For the Love of Mountains Krishnan Naganathan 2020-09 A whim to experience outdoor life sparked a life-changing experience and a new love affair, a love for the mountains. More than a travelogue, I have relived each of my favorite mountain haunts visually in this book. Every picture and every day in the mountains have a story behind it. These stories include the local people, whose guests we were, friends, and yours truly. I have trekked many of these trails multiple times, hence some of them have more pictures than others. These visits in the last 11 years have transformed me from an introvert to an extrovert, a weakling with a bad back (three slipped discs) to a fit 50-year-old. I became a better photographer and a better traveler over time and this is reflected in the quality of pictures as well. I often tell my friends that a week of hiking in the mountains is equivalent to a lifetime of memories. And I have plenty of them to share in this photo book.

He has scaled 244 peaks, including four times to the trop of Gannett Peak, the highest mountain in the state. A vigorous supporter of wilderness, the mountain man pours out his philosophy at meetings and slide shows with amazing attention to detail. He has taken 105,345 pictures as a hobby and uses them in his slide shows to show people their own public lands. He has drawn on his vast experience in the Wind Rivers to describe, in this guide book, the trails, routes, wildlife, glaciers, 4,000 lakes and 800 miles of streams in Wyoming's fabulous two and a quarter million acre Wind River Range.

Into the Wild Jon Krakauer 2009-09-22 Krakauer's page-turning bestseller explores a famed missing person mystery while unraveling the larger riddles it holds: the profound pull of the American wilderness on our imagination; the allure of high-risk activities to young men of a certain cast of mind; the complex, charged bond between fathers and sons. "Terrifying... Eloquent... A heart-rending drama of human yearning." —New York Times In April 1992 a young man from a well-to-do family hitchhiked to Alaska and walked alone into the wilderness north of Mt. McKinley. He had given \$25,000 in savings to charity, abandoned his car and most of his possessions, burned all the cash in his wallet, and invented a new life for himself. Four months later, his decomposed body was found by a moose hunter. How Christopher Johnson McCandless came to die is the unforgettable story of Into the Wild. Immediately after graduating from college in 1991, McCandless had roamed through the West and Southwest on a vision quest like those made by his heroes Jack London and John Muir. In the Mojave Desert he abandoned his car, stripped it of its license plates, and burned all of his cash. He would give himself a new name, Alexander Supertramp, and, unencumbered by money and belongings, he would be free to wallow in the raw, unfiltered experiences that nature presented. Craving a blank spot on the map, McCandless simply threw the maps away. Leaving behind his desperate parents and sister, he vanished into the wild. Jon Krakauer constructs a clarifying prism through which he reassembles the disquieting facts of McCandless's short life. Admitting an interst that borders on obsession, he searches for the clues to the drives and desires that propelled McCandless. When McCandless's innocent mistakes turn out to be irreversible and fatal, he becomes the stuff of tabloid headlines and is dismissed for his naiveté, pretensions, and hubris. He is said to have had a death wish but wanting to die is a very different thing from being compelled to look over the edge. Krakauer brings McCandless's uncompromising pilgrimage out of the shadows, and the peril, adversity, and renunciation sought by this enigmatic young man are illuminated with a rare understanding--and not an ounce of sentimentality. Mesmerizing, heartbreaking, Into the Wild is a tour de force. The power and luminosity of Jon Krakauer's stoytelling blaze through every page.

Sage Spirit Dave Showalter 2015 - Reveals a little-known yet iconic Western region that supports virtually all western wildlife species - A conservation priority area for Audubon, World Wildlife Fund, and the National Wildlife Federation, among others Located on the eastern side of the Rocky Mountains and stretching from Greater Yellowstone to Telluride, Colorado, the region known as the Sagebrush Sea is a unique wildlife habitat with an abundance of natural resources. For this reason it is treasured by conservationists, private land owners, and energy developers alike. The loss of this habitat would be catastrophic for important species like the Greater and Gunnison's Sage-grouse. Greater Sage-grouse were once found across thirteen western states, but due to energy development and conversion of land for agriculture, they now inhabit only half of their historic range. In addition, the gradual disappearance of sagebrush habitat in the West is having a profound effect on other wildlife species such as Brewer's sparrow, sage sparrow, sage thrasher, pygmy rabbit, mule deer, pronghorn, and more. Sage Spirit features each of these species and the threats they face. Photographer and writer Dave Showalter has documented the seasonal changes, animal behaviors, and migrations within the Sagebrush Sea. He is working with conservation leaders, government agencies, Native communities, and private landowners to tell the complete story of the ecosystem and the way humans are using the landscape. Through images and essays, Sage Spirit explains why responsible management of this fragile habitat is so vital. A Place in Which to Search Joe Kelsey 2016-08-12 In 1969 Joe Kelsey pitched a tent in the Wind River Mountains, declared it home, and has returned every summer since. A wilderness paradise, the range straddles the Continental Divide in northwestern Wyoming. Kelsey and a cadre of other young climbers ventured into the Winds to explore routes more obscure than those in the popular Teton Range to the west. Through tales of pitons and nuts, heroic climbers and Vulgarians, solitude and community, Kelsey captures the exploration of an enigmatic mountain range, the cultural evolution of climbing, the camaraderie of camp life, and the responsibility that comes with falling in love with a place. Feeling part of wild land, seeing ourselves reflected in it, gives us a glimpse of who we are. Kelsey's book shows how he found a true sense of self in one of North America's wildest places.
