Porsche - Origin of the Species Karl E. Ludvigsen 2012 Within Jerry Seinfeld's renowned Porsche collection resides an unassuming yet extraordinary piece of Porsche history: Porsche Gmünd coupe 356/2-040. Captured exclusively for this book in a series of evocative portraits by acclaimed automotive photographer Michael Furman, 040s unsullied originality conveys with startling immediacy the combination of artistry, innovation and determination that went into its improbable creation. Porsche-Origin of the Species will appeal to all car enthusiasts who are eager to know what events really ignited the spark from which all other Porsches evolved

Montessori Madness Trevor Eissler 2009 "We know we need to improve our traditional school system, both public and private. But how? More homework? Better-qualified teachers? Longer school days or school years? More testing? More funding? No, no, no, no, and no. Montessori Madness! explains why the incremental steps politicians and administrators continue to propose are incremental steps politicians and administrators continue to propose are incremental steps in the wrong direction. The entire system must be turned on its head. This book ask parents to take a look--one thirty-minute observation--at a Montessori school. Your picture

of what educations should look like will never be the same"--Back cover. **A Handful of Hard Men** Hannes Wessels 2015-10-19 During the West's great transition into the post-Colonial age, the country of Rhodesia refused to succumb quietly, and throughout the 1970s fought back almost alone against Communist-supported elements that it did not believe would deliver proper governance. During this long war many heroes emerged, but none more skillful and courageous than Captain Darrell Watt of the Rhodesian SAS, who placed himself at the tip of the spear in the deadly battle to resist the forces of Robert Mugabe and Joshua Nkomo. It is difficult to find another soldier's story to equal Watt's in terms of time spent on the field of battle and challenges faced. Even by the lofty standards of the SAS and Special Forces, one has to look far to find anyone who can match his record of resilience and valor in the face of such daunting odds and with resources so paltry. In the fight he showed himself to be a military maestro. A bush-lore genius, blessed with uncanny instincts and an unbridled determination to close with the enemy, he had no peers as a combat-tracker (and there was plenty of competition). But the Rhodesian theater was a fluid and volatile one in which he performed in almost every imaginable fighting role; as an airborne shock-trooper leading camp attacks, long range reconnaissance operator, covert urban operator, sniper, saboteur, seek-and-strike expert, and in the final stages as a key figure in mobilizing an allied army in neighboring Mozambique. After 12 years in the cauldron of war his cause slipped from beneath him, however, and Rhodesia gave way to Zimbabwe. When the guns went quiet Watt had won all his battles but lost the war. In this fascinating biography we learn that in his

twilight years he is now concerned with saving wildlife on a continent where they are in continued danger, devoting himself to both the fauna and African people he has cared so deeply about.

Cry Zimbabwe Peter Stiff 2004 The mostly untold story of Koevoet - the South African Police's highly successful counter-insurgency unit. Initially based on the Selous Scouts of Rhodesia, it was formed in 1979 and deployed in Namibia until independence in 1989 when it was disbanded as a sop to the UN. During its almost ten year existence it fought in 1,615 contacts and killed or captured 3,225 of SWAPO's PLAN soldiers - the equivalent of almost six battalions of troops. But it paid a high price in blood and lost almost

160 policemen killed in action with another 949 wounded - more grievous casualties than any other South African fighting unit since World War II.--Publisher's website.
