The Silent Cinema Reader Lee Grieveson 2004 The Silent Cinema Reader brings together key writings on cinema from the beginnings of film in 1894 to the advent of sound in 1927, addressing the development of film production and exhibition technologies, methods of distribution, film form, and film culture during this critical period on film history. Thematic sections address: film projection and variety shows; storytelling and the Nickelodeon; cinema and reform; feature films and cinema programs; classical Hollywood cinema and European national cinemas. Each section is introduced by the editors, and contains suggestions for further readings and film viewings.

Biostatistics Ronald N. Forthofer 2014-05-19 The Biostatistics course is often found in the schools of public Health, medical schools, and, occasionally, in statistics and biology departments. The population of students in these courses is a diverse one, with varying preparedness. The book assumes the reader has at least two years of high school algebra, but no previous exposure to statistics is required. Written for individuals who might be fearful of mathematics, this book minimizes the technical difficulties and emphasizes the importance of statistics in scientific investigation. An understanding of underlying design and analysis is stressed. The limitations of the research, design and analytical techniques are discussed, allowing the reader to accurately interpret results. Real data, both processed and raw, are used extensively in examples and exercises. Statistical computing packages - MINITAB, SAS and Stata - are integrated. The use of the computer and software allows a sharper focus on the concepts, letting the computer do the necessary number-crunching. * Emphasizes underlying statistical concepts more than competing texts * Focuses on experimental design and analysis, at an elementary level * Includes an introduction to linear correlation and regression * Statistics are central: probability is downplayed * Presents life tables and survival analysis * Appendix with solutions to many exercises * Special instructor’s manual with solution to all exercises

Children and New Media J. Josephine 2009 New Media today are an ubiquitous feature of our children’s lives. Consuming media seems to have outstripped reading and other favourite pastimes of children. Most children between the age groups of 3 and 18 spend longer hours of the day at home and outside, watching television, playing video games, surfing the net or using other forms of new media gadgets. Focusing on the impacts of new media in childhood, this book sets out to address many of the questions, fears, and hopes regarding the changing place of media in the lives of today’s children. As a resource for researchers and students in media and communication studies, this volume provides crucial insights into the role of media in the lives of children. The findings included will also be of interest to policymakers in media, technology and education throughout the world.

Bollywood and Globalization David J. Schaefer 2013 The field of Bollywood studies has remained predominantly critical, theoretical and historical in focus. This book brings together qualitative and quantitative approaches to tackle empirical questions focusing on the relationship between soft power, hybridity, cinematic texts, and audiences. Adopting a critical-transcultural framework that examines the complex power relations that are manifested through globalized production and consumption practices, the book approaches the study of popular Hindi cinema from three broad perspectives: transcultural production contexts, content trends, and audiences. It firstly outlines the theoretical issues relevant to the spread of popular Indian cinema and emergence of India’s growing soft power. The book goes on to report on a series of quantitative studies that examine the patterns of geographical, cultural, political, infrastructural, and artistic power dynamics at work within the highest-grossing popular Hindi films over a 61-year period since independence. Finally, an additional set of studies are presented that quantitatively examine Indian and North American audience consumption practices. The book illuminates issues related to the actualization and maintenance of cinematic soft power dynamics, highlighting Bollywood’s increasing integration into and subsumption by globalized practices that are fundamentally altering India’s cinematic landscape and, thus, its unique soft power potential. It is of interest to academics working in Film Studies, Globalisation Studies, and International Relations.

100 Most Destructive Natural Disasters Anna Claybourne 2015-01-01 How tall was the biggest tsunami? What causes giant hailstones? How hot is the inside of a volcano? What is a cyclonic storm? Uncover the power of the world’s most destructive natural disasters!

From Dusk Till Dawn Quentin Tarantino 1996 In From Dusk Till Dawn the fertile imagination of Quentin Tarantino ventured into new territory - the world of vampires. In the film, a pair of hard-boiled natural born killers, the Gecko brothers, on the lam from the police, kidnap a family in a camping van and use them as camouflage to get across the border into Mexico. They reach their rendezvous at the Titty Twister bar and await the arrival of their comrades. As the long night sets in, all manner of mayhem breaks loose . . .

Requiem for Rhodesia Carlos Whitlock Porter 2015-07-19 In re-reading this brilliant essay one should be reminded that the author was only 26 years old at the time and had not been brought up in Africa. Considering that, it is truly remarkable that he could have been so unfashionably ‘illiberal’ and so insightful into the African psyche - From the Bantu Education Blog

Cry Zimbabwe Peter Stiff 2004 The mostly untold story of Koevoet - the South African Police’s highly successful counter-insurgency unit. Initially based on the Selous Scouts of Rhodesia, it was formed in 1979 and deployed in Namibia until independence in 1989 when it was disbanded as a sop to the UN. During its almost ten year existence it fought in 1,615 contacts and killed or captured 3,225 of SWAPO’s PLAN soldiers - the equivalent of almost six battalions of troops. But it paid a high price in blood and lost almost 160 policemen killed in action with another 949 wounded - more grievous casualties than any other South African fighting unit since World War II.-- Publisher’s website.

Grand Designs Aneta Podkalicka 2018-11-28 This is the first academic book to examine the long running hit series Grand Designs, which occupies a significant place in the popular imagination internationally. The authors apply an empirically grounded, critical perspective to the study of television to reveal how people use the program in their everyday lives. The emphasis on everyday uses and meanings combines creatively with understanding the program theoretically, textually and in terms of its production structures. This position challenges framings of the popular lifestyle and factual television genre that has been dominated by a neoliberal or governmentality perspective for many years. Presented by British designer and writer, Kevin McCloud, Grand Designs follows the progress of home owners as they embark on design, renovation and building projects at almost always dizzying scales of endeavour. Understanding the program as both a text to analyse and a site of material impact, the book draws on interviews with production members, home renovators, building practitioners and audiences, as well as references to associated media formats to provide contextual depth to the analysis. The authors argue that, as a cultural object, the program is both shaped by and enacts social discourses of home-making, design value and

taste. Navigating public, commercial and promotional logics, Grand Designs sparks new forms of cultural production and consumer markets.

Expanded Cinema Gene Youngblood 2020-03-03 Fiftieth anniversary reissue of the founding media studies book that helped establish media art as a cultural category. First published in 1970, Gene Youngblood’s influential Expanded Cinema was the first serious treatment of video, computers, and holography as cinematic technologies. Long considered the bible for media artists, Youngblood’s insider account of 1960s counterculture and the birth of cybernetics remains a mainstay reference in today’s hypermediated digital world. This fiftieth anniversary edition includes a new Introduction by the author that offers conceptual tools for understanding the sociocultural and sociopolitical realities of our present world. A unique eyewitness account of burgeoning experimental film and the birth of video art in the late 1960s, this far- ranging study traces the evolution of cinematic language to the end of fiction, drama, and realism. Vast in scope, its prescient formulations include “the paleocybernetic age,,” “intermedia,,” the “artist as design scientist,,” the “artist as ecologist,,” “synaesthetics and kinesthetics,,” and “the technosphere: man/machine symbiosis.,” Outstanding works are analyzed in detail. Methods of production are meticulously described, including interviews with artists and technologists of the period, such as Nam June Paik, Jordan Belson, Andy Warhol, Stan Brakhage, Carolee Schneemann, Stan VanDerBeek, Les Levine, and Frank Gillette. An inspiring Introduction by the celebrated polymath and designer R. Buckminster Fuller—a perfectly cut gem of countercultural thinking in itself—places Youngblood’s radical observations in comprehensive perspective. Providing an unparalleled historical documentation, Expanded Cinema clarifies a chapter of countercultural history that is still not fully represented in the arthistorical record half a century later. The book will also inspire the current generation of artists working in ever-newer expansions of the cinematic environment and will prove invaluable to all who are concerned with the technologies that are reshaping the nature of human communication.

Gruesome Harvest Ralph Franklin Keeling 2019-05-22 On May 8, 1945 the shooting ended in Europe. But, shockingly, the war against Germany went on. Roosevelt, Stalin and Churchill had decreed that the German people must suffer-and suffer they did. Driven from their homes, looted of their property, decimated by famine and disease, raped, robbed, and enslaved, millions of Germans-most of them women and children-bore the brunt of what Time magazine called "history's most terrifying peace". Gruesome Harvest was one of the first books in America to sound the alarm against the victor's postwar war against the Germans. Bristling with contemporary documentation, burning with humanitarian and patriotic outrage, this informed, riveting classic dares to tell the shameful story of how American and Allied policy makers undertook the political, economic, and social destruction of the German people even as they presumed to instruct them in "justice" and "democracy." Today, as the propaganda war against the Germans wears on in the media and academic life, Gruesome Harvest, written in 1947 by a courageous American, when the decimation of the German race was still official U.S.-Allied policy, tells a vital story, one that must not be suppressed or forgotten. "If war should come, whichever side may claim ultimate victory, nothing is more certain that victor and vanquished alike would glean a gruesome harvest of human misery and suffering."-Prime Minister Neville Chamberlain, July 31, 1939, to the House of Commons. **The Wisdom of the Poor** One of Assisi Eloi Leclerc 1991-09 Returning from a pilgrimage to the Holy Land, St. Francis discovered his original vision had been replaced by the thriving community of friars he founded. Describing how he faced heartache and despondency, this tale brings comfort and inspiration to all who confront failure or loss.

Digital Scholarly Editing Matthew James Driscoll 2016-08-15 This volume presents the state of the art in digital scholarly editing. Drawing together the work of established and emerging researchers, it gives pause at a crucial moment in the history of technology in order to offer a sustained reflection on the practices involved in producing, editing and reading digital scholarly editions—and the theories that underpin them. The unrelenting progress of computer technology has changed the nature of textual scholarship at the most fundamental level: the way editors and scholars work, the tools they use to do such work and the research questions they attempt to answer have all been affected. Each of the essays in Digital Scholarly Editing approaches these changes with a different methodological consideration in mind. Together, they make a compelling case for re-evaluating the foundation of the discipline—one that tests its assertions against manuscripts and printed works from across literary history, and the globe. The sheer breadth of Digital Scholarly Editing, along with its successful integration of theory and practice, help redefine a rapidly-changing field, as its firm grounding and future-looking ambit ensure the work will be an indispensable starting point for further scholarship. This collection is essential reading for editors, scholars, students and readers who are invested in the future of textual scholarship and the digital humanities.

The Cloud of Unknowing Anonymous 2022-01-04 The Cloud of Unknowing is an anonymous work of Christian mysticism written in Middle English in the latter half of the 14th century. The text is a spiritual guide on contemplative prayer in the late Middle Ages. The underlying message of this work suggests that the way to know God is to abandon consideration of God's particular activities and attributes, and be courageous enough to surrender one’s mind and ego to the realm of “unknowing”, at which point one may begin to glimpse the nature of God.

Certification Exam Review for the Pharmacy Technician Mike Johnston 2015-03-20 For all courses intended to help students prepare for the PTCB pharmacy technician certification exam Certification Exam Review for the Pharmacy Technician has one purpose—to aid students in successfully passing the PTCB national certification exam on the first attempt. Unlike other PTCB study guides, Certification Exam Review for the Pharmacy Technician weights its content to precisely reflect the PTCB’s exam weightings, and carefully avoids distracting material not covered on the exam. The Third Edition contains nine all-new chapters that match the new exam blueprint. The authors present five complete practice exams, each with 90 multiple-choice questions designed to closely replicate the actual three-hour PTCB exam experience. All answers are provided, along with clearly explained rationales for each. To provide even more practice, the book also contains three math and two trade/gerenic classification tests.

Germany's War John Wear 2014 "Establishment historians characterize National Socialist Germany as a uniquely barbaric, vile and criminal regime that was totally responsible for starting World War II and carrying out some of the most heinous war crimes in world history. Germany's War by John Wear refutes this characterization of Germany, bring[ing] history into accord with the facts. Germany's War documents that the Allied leaders of the Soviet Union, Great Britain and the United States were primarily responsible for starting and prolonging World War II--costing millions of lives. Far from being the conqueror of Europe, Adolf Hitler was its savior." -- Back cover.

The Field John B. Keane 1991-01-01 The Field is John B. Keane's fierce and tender study of the love a man can have for land and the ruthless lengths he will go to in order to obtain the object of his desire. It is dominated by Bull McCabe, one of the most famous characters in Irish writing today. An Oscar-nominated adaptation of The Field proved highly successful and popular worldwide, and starred Richard Harris, John Hurt, Brenda Fricker and Tom Berenger.

The Rough Guide Book of Playlists Mark Ellingham 2007 This second edition of the Rough Guide Book of Playlistscontains more than 500 lists of which 50 are new to this edition. The lists are recommendations of ten songs (sometimes a couple more, sometimes a couple less), covering artists (Rufus Wainwright to Thelonus Monk, Al Green to Manu Chao, Glenn Gould to Julie Andrews), genres (Bebop Classics to Reggae Toasters to Punk Originals to Hot Club jazz), songs (10 best Dylan covers; 8 classic versions of Summertime; 10 love songs that don't cloy), quirks and silliness (Songs about Chickens and Insects; Who let the frogs out?; Big Pizza Pie crooners; Take this Job and Shove it!). There's even a literary edge with playlists like '10 songs raved about in Murakami novels'. Each of the Playlists has a nugget about the song (why you want it on your iPod), and a listings of where it's from (remember CDs?).

From Eternity to Here Frank Viola 2011-04-01 Discover the sweeping story of God's eternal plan. Deep within God's Word lies a wondrous story like no other. A drama that unfolded before time began. An epic saga that resonates with the heartbeat of God. A story that reveals nothing less than the meaning of life and God's great mission in the earth. From Here to Eternity presents three remarkable stories spanning from Genesis to Revelation. Each story traces a divine theme that is woven throughout scripture. Seen together, they offer an extraordinary glimpse into God's highest passion and grand mission. What you discover will forever change your view of life, the church, and our magnificent God.

Japanese Candlestick Charting Techniques Steve Nison 2001-11-01 A form of technical analysis, Japanese candlestick charts are a versatile tool that can be fused with any other technical tool, and will help improve any technician's market analysis. They can be used for speculation and hedging, for futures, equities or anywhere technical analysis is applied. Seasoned technicians will discover how joining Japanese candlesticks with other technical tools can create a powerful synergy of techniques; amateurs will find out how effective candlestick charts are as a stand-alone charting method. In easy-to-understand language, this title delivers to the reader the author's years of study, research and practical experience in this increasingly popular and dynamic approach to market analysis. The comprehensive coverage includes everything from the basics, with hundreds of examples showing how candlestick charting techniques can be used in almost any market.

Primetime Blues Donald Bogle 2015-08-18 A landmark study by the leading critic of African American film and television Primetime Blues is the first comprehensive history of African Americans on network television. Donald Bogle examines the stereotypes, which too often continue to march across the screen today, but also shows the ways in which television has been invigorated by extraordinary black performers, whose presence on the screen has been of great significance to the African American community. Bogle's exhaustive study moves from the postwar era of Beulah and Amos 'n' Andy to the politically restless sixties reflected in I Spy and an edgy, ultra-hip program like Mod Squad. He examines the television of the seventies, when a nation still caught up in Vietnam and Watergate retreated into the ethnic humor of Sanford and Son and Good Times and the poltically conservative eighties marked by the unexpected success of The Cosby Show and the emergence of deracialized characters on such dramatic series as L.A. Law. Finally, he turns a critical eye to the television landscape of the nineties, with shows such as The Fresh Prince of Bel Air, I'll Fly Away, ER, and The Steve Harvey Show. Note: The ebook edition does not include photos.

The Psychosocial Implications of Disney Movies Lauren Dundes 2019-07-11 In this volume of 15 articles, contributors from a wide range of disciplines present their analyses of Disney movies and Disney music, which are mainstays of popular culture. The power of the Disney brand has heightened the need for academics to question whether Disney's films and music function as a tool of the Western elite that shapes the views of those less empowered. Given its global reach, how the Walt Disney Company handles the role of race, gender, and sexuality in social structural inequality merits serious reflection according to a number of the articles in the volume. On the other hand, other authors argue that Disney productions can help individuals cope with difficult situations or embrace progressive thinking. The different approaches to the assessment of Disney films as cultural artifacts also vary according to the theoretical perspectives guiding the interpretation of both overt and latent symbolic meaning in the movies. The authors of the 15 articles encourage readers to engage with the material, showcasing a variety of views about the good, the bad, and the best way forward.

Scarface Armitage Trail 2013-04-28 Maurice Coons, writing under the pseudonym Armitage Trail, gathered the elements for 'Scarface' when living in Chicago, where he became acquainted with many local Sicilian gangs. He prowled the murky streets of Chicago's gangland with a friend every night for two years, returning home to put to paper and write a book which somewhat documented his experiences. The resulted novel was 'Scarface', and it was worth the effort. Not just a thinly disguised biography of Al Capone, 'Scarface' is a gangster tale surprisingly rich with character and atmosphere. The source for the 1932 Howard Hawks picture, as well as the Brian de Palma remake.

The Survival of American Silent Feature Films Council on Council on Library and Information Resources and The Library of Congress 2014-04-11 The era of the American silent feature film lasted from 1912 until 1929. During that time, filmmakers established the language of cinema, and the motion pictures they created reached a height of artistic sophistication. These films, with their recognizable stars and high production values, spread American culture around the world. Silent feature films disappeared from sight soon after the coming of sound, and many vanished from existence. This report focuses on those titles that have managed to survive to the present day and represents the first comprehensive survey of the survival of American silent feature films. The American Film Institute Catalog of Feature Films documents 10,919 silent feature films of American origin released through 1930. Treasures from the Film Archives, published by the International Federation of Film Archives (FIAP), is the primary source of information regarding silent film survival in the archival community. The FIAP information has been enhanced by information from corporations, libraries, and private collectors. We have good documentation on what American silent feature films were produced and released. This study quantifies the "what," "where," and "why" of their survival. The survey was designed to answer five questions:
