Web1) Moral Law: Euthanasia raises the problem of relation between law and morality. Kant emphasizes on human freedom which indirectly defends voluntary euthanasia, but he does not support euthanasia. For him it is universal duty to preserve life. A duty to kill one would therefore undermine the stability of society on which the duty of life depends.

WebINTRODUCTION Euthanasia is defined as a process which is aimed to cause painless death in a person to end his/her life (Bukhardt and Nathaniel, 2002). It is classified in two ways: active or passive and voluntary or involuntary. Active euthanasia can be referred as an act of commission; for example, something is done to end the patient's life.
