology, including more emphasis on "evidence-based practice," prescription privileges, and the emergence of the importance of psychological practice in health care. Recent changes in the APA, including new divisions and new elected officials and its emerging focus on advocacy. Used independently or as a supplement with readers, this brief text is intended for undergraduate and graduate courses on the history of psychology. Due to its brevity and engaging style, the book can be used in introductory courses to introduce students to the field. The enormous index and substantial glossary make

this volume a useful desk reference for psychology and related disciplines. The Research Experience Ann Sloan Devlin 2020-07-30 The Research Experience: Planning, Conducting and Reporting Research, Second Edition is the complete guide to the behavioral science research process. The book covers theoretical research foundations, guiding students through each step of a research project with practical instruction and help. The latest technological tools, such as SurveyMonkey®, Qualtrics®, and Amazon Mechanical Turk®, are included to show the increasing influence of the Internet to conduct studies and how research is conducted in the world today. Taking students through the process from generating ideas for research to writing and presenting findings helps them absorb and apply the material. With its practical emphasis and supporting pedagogy, students will be able to successfully design and execute a research project. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides.

Handbook of International Relations Walter Carlsnaes 2002-03-13 NEW IN PAPERBACK FEBRUARY 2005! `The most systematic and wide-ranging survey of the multi-faceted field of International Relations yet produced. It is sure to become a standard reference work and teaching text, and is unlikely to be superseded at any time in the near future. It should be considered as essential reading' - International Affairs The *Handbook of International Relations*, published 2002 in hardback, quickly established itself as the benchmark volume, providing a state-of-the-art review and indispensable guide to the study of international relations. It is now released in paperback, in order to be accessible to students in classroom use. Divided into three parts, the volume reviews both the historical, philosophical, analytical and normative roots to the discipline and the key contemporary topics of research and debate today. The first part introduces the major approaches

within the field and unpacks many of the on-going debates within the discipline including those between rationalist and constructivist approaches. The second part moves on to explore the key concepts and contextual factors important to the subject from concepts like the state and power, to international and transnational actors, debates around globalization, and contending feminist perspectives. The final part reviews a number of the key substantive issues in international relations and is designed to complement the analytical tools and perspectives presented in Parts I and II. Examples of the many topics included are: foreign policy; war and peace; security; nationalism and ethnicity; finance; trade; development; the environment; and human rights.

Part of the popular LPN/LVN Threads series, it provides opportunities for enhanced learning with additional figures, an interactive new Study Guide on Evolve, and real-world clinical scenarios that help you apply concepts to practice. Complete coverage of key topics includes baby boomers and the impact of their aging on the health care system, therapeutic

communication, cultural considerations, spiritual influences, evidence-based practice in geriatric nursing, and elder abuse, restraints, and ethical and legal issues in end-of-life care. Updated discussion of issues and trends includes demographic factors and economic, social, cultural, and family influences. Get Ready for the NCLEX® Examination! section at the end of each chapter includes key points along with new Review Questions for the NCLEX examination and critical thinking which may be used for individual, small group, or classroom review. UNIQUE! Streamlined coverage of nutrition and fluid balance integrates these essential topics. Delegation, leadership, and management content integrated throughout. Nursing Process sections provide a framework for the discussion of the nursing care of the elderly patient as related to specific disorders. Nursing Care Plans with critical thinking questions help in understanding how a care plan is developed, how to evaluate care of a patient, and how to apply knowledge to clinical scenarios. LPN/LVN Threads make learning easier, featuring an appropriate reading level, key terms with phonetic pronunciations and text page references, chapter objectives, special features boxes, and full-color art, photographs, and design. UNIQUE! Complementary and Alternative Therapies boxes address specific therapies commonly used by the geriatric population for health promotion and pain relief. Health Promotion boxes highlight health promotion, disease prevention, and age-specific interventions. Home Health Considerations boxes provide information on home health care for the older adult. Coordinated Care boxes address such topics as restraints, elder abuse, and end-of-life care as related to responsibilities of nursing assistants and other health care workers who are supervised by LPN/LVNs. Clinical Situation boxes present patient scenarios with lessons for appropriate nursing care and patient sensitivity. Critical Thinking boxes help you to assimilate and synthesize information. 10th grade reading level
