Contemporary Sociological Theory Craig Calhoun 2012-01-10 This comprehensive collection of contemporary sociological theory is the

definitive guide to current perspectives and approaches in the field, examining key topics and debates in the field. Collects the most representative material available on topics such as symbolic interactionism,

phenomenology, structuralism, network theory, critical theory, feminist theory, and the debates over modernity and postmodernity Includes examinations of the work of Foucault, Giddens, and Bourdieu A new section for this edition opens up the debate on power and inequality Thematically organized

**Foundations of Classical Sociological Theory: Functionalism, Conflict and Action** Paramjit S. Judge

**Foundations of Classical Sociological Theory: Functionalism, Conflict and Action** provides an extensive analysis of classical sociological theory by giving readers an introduction to the life and ideas of all the eminent thinkers. The book begins by giving an overview of the emergence of sociology as a discipline in the background of socio-economic development that characterized Europe in 18th century. The first part of the book examines how the theorists viewed society as an organism; the second part takes cognizance of the conflict theory and third part deals with the emergence of action theory which took ambivalent position with regard to science and emphasized human agency and consciousness. Written in a very simple language, this book will help students delve deeper into the subject.

**Handbook of Contemporary Sociological Theory** Seth Abrutyn

This Handbook provides the hidden common threads that tie sociological inquiry together and featuring eminent scholars, it separates itself from its predecessors in substance and organization. Rather than rehashing old debates or longingly gazing at the past, this book presents sociologists with new ways of conceptualizing the organization and presentation of sociological theory. At the heart of this Handbook's vision is the twin goals of making theory a viable enterprise by reconceptualizing how we teach theory and keeping theory closely tied to its empirical applications. Three strategies are offered: (1) Elucidating how classic issues like integration or interaction are interrogated today; (2) Presenting a coherent vision of the social levels of reality that theorists work on such as communities, groups, and the self as well as how the coherence of these levels speaks to the macro-micro link; and, (3) Theorizing the social world rather than celebrating theorists or theories; that is, one can look at how theory is used holistically to understand the constraints the social world places on our lived experience or the dynamics of social change. Hence, in the second decade of the 21st century, it has become clear that sociology is at a crossroads as the number of theorists and amount of theory available is increasingly unmanageable and unknowable by the vast majority of professionals and students. As such, this Handbook of Contemporary Sociological Theory presents the novice and the expert with the a roadmap for traversing this crossroad and building a more coherent, robust, and cumulative sociology.

**The Social Theory of W.E.B. Du Bois** Phil Zuckerman

W. E. B. Du Bois was a political and literary giant of the 20th century, publishing over twenty books and thousands of essays and articles throughout his life. In *The Social Theory of W. E. B. Du Bois*, editor Phil Zuckerman

assembles Du Bois's work from a wide variety of sources, including articles Du Bois published in newspapers, speeches he delivered, selections from well-known classics such as *The Souls of Black Folk* and *Darkwater*, and lesser-known, hard-to-find material written by this revolutionary social theorist. This book offers an excellent introduction to the sociological theory of one of the 20th century's intellectual beacons. **Classical Sociological Theory** Craig Calhoun 2012-01-17 This comprehensive collection of classical sociological theory is a definitive guide to the roots of sociology from its undisciplined beginnings to its current influence on contemporary sociological debate. Explores influential works of Marx, Durkheim, Weber, Mead, Simmel, Freud, Du Bois, Adorno, Marcuse, Parsons, and Merton Editorial introductions lend historical and intellectual perspective to the substantial readings Includes a new section with new readings on the immediate "pre-history" of sociological theory, including the Enlightenment and de Tocqueville Individual reading selections are updated throughout

**Classical Sociology** Bryan S Turner 1999-10-13 In this book, one of the foremost sociologists of the present day, turns his gaze upon the key figures and seminal institutions in the rise of sociology. Turner examines the work of Karl Marx, Max Weber, Karl Mannheim, Georg Simmel, Emile Durkheim and Talcott Parsons to produce a rich and authoritative perspective on the classical tradition. He argues that classical sociology has developed on many fronts, including debates on the family, religion, the city, social stratification, generations and citizenship. The book defends classical perspectives as a living tradition for understanding contemporary social life and demonstrates how the classical tradition produces an agenda for contemporary sociology.

*Classical Sociological Theory* Bert N. Adams 2002-01-29 A concise, yet surprisingly comprehensive theory text, given the range of ideas, historical context, and theorists discussed. Unlike other books of the type, *Classical Sociological Theory* focuses on how the pivotal theories contributed not only to the development of the field, but also to the evolution of ideas concerning social life.

*Classical Sociological Theory* Bert N. Adams 2002-01-29 A concise, yet surprisingly comprehensive theory text, given the range of ideas, historical context, and theorists discussed. Unlike other books of the type, *Classical Sociological Theory* focuses on how the pivotal theories contributed not only to the development of the field, but also to the evolution of ideas concerning social life.

**Contemporary Sociological Theory and Its Classical Roots** George Ritzer

2017-12-22 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. Now with SAGE Publishing, *Contemporary Sociological Theory and Its Classical Roots: The Basics*, is a brief survey of sociology's major theorists and theoretical approaches, from the Classical

founders to the present. With updated scholarship in the new Fifth Edition, authors George Ritzer and Jeffrey Stepnisky connect many theorists and schools of thought together under broad headings that offer students a synthesized view of sociological theory. This text is perfect for those who want an accessible overview of the entire tradition of sociological thinking, with an emphasis on the contemporary relevance of theory.

**Key Concepts in Classical Social Theory** Alex Law 2011-01-19 This book's individual entries introduce, explain and contextualise the key topics within classical social theory. Definitions, summaries and key words are developed throughout with careful cross-referencing allowing students to move effortlessly between core ideas and themes. Each entry provides: ' Clear definitions ' Lucid accounts of key issues ' Up-to-date suggestions for further reading ' Informative cross-referencing Relevant, focused and accessible this book will provide students with an...

*Classical Social Theory and Modern Society* Edward Royce 2015-01-22 Karl Marx, Emile Durkheim, and Max Weber are indispensable for understanding the sociological enterprise. They are among the chief founders of the discipline and among the foremost theorists of modernity, and their work can stimulate readers to reflect on their own identities and worldviews. *Classical Social Theory and Modern Society* introduces students to these three thinkers and shows their continued relevance today. The first chapter sets the stage by situating the work of Marx, Durkheim, and Weber in the context of three modernizing revolutions: the Enlightenment, the French Revolution of 1789, and the industrial revolution. Three overview chapters follow that summarize the key ideas of each thinker, focusing on their contributions to the development of sociology and their conceptions of modern society. The last portion of the book explores the thinking of Marx, Durkheim, and Weber on four themes—the pathologies of modern society, the predicament of the modern individual, the state and democracy, and socialism versus capitalism. These thematic chapters place Marx, Durkheim, and Weber in dialogue with one another, offering students the opportunity to wrestle with conflicting ideas on issues that are still significant today. Classical sociology is essential to the teaching of sociology and also an invaluable tool in the education of citizens.

**Classical Sociological Theory** George Ritzer 2004 This work provides an overview of the history of classical sociological theory and the work of the major classical theorists. Key theories are integrated with biographical sketches of the lives of theorists to place readings in their personal and historical context for students.

*Classical and Modern Social Theory* Heine Anderson 2000-09-13 *Classical and Modern Social Theory* is comprehensive introduction to the field, covering a wide historical range of thinkers, from the classical to the postmodernist, as well as key themes in social theory and a guide to the major debates. Designed for students with little or no background in social theory, this single volume covering both classic and contemporary theory

introduces the basic concepts at the center of social theory in accessible language and provides readers with a useful reference source to the field.

**Contemporary Sociological Theory** Steven Loyal 2020-10-12 Introducing you to the most important thinkers and schools of thought in contemporary sociological theory – from Parsons and Merton to the Frankfurt School to Foucault, Bourdieu, Giddens and Hochschild – this accessible textbook firmly locates key ideas in social, political and historical context. By doing so, it helps you to understand the development of central sociological concepts and how they can help us understand the contemporary world. The book includes: Lively biographical sections so you can get to know each thinker Clear and easy-to-understand accounts of each theorist's arguments - and the most common criticisms Key concept boxes highlighting the most influential ideas This comprehensive textbook brings the diverse field of contemporary sociological theory to life. Essential reading for all students of Sociology and Sociological Theory.

**Sociological Theory** David Ashley 2001 This text provides a comprehensive examination of classical sociological theory by introducing students to the individuals who created it. Each chapter focuses on one theorist and their ideas, organized into a social and historical perspective. Students will enjoy reading the background information on each theorist covered in the book. These include such interesting highlights as Comte's days in military school, the death of Durkheim's son in World War I, Spencer's inability to commit to marriage, and Hegel's illegitimate son. Taking a critical and reflexive approach, the text also discusses how classical theory affects sociology today.

**Sociological Theory in the Classical Era** Laura Desfor Edles 2014-11-18 Trained at UCLA and at NYU respectively, Laura Desfor Edles and Scott Appelrouth were frustrated by their inability to find a sociological theory text that could inspire enthusiasm in undergraduate students while providing them with analytical tools for understanding theory and exposing them to original writings from pivotal theorists. They developed this widely used text/reader to fill that need. *Sociological Theory in the Classical Era* introduces students to original major writings from sociology's key classical theorists. It also provides a thorough framework for understanding these challenging readings. For each theorist, the authors give a biographical sketch, discuss intellectual influences and core ideas, and offer contemporary examples and applications of those ideas. Introductions to every reading provide additional background on their structure and significance. This book also makes frequent use of photos, diagrams, tables, and charts to help illustrate important concepts.

*Classical Social Theory* Kenneth H. Tucker, Jr. 2001-10-08 This accessible, original book is an exploration of the relevance of classical social theory in the contemporary world. It examines the work of Marx, Weber and Durkheim through the lens of new theoretical issues, such as the role of Empire, the problem of cultural differences, and the possibilities of democracy that are implicit in each theorist's perspective.

*Classical Sociological Theory* Irving M. Zeitlin 2019-03-04 Authored by the world-renowned sociologist Dr. Irving Zeitlin, *Classical Sociological Theory* is an abridged version of the popular textbook *Ideology and the Development of Sociological Theory*. Known for its comprehensive descriptions of classical sociological theorists and concepts from Enlightenment to the 20th century, this new, abridged edition features an updated introduction, extensive index, and 14 succinct chapters. Dr. Zeitlin provides detailed explanations of essential philosophies; develops ideologies and theories within a historical context; and introduces readers to the classical critical thinkers of our time, such as Émile Durkheim, Karl Mannheim, Karl Marx, George Herbert Mead, Max Weber, and Mary Wollstonecraft. This is an ideal resource for undergraduate students of sociology, philosophy, social theory, and social psychology.

**Explorations in Classical Sociological Theory** Kenneth Allan 2010

*Explorations in Classical Sociological Theory: Seeing the Social World, Second Edition* is an undergraduate sociological theory textbook that introduces the student to the major classical theorists, including Marx, Spencer, Durkheim, Weber, Simmel, Mead, Schutz, Gilman, and Du Bois. The theorists were chosen for the diversity of their perspectives as well as their ability to introduce the student to contemporary theory. Kenneth Allan uses a lively informative writing style to engage the students in the eras of social change that spawned the major sociological theories and then applies them to the current era, which also is experiencing major social change. Features and benefits:

- The book includes a glossary of terms. Each of the theorist's important concepts are highlighted in the text and clear definitions provided in the glossary. This feature is particularly important because theory is made up of terms and concepts and without the use of a glossary, it is very easy for the undergraduate theory student to lose track of the terms and meanings.
- While the book is organized primarily around the individual theorist's perspective, a categorical scheme is also provided so the student can roughly situate the theorists and decide for themselves some of sociology's big questions. The scheme provided in the book is not the one usually used by textbooks. The more commonly used scheme (conflict, functional, interaction) hides some really important questions that the student needs to consider (for example, is society an object or does it exist only through interpretations?).
- The book provides an appendix with complete definitions of most of sociology's major "perspectives" e.g., critical theory (including feminism, race, and queer theory, postmodernism, and so on), exchange theory, rational choice theory, dramaturgy, ethnomethodology, structuration, network theory, ecological theory, social phenomenology, and so on.
- The book introduces the power and poetry of theory by extensive use of original source material from the theorists writings.

**Social Theory** Carsten Bagge Laustsen 2017-03-27 This textbook offers a new approach to understanding social theory. Framed around paired theoretical perspectives on a series of sociological problems, the book

shows how distinctive viewpoints shed light on different facets of social phenomena. The book includes sociology's "founding fathers", major 20th-century thinkers and recent voices such as Butler and Zizek.

Philosophically grounded and focused on interpretation and analysis, the book provides a clear understanding of theory's scope while developing students' skills in evaluating, applying and comparing theories.

**Classical Sociological Theory** George Ritzer 2016-12-27 Now with SAGE Publishing, and co-authored by one of the foremost authorities on sociological theory, George Ritzer and Jeffrey Stepnisky's *Classical Sociological Theory, Seventh Edition*, provides a comprehensive overview of the major theorists and schools of sociological thought from the Enlightenment roots of theory through the early 20th century. The integration of key theories with biographical sketches of theorists and the requisite historical and intellectual context helps students to better understand the original works of classical authors as well as to compare and contrast classical theories. New to this Edition

- In Ch. 1, Colonialism is now discussed as a major social force in development of modern society.
- In Ch. 2, there is an expanded discussion of the historical significance of Early Women Founders and the contributions of W.E.B. Du Bois.
- The chapter on Du Bois (Ch. 9) includes new material about his intellectual influences.
- New contemporary commentary about Durkheim has been added to Ch. 7.
- Ch. 9 includes new material from recently translated later writings of George Simmel, providing new context for his overall theory.
- Addition of Historical Context boxes throughout text.
- Sections on contemporary applications of classical theory have been added to each chapter.

**Marx, Durkheim, Weber** Ken Morrison 2006-07-18 This Second Edition is a thoroughly revised, expanded version of the bestselling student text in classical social theory. Author Kenneth Morrison provides an authoritative, accessible undergraduate guide to the three pivotal figures in the classical tradition. Readable and stimulating, the Second Edition of *Marx, Durkheim, Weber: Formations of Modern Social Thought* explains the key ideas of these thinkers and situates them in their historical and philosophical contexts.

*Classical Sociological Theory* Steven Loyal 2020-09-30 Introducing the founders of sociological theory – from Marx, Weber, Durkheim and Martineau through to Simmel, DuBois, Mead and others – this accessible textbook locates each thinker within their own social, political and historical context. By doing so, it helps readers to understand the development of central sociological concepts and how they can help us understand the contemporary world. The book includes:

- Lively biographical sections to help readers get to know each thinker
- Clear and easy-to-understand accounts of each theorist's arguments - and the most common criticisms
- Key concept boxes highlighting the most influential ideas

This comprehensive, enlightening text brings the rich and diverse field of classical sociological theory to life.

**Classical Sociological Theory** George Ritzer 2020-03-27 The authors are proud sponsors of the 2020 SAGE Keith Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. *Classical Sociological Theory*, Eighth Edition, provides a comprehensive overview of the major theorists and schools of sociological thought from the Enlightenment roots of theory through the early 20th century. The integration of key theories with biographical sketches of theorists and the requisite historical and intellectual context helps students to better understand the original works of classical authors as well as to compare and contrast classical theories.

*Sociological Theory* George Ritzer 2017-01-05 Now with SAGE Publishing, and co-authored by one of the foremost authorities on sociological theory, the Tenth Edition of *Sociological Theory* by George Ritzer and Jeffrey Stepnisky gives readers a comprehensive overview of the major theorists and schools of sociological thought, from sociology's origins through the early 21st century. Key theories are integrated with biographical sketches of theorists, and are placed in their historical and intellectual context. This text helps students better understand the original works of classical and modern theorists, and enables them to compare and contrast the latest substantive concepts. New to this Edition Chapter 1 now includes a discussion of colonialism as one of the forces that shaped modern society. The “Historical Sketch” chapters contain new material on the historical significance of early women founders, and on the contributions of W.E.B. Du Bois. Chapters on Marx, Durkheim, Weber, and Simmel now conclude with sections on contemporary applications of ideas from these 19th century thinkers. A new chapter focuses theories of race, racism, and colonialism, as well as theories about indigenous peoples and theories from the “Global South” that challenge the work of scholars from Europe and North America. The concluding chapter has a new section on theories of prosumption, one of the newest developments in consumer theory. New material on colonization, women classical theorists, and race theory, as well as new timelines, added to history chapters.

**An Introduction to Sociology** Anthony Giddens 2000-04-01  
**Capitalism and Classical Social Theory, Third Edition** John Bratton 2019-05-31 In this third edition of *Capitalism and Classical Social Theory*, John Bratton and David Denham build on the classical triumvirate—Karl Marx, ?mile Durkheim, and Max Weber—by extending the conversation to include early female theorists such as Mary Wollstonecraft and Charlotte Perkins Gilman, as well as the writings of W.E.B. Du Bois and G.H. Mead. Connecting current headlines in the political mainstream to concepts like alienation, anomie, class, gender, race, and the environment, *Capitalism and Classical Social Theory* sheds light on how classical social theories may be applied and understood within a contemporary context. This revised and expanded third edition features topical discussions of socio-economic shifts in the post-Trump and post-Brexit world and uses original

excerpts and additional readings to further contextualize the significance of classical social theory today.

*Sociological Theory* 2013

**Classical Social Theory** Ian Craib 1997 This is an excellent textbook on classical social theory, concentrating on the founding thinkers of sociology - Marx, Weber, Durkheim, and Simmel - and written in an accessible and engaging style. It has become a key text allowing students to assess the enduring significance of these writers in our epoch of major social change, and will be essential reading on classical social theory, sociological theory, and introduction to sociology courses.

**Sociological Theory in the Classical Era** Laura Desfor Edles 2020-06-18 Now available for the first time in both print and e-book formats *Sociological Theory in the Classical Era*, Fourth Edition is an innovative text/reader for courses in classical theory. It introduces students to important original works by sociology’s key classical theorists while providing a thorough framework for understanding these challenging readings. For each theorist, the editors supply a biographical sketch, discuss intellectual influences and core ideas, and offer contemporary applications of those ideas. In addition to the seven major theorists covered, the book also connects their work to “Significant Others”—writers and thinkers who may have derived much of their own perspectives from Marx, Durkheim, Weber, Gilman, Simmel, Du Bois, and Mead. Included with this title: The password-protected Instructor Resource Site (formally known as SAGE Edge) offers access to all text-specific resources, including a test bank and editable, chapter-specific PowerPoint® slides. Learn more.

**Explorations in Classical Sociological Theory** Kenneth Allan 2016-09-22 Praised for its conversational tone, personal examples, and helpful pedagogical tools, the Fourth Edition of *Explorations in Classical Sociological Theory: Seeing the Social World* is organized around the modern ideas of progress, knowledge, and democracy. With this historical thread woven throughout the chapters, the book examines the works and intellectual contributions of major classical theorists, including Marx, Spencer, Durkheim, Weber, Mead, Simmel, Martineau, Gilman, Douglass, Du Bois, Parsons, and the Frankfurt School. Kenneth Allan and new co-author Sarah Daynes focus on the specific views of each theorist, rather than schools of thought, and highlight modernity and postmodernity to help contemporary readers understand how classical sociological theory applies to their lives.

*Classical Sociological Theory* Ian McIntosh 1997-05 A collection of the most relevant and noteworthy works of classical sociological thinkers in one single volume Over the years, many textbooks have been written about the troika of sociological geniuses, Marx, Durkheim, and Weber. Too often, however, these works have been mere distillations of the views of the great thinkers. They did not intend nor could they hope to capture the subtleties and nuances of the original texts. With the publication of Ian

McIntosh's *Classical Sociological Theory: A Reader*, extracts of the most relevant and noteworthy works of the classical sociological thinkers are available for the first time in a single volume. Here we find lengthy excerpts from Marx's *Communist Manifesto* and *The German Ideology*, Weber's *Protestant Ethic and the Spirit of Capitalism*, Durkheim's *The Division of Labour in Society* and *Suicide: A Study in Sociology*. Generous portions of fifteen other texts are included here, as well as selected correspondence of Karl Marx. Each extract is prefaced by an introduction which provides the reader with essential background information on each author's *Weltanschauung*, without telling the student what to think or encapsulating the excerpt to follow. Brief biographies of the principals and guides for further reading provide the student with a frame of reference for the texts. *Classical Sociological Theory: A Reader* is not a replacement for the full texts in the original. It is, however, an enticement, whetting the appetite for further exploration of the masters of sociological thought.

**The Blackwell Companion to Major Classical Social Theorists** George Ritzer 2008-04-15 *The Blackwell Companion to Major Classical Social Theorists* provides a comprehensive review of classical social theory. Containing original essays especially commissioned for this volume, leading experts and practitioners examine the life and work of 12 major theorists. Includes 12 original essays by leading scholars on major classical social theorists Covers the key figures who shaped social theory, such as Marx, Weber and Durkheim, as well as additional classical theorists such as Harriet Martineau and W. E. B. Du Bois Essays include biographical sketches, the social and intellectual context, and the impact of the thinker's work on social theory generally Includes bibliographies of the theorist's most important works as well as key secondary works Can be used in conjunction with *The Blackwell Companion to Major Contemporary Social Theorists*, edited by George Ritzer, for a complete reference source in social theory

*Handbook of Classical Sociological Theory* Seth Abrutyn 2021-11-01 This is the first handbook focussing on classical social theory. It offers extensive discussions of debates, arguments, and discussions in classical theory and how they have informed contemporary sociological theory. The book pushes against the conventional classical theory pedagogy, which often focused on single theorists and their contributions, and looks at isolating themes capturing the essence of the interest of classical theorists that seem to have relevance to modern research questions and theoretical traditions. This book presents new approaches to thinking about theory in relationship to sociological methods.

*Classical Sociological Theory* George Ritzer 2010-04-19 Written by one of the foremost authorities on sociological theory, this text gives readers a comprehensive overview of the major classical theorists and schools of sociological thought. The integration of key theories with biographical sketches of theorists and the requisite historical and intellectual context helps students to better understand the original works of classical authors

as well as to compare and contrast classical theories.

*Introduction to Sociological Theory* Michele Dillon 2020-01-07 The revised third edition of the text that combines classical and contemporary theories of sociological theory Thoroughly revised and updated, the third edition of an *Introduction to Sociological Theory* offers an in-depth introduction to classical and contemporary theories, and demonstrates their relevance to offer a clear understanding of a broad range of contemporary issues and topics. As with the previous editions, the text continues to combine carefully selected primary quotations from a broad range of theorists with extensive discussion and illustrative examples from a diverse range of countries, helpful timelines of important and thematically relevant events, biographical notes, contemporary topic boxes, analytical photos, and chapter glossaries. The text addresses topics such as the persistence of economic and social inequality, Brexit, post-truth society, same-sex marriage, digital surveillance and the on-demand gig economy. Written in an engaging style, *Introduction to Sociological Theory* offers a comprehensive introduction to the pluralistic breadth and wide-ranging applicability of sociological theory. This updated edition of the authoritative text: Contains both classical and contemporary theories in a single text Builds on excerpts from original theoretical writings with detailed discussion of the concepts and ideas under review Includes new examples of current empirical topics such as Brexit, Donald Trump's presidency, China's growing economic power, global warming, intersectionality, social media, and much more Offers additional resources including a website that contains multiple choice and essay questions, a thoroughly refreshed set of PowerPoint slides for each chapter with multimedia links to content illustrative of sociological processes, a list of complementary primary readings, a quotation bank, and other background materials Written for undergraduate courses in contemporary and classical sociological theory, the third edition of an *Introduction to Sociological Theory* continues to provide a comprehensive, in-depth, and empirically engaging, introduction to sociological theory.

*Classical and Contemporary Social Theory* Tim Delaney 2016-01-08 *Classical and Contemporary Social Theory: Investigation and Application*, 1/e, is the most comprehensive, informative social theory book on the market. The title covers multiple schools of thought and applies their ideas to society today. Readers will learn the origins of social theory and understand the role of myriad social revolutions that shaped the course of societies around the world.

**Capitalism and Classical Social Theory** John Bratton 2014-01-24 *Capitalism and Classical Social Theory*, Second Edition offers solid coverage of the classical triumvirate (Marx, Durkheim, and Weber), but also extends the canon strategically to include Simmel, four early female theorists, and the writings of Du Bois.

**Classical and Contemporary Sociological Theory** Scott Appelrouth 2020-08-13 The authors are proud sponsors of the 2020 SAGE Keith

Roberts Teaching Innovations Award—enabling graduate students and early career faculty to attend the annual ASA pre-conference teaching and learning workshop. Now available for the first time in print and e-book formats *Classical and Contemporary Sociological Theory: Text and Readings* offers students with the best of both worlds—carefully-edited excerpts from the original works of sociology’s key thinkers accompanied by an analytical framework that discusses the lives, ideas, and historical circumstances of each theorist. This unique format enables students to examine, compare, and contrast each theorist’s major themes and concepts. In the Fourth Edition of this bestseller, examples from contemporary life and a rich variety of updated pedagogical tools (tables, figures, discussion questions, and photographs) come together to illuminate complex ideas for today’s readers. Attention Instructors! Free digital resources are included with this text. Learn more.

**Social Theory in Education Primer** Philip Wexler 2009 *The Social Theory in Education Primer* shows how classical sociology sets the frame for theory and research in education. Three major paradigms are explained in their historical context, and are used as a key to making sense of contemporary work that understands education from a sociological point of view. The central classical theorists considered are seen both in their own context, and also as the founders of the major movements that have continuing influence. The social theories of Durkheim, Marx, and Weber are used to frame and orient concepts for the different models of contemporary work. This primer is essential reading for courses devoted to social theory and education; sociology of education; social foundations of education; history of education; history of sociology; sociological theory; and sociology of knowledge.
