**Sexuality, Gender and Nationalism in Caribbean Literature** Kate Houlden 2016-11-18 This book focuses on sex and sexuality in post-war novels from the Anglophone Caribbean. Countering the critical orthodoxy that literature from this period dealt with sex only tangentially, implicitly transmitting sexist or homophobic messages, the author instead highlights the range and diversity in its representations of sexual life. She draws on gender and sexuality studies, postcolonial theory and cultural history to provide new readings of seminal figures like Samuel Selvon and George Lamming whilst also calling attention to the work of innovative, lesser-studied authors such as Andrew Salkey, Oscar Dathorne and Rosa Guy. Offering a coherent and expansive overview of how post-war Caribbean novelists have treated the persistently controversial topic of sex, this book addresses one of the blind spots in Caribbean literary criticism. It mines a range of little-studied archival materials and texts to argue that fiction of the post-war era exhibits both continuities with the sexual emphases of earlier writing and connections to later trends. The author also presents nationalist ideology as central to the literature of this era. It is in the fictional rendering of

sexuality that the contradictions of the nationalist project are most apparent; sex both exceeds and threatens the imagined unity on which the political vision depends.

**Higher Education in the Internet Age** Patricia Senn Breivik 2006 In this age of information literacy this vital work documents how libraries have become crucial to the success of both students and the institutions they attend.

**Research Handbook on Foreign Direct Investment** Markus Krajewski 2019 Increasing international investment, the proliferation of international investment agreements, domestic legislation, and investor-State contracts have contributed to the development of a new field of international law that defines obligations between host states and foreign investors with investor-State dispute settlement. This involves not only vast sums, but also a panoply of rights, duties, and shifting objectives at the juncture of national and international law and policy. This engaging Research Handbook provides an authoritative account of these diverse investment law issues.

**Caribbean Integration Law** David S. Berry 2014 Two key regional organisations in the Caribbean, the Caribbean Community and the Organisation of Eastern Caribbean States, had their roles fundamentally expanded in 2001 by treaties that developed a single market and a regional court. Corthésy 2014-07-17 This new edition to the series will provide an up-to-date textbook covering a wide-range of employment and labour law issues which affect the Commonwealth Caribbean. Initially the book will embark on a comparative analysis of employment and labour law in Jamaica, Trinidad and Barbados, as a reference point for distinguishing the laws of other Commonwealth Caribbean jurisdictions. The book will continue to examine how the law operates within the legal systems of the Caribbean, taking into account the umbilical link to British jurisprudence and the persuasive precedent of other Commonwealth jurisdictions, and the impact this has had on the growth and development of the area.

Commonwealth Caribbean Employment and Labour Law will be essential reading for students enrolled on Employment Law, Discrimination and Dismissal Law courses in the Caribbean.

**International Encyclopedia of Information and Library Science** John Feather 2003-09-02 The International Encyclopedia of Information and Library Science was published to widespread acclaim in 1996, and has become the major reference work in the field. This eagerly awaited new edition has been fully revised and updated to take full account of the many and radical changes which have taken place since the Encyclopedia was originally conceived. With nearly 600 entries, written by a global team of over 150 contributors, the subject matter ranges from mobile library services provided by camel and donkey transport to search engines, portals and the World Wide Web. A wholly new entry on information systems, and enhanced entries on the information professions and the information society, are key features of this new edition. Topical entries deal with more specific subjects, such as collections management and information services for ethnic minorities. **Sugar** Elizabeth Abbott 2011-09-27 This dramatic history of an ingredient that changed the world “offers up a number of fascinating stories” (The New York Times Book Review). Sugar explores the history behind the sweetness, revealing, among other stories, how powerful American interests deposed Queen Lili'uokalani of Hawaii; how Hitler tried to ensure a steady supply of beet sugar when enemies threatened to cut off Germany's supply of overseas cane sugar; and how South Africa established a domestic ethanol industry in the wake of anti-apartheid sugar embargos. The book follows the role of sugar in world events and in individual lives up to the present day, showing how it made eating on the run socially acceptable and played an integral role in today's fast food culture and obesity epidemic. Impressively researched and commandingly written, Sugar will forever change perceptions of this tempting treat. “A highly readable and comprehensive study of a remarkable product.” —The Independent “Epic in ambition and briskly written.” —The Wall Street Journal “Readers will never again be able to casually sweeten tea or eat sweets without considering the long and fascinating history of sugar.” —Booklist

**Caribbean Integration Law** David S. Berry 2014-02-27 Caribbean Integration Law offers a comprehensive legal analysis of the current treaties and rules governing the two main regional organisations in the Caribbean, the Caribbean Community (CARICOM) and the Organisation of Eastern Caribbean States (OECS). Both organisations are operating under new treaties, the Revised Treaty of Chaguaramas and the Revised Treaty of Basseterre, respectively, which created the CARICOM Single Market and Economy, and the OECS Economic Union. The single market and economic union were built upon principles of free movement of goods, labour, and capital, and a common external tariff. This book reviews the foundations of Caribbean regional integration, the institutional frameworks of the two regional organisations, and fleshes out the scope and context of the legal systems created by the treaties. It also reviews the dispute settlement mechanisms under both treaties, including the increasingly active role of the Caribbean Court of Justice, which allows persons to enforce their treaty rights directly before the Court. The book offers selective comparisons to the current rules governing the European Union, and integrates crucial insights from the field of public international law, including the law of treaties and international institutional law.

**Indo-Caribbean Feminist Thought** Gabrielle Jamela Hosein 2016-11-25 Bringing together three generations of scholars, thinkers and activists, this book is the first to trace a genealogy of the specific contributions Indo-Caribbean women have made to Caribbean feminist epistemology and knowledge production.

Challenging the centrality of India in considerations of the forms that Indo-Caribbean feminist thought and praxis have taken, the authors turn instead to the terrain of gender negotiations among Caribbean men and women within and across racial, class, religious, and political affiliations. Addressing the specific conditions which emerged within the region and highlighting the cross-racial solidarities and the challenges to narratives of purity that have been constitutive of Indo-Caribbean feminist thought, this collection connects to the broader indentureship diaspora and what can be considered post-indentureship feminist thought. Through examinations of literature, activism, art, biography, scholarship and public sphere practices, the collection highlights the complexity and richness of Indo-Caribbean engagements with feminism and social justice.

**Teaching Caribbean Poetry** Beverley Bryan 2013-10-30 Teaching Caribbean Poetry will inform and inspire readers with a love for, and understanding of, the dynamic world of Caribbean poetry. This unique volume sets out to enable secondary English teachers and their students to engage with a wide range of poetry, past and present; to understand how histories of the Caribbean underpin the poetry and relate to its interpretation; and to explore how Caribbean poetry connects with environmental issues. Written by literary experts with extensive classroom experience, this lively and accessible book is immersed in classroom practice, and examines: • popular aspects of Caribbean poetry, such as performance poetry; • different forms of Caribbean language; • the relationship between music and poetry; • new voices, as well as well-known and distinguished poets, including John Agard (winner of the Queen's Medal for Poetry, 2012), Kamau Brathwaite, Lorna Goodison, Olive Senior and Derek Walcott; • the crucial themes within Caribbean poetry such as inequality, injustice, racism, 'othering', hybridity, diaspora and migration; • the place of Caribbean poetry on the GCSE/CSEC and CAPE syllabi, covering appropriate themes, poetic forms and poets for exam purposes. Throughout this absorbing book, the authors aim to combat the widespread 'fear' of teaching poetry, enabling teachers to teach it with confidence and enthusiasm and helping students to experience the rewards of listening to, reading, interpreting, performing and writing Caribbean poetry.

**The Oxford Handbook of Caribbean Constitutions** Richard Albert 2020-07-23 The Oxford Handbook of Caribbean Constitutions offers a detailed and analytical view of the constitutions of the Caribbean region, examining the constitutional development of its diverse countries. The Handbook explains the features of the region's constitutions and examines themes emerging from the Caribbean's experience with constitutional interpretation and reform. Beginning with a Foreword from the former President of the Caribbean Court of Justice and an Introduction by the lead editor, Richard Albert, the remainder of the book is divided into four parts. Part I, 'Caribbean Constitutions in the World', highlights what is distinctive about the constitutions of the Caribbean. Part II covers the constitutions of the Caribbean in detail, offering a rich analysis of the constitutional history, design, controversies, and future challenges in each country or group of countries. Each chapter in this section addresses topics such as the impact of key historical and political events on the constitutional landscape for the jurisdiction, a systematic account of the interaction between the legislature and the executive, the civil service, the electoral system, and the independence of the judiciary. Part III addresses fundamental rights debates and developments in the region, including the death penalty and socio-economic rights. Finally, Part IV features critical reflections on the challenges and prospects for the region, including the work of the Caribbean Court of Justice and the future of constitutional reform. This is the first book of its kind, bringing together in a single volume a comprehensive review of the constitutional development of the entire Caribbean region, from the Bahamas in the north to Guyana and Suriname in South America, and all the islands in between. While written in English, the book embraces the linguistic and cultural diversity of the region, and covers the Anglophone Caribbean as well as the Spanish-, French-, and Dutch-speaking Caribbean countries.

**The 1935 Riots in St Vincent** Adrian Fraser 2016 St Vincent was among the earliest of the British Caribbean colonies to have experienced labour disturbances in the 1930s. While disturbances in the other Caribbean colonies were largely associated with the plantations and with strikes, in St Vincent the riots broke out on the grounds of the court house during a meeting of the Legislative Council on the upper floor. The 1935 Riots in St Vincent: From Riots to Adult Suffrage is

the first comprehensive treatment of those disturbances. Fraser's analysis is to a large extent informed by the use of newspapers and of oral history. In St Vincent, the plantations no longer had total dominance of the colony's export economy. Instead, peasants, farmers and agricultural labourers were major players in an export economy that had shifted from sugar production to Sea Island cotton and arrowroot, crops that were suited to the lands to which they had access. Of added significance to the events following the riots was the fact that political leaders unearthed by the riots failed to maintain popular support with the advent of adult suffrage in 1951. Interpretations of British West Indian colonial history have to a large extent been informed by the experiences of the larger colonies. An understanding of the St Vincent riots will make a valuable contribution to the literature of the rebellions of the 1930s and to twentieth-century political history.

**Equitable Education for Marginalized Youth in Latin America and the Caribbean** Stacey N. J. Blackman 2022-09-02 This edited volume examines the thrust towards equity in education for marginalized and out-of-school youth, as well as youth with disabilities, in countries located in the Global South. **Transformative Pedagogical Perspectives on Home Language Use in Classrooms** Jules, Janice E. 2020-09-25 Linguists, researchers, and other practitioners in language education acknowledge that the resolution of language problems associated with breaking down language and cultural barriers that hinder the growth of learners' self-identities and national identities is ongoing. In fact, even with decades of research in home language use in the classroom, there are still classrooms worldwide where learners are deprived of the opportunity of building their self-esteem, confidence, and autonomy by communicating with their native language. The global nature of communication requires speakers to use all the languages in their repertoire effectively, thus reinforcing the need to encourage home language use in classrooms. Transformative Pedagogical Perspectives on Home Language Use in Classrooms is a cutting-edge research publication on the effective use of home language in the classroom that emphasizes the significance of this activity to the success of the overall language development of the learner. Particular attention is given to transformative pedagogy and the provision of valuable insights into how the teacher can guide and assist learners in the development of critical thinking skills. In addition, the book provides content that enables practitioners in language education and parents to explore their roles in assisting children in breaking down the language and cultural barriers that hinder the growth of their self-identity and national identity. Highlighting topics such as engineering education, cultural responsiveness, and transformative pedagogy, this book is essential for linguists, academicians, education professionals, curriculum designers, policymakers, administrators, instructional designers, researchers, and students.

**Lucille Mathurin Mair** Verene A. Shepherd 2020-10-23 Lucille Mathurin Mair (née Walrond) made a mammoth contribution to women in Jamaica and across the world. In this biography, Verene Shepherd traces Mair's evolving ideology through her roles as professional historian, wife, mother, mentor, diplomat, national and international civil servant, legislator, and women's rights activist. Mair's tireless commitment to the principles of justice and equality for women guided her work and she particularly sought to centre women of the Global South in the development agenda. The accounts of Mair's myriad and often uncredited contributions at the University of the West Indies, the United Nations, and as a senator in the Government of Jamaica are enhanced by previously unpublished extracts from her notes and personal papers and interviews with her friends and colleagues. Shepherd weaves these sources together to give us a thought-provoking study of the evolution of a rebel woman.

**Race, Gender and Educational Desire** Heidi Safia Mirza 2008-11-19 'This book is a great genealogy of black women's unrecognised contributions within both education and the wide social context. I think it constitutes an important piece of work that is totally missing from the existing literature' - Diane Reay, Professor of Education, Cambridge University Race, Gender and Educational Desire reveals the emotional and social consequences of gendered difference and racial division as experienced by black and ethnicised women teachers and students in schools and universities. It explores the intersectionality of race and gender in education, taking the topic in new, challenging directions and asking How does race and gender structure the experiences of black and ethnicised women in our places of learning and teaching? Why, in the context of endemic race and gender inequality, is there a persistent expression of educational desire among

black and ethnicised women? Why is black and ethnicised female empowerment important in understanding the dynamics of wider social change? Social commentators, academics, policy makers and political activists have debated the causes of endemic gender and race inequalities in education for several decades. This important and timely book demonstrates the alternative power of a black feminist framework in illuminating the interconnections between race and gender and processes of educational inequality. Heidi Safia Mirza, a leading scholar in the field, takes us on a personal and political journey through the debates on black British feminism, genetics and the new racism, citizenship and black female cultures of resistance. Mirza addresses some of the most controversial issues that shape the black and ethnic female experience in school and higher education, such as multiculturalism, Islamophobia, diversity, race equality and equal opportunities Race, Gender and Educational Desire makes a plea for hope and optimism, arguing that black women's educational desire for themselves and their children embodies a feminised prospectus for a successful multicultural future. This book will be of particular interest to students, academics and researchers in the field of education, sociology of education, multicultural education and social policy. Heidi Safia Mirza is Professor of Equalities Studies in Education at the Institute of Education, University of London, and Director of the Centre for Rights, Equalities and Social Justice (CRESJ). She is also author of Young, Female and Black (Routledge).

**Communities and Museums in the 21st Century** Karen Brown 2023-08-10 Communities and Museums in the 21st Century brings together innovative, multidisciplinary perspectives on contemporary museology and participatory museum practice that contribute to wider debates on museum communities, heritage, and sustainability. Set within the context of globalisation and decolonisation, this book draws upon bi-regional research that will enrich our understanding of the complex relationships between Europe, Latin America and the Caribbean through museum studies and practice. Chapters reflect upon the role of museums in defining community identities; the importance of young people's participation and intergenerational work for sustainability; the role of museums in local development; and community-based museums and climate change. Contributors examine these issues through the lens of museum partnerships and practices, as well as testing the continued relevance of the notion of 'integral museum' and its relatives in the form of ecomuseums. With its focus on regional museums in Latin America and Caribbean, this book highlights how the case studies promote greater intercultural dialogue, global understanding and social cohesion. It also demonstrates how the methodology can be adapted to other communities who are facing the perils of climate change and unsustainable forms of development. Communities and Museums in the 21st Century proposes creative and sustainable strategies relevant to a globalised future. With its focus on global societal challenges, this book will appeal to museologists and museum practitioners, as well as those working in heritage studies, cultural studies, memory studies, art history, gender studies, and sustainable development.

**Sacred Ecology** Fikret Berkes 2012-03-29 Sacred Ecology examines bodies of knowledge held by indigenous and other rural peoples around the world, and asks how we can learn from this knowledge and ways of knowing. Berkes explores the importance of local and indigenous knowledge as a complement to scientific ecology, and its cultural and political significance for indigenous groups themselves. This third edition further develops the point that traditional knowledge as process, rather than as content, is what we should be examining. It has been updated with about 150 new references, and includes an extensive list of web resources through which instructors can access additional material and further illustrate many of the topics and themes in the book. Winner of the Ecological Society of America's 2014 Sustainability Science Award.

**Achieving Inclusive Education in the Caribbean and Beyond** Stacey N. J. Blackman 2019-05-28 This book offers an international perspective of philosophical,

conceptual and praxis-oriented issues that impinge on achieving education for all students. It sheds light on the historical, systemic, structural, organizational, and attitudinal barriers that continue to be antithetical to the philosophy and practice of inclusive education within the Caribbean. The first section of the book examines how globalized views of inclusion informed by philosophical ideas from the North have influenced and continue to influence the equity in education agenda in the region. The second section considers how exclusion and marginalization still occur across selected Caribbean islands. It provides both quantitative and qualitative data about the nature and experience of exclusion in selected Caribbean islands, the UK and USA. The third section tackles the practical realities of transforming education systems in the Caribbean for inclusion. In particular, it identifies teacher practices as the main site of interrogation that needs to be tackled if inclusion is to be successful. The fourth and final section examines the contribution of principals and exemplars to the development and advocacy for inclusive education. It discusses how educational leadership is understood, as well as the role of school principals in making inclusion a reality in schools, the challenges experienced and the qualities of education leaders.

**International Investment Law and Development** Stephan W. Schill 2015-12-18 International investment law has often been seen as an obstacle to sustainable development. While the connections between investment and development are plain, for a long time there has been relatively little scholarship exploring them. Combining critical reflection and detailed analysis, this book addresses the relationship between contemporary investment law and development. The book is organized around two competing visions of investment and development - as working either harmoniously or in conflict with one another. The expert contributors reflect on both of these views and analyse the social dimensions of development and its impact on investment law. Coverage includes in-depth discussion on such issues as human rights, poverty reduction, labor standards, and indigenous peoples. Students and scholars of international investment law will benefit from the informed analysis of the links between investment and development. This book will also be of use to practitioners and experts of development law who are looking for an up-to-date perspective of the field.

English Language Teacher Education in Chile Malba Barahona 2015-07-15 Over the last two decades, Chile has been driven by an economic imperative to build the capability of citizens to be competent in the English language, resulting in a high demand for teachers of English. As a consequence, teacher education programs have modified their curricula to meet the challenges of educating teachers of English as a global language. This book explores EFL teacher education in order to further understand the nature of teacher learning in second language education environments, examining the varying motives, actions and mediating tools that shaped how a cohort of pre-service teachers learnt to teach EFL in Chile. Framed by a cultural historical activity theory (CHAT) perspective, chapters use key qualitative research to determine how specific factors can help and hinder the effective preparation of teachers, illuminating contradictory dynamics between local and national policies, teacher education programs, and pre-service views and classroom realities. The book makes an important contribution to the growing debate surrounding the design of EFL teacher education policy, curriculum and learning strategies, emphasising the importance of engaging pre-service teachers in learning to teach EFL, and the interrelated factors that shape this learning. English Language Teacher Education in Chile will be of key interest to academics, researchers and postgraduate students in the fields of teacher education, curriculum studies, and English language teaching (ESL/EFL), as well as policy makers, TESOL organisations, and those interested in applying a CHAT perspective to language teaching and learning.
