WebThe first meta-analysis, by Vogel et al. (2006), synthesized results from 32 studies from 1986 to 2003, focusing on pretest-posttest comparisons of cognitive and attitudinal outcomes in games and simulations for age-groups spanning preschool through adult. Vogel et al. described computer games and simulations as follows:

WebThere are no differences. The rules of the game may be simple, but winning is by no means a slam-dunk. This is how you do it. You can't win if you don't play the game. And by "play," I don't mean a game or two, here or there. You have to be in the game consistently for a long, long time to win. There's no quick fix and no shortcuts.
