Understanding Leadership Perspectives Matthew R. Fairholm 2009-04-05 hand. Indeed, we do not easily move out of one mind-set into another. What we believe to be true given our particular experience often seems to be the only truth. Often we need some outside force to trigger reevaluation and rethinking. That triggering force to intellectual growth may be a new idea, a new situation, a new value, a new boss, or some other significant emotional event – maybe, even, a new book. The Research Foundation This book is founded on two pillars: one, a model of five leadership mind-sets common in the last 100 years first presented in Gilbert W. Fairholm's (1998a, 1998b) book, *Perspectives on Leadership: From the Science of Management to its Spiritual Heart*; and two, Matthew R. Fairholm's (2002) dissertation, *Conceiving Leadership: Exploring Five Perspectives of Leadership by Investigating the Conceptions and Experiences of Selected Metropolitan Washington Area Municipal Managers*, which analyzed and validated the perspectives model (see the Appendix for more details). The data collected confirm there are five distinct perspectives of leadership evident in the 100-year history of leadership study and practice. The resulting model defines the five perspectives in terms of descriptions of leadership in action, leadership tools and behaviors, and the way leaders approach their relationship to followers. The five perspectives are related hierarchically so that they progressively encompass a unique perspective of the leadership phenomenon.

Programs that somehow manage to be both complex and imprecise are offered as the path to effective leadership. But is being a good leader really all that complicated? Are there intricate techniques to be analyzed, mastered, and applied? Or, is it that great leaders are born, not made? The answer to these questions is, "absolutely not." With *The Shipbuilder*, speaker and business leader Jack Myrick shares five simple, time-proven principles that, are guaranteed to make you an extraordinary leader.
