**The Superintendent's Fieldbook** Nelda Cambron-McCabe 2005 "The goals and challenges for district leaders are constantly changing. Leadership and governance are only parts of the puzzle when other elements such as the NCLB legislation, budgets, standards and assessment, changing demographics, and public engagement are brought into the picture. Today's superintendent needs an effective tool to help steer the school district to success. Drawing on the experiences of nearly 200 superintendents over the past ten years, The Superintendent's Fieldbook offers guidance that can be referenced again and again. Written for current and future superintendents, principals, school board members and teachers, this valuable guide is divided into nine sections--each offering ideas to implement, practical lessons, exercises, and questions for reflective practice. The authors identify seven key "commonplaces" of the successful modern superintendent including: Leading within a governance structure; Understanding and addressing standards and assessment; Considering race, class, and the achievement gap; Developing your schools' principals from building managers to leaders of learning; Exploring collaborations with agencies of government and organizational allies; Engaging your community to construct a shared vision of the future. Vignettes describing real events and situations will help you connect lessons learned to your own district experiences, and help you and your district thrive in the rapidly changing world of education." -- Publisher.

*Topi Shukla* Râhî Mâsûma Razâ 2005 "Set in Aligarh in the early 1960s, after the dust of Partition has ostensibly settled, Topi Shukla is a story of two friends - one Hindu and the other Muslim." "Through the characters of people like Topi and Iffan, the novel looks at the lives of ordinary people trying to survive in a society that insists on a brutal conformity of behaviour. It is about individuals whose spirits are paralysed because they cannot conform, and about history's inability to teach mankind any worthwhile lessons." "Language plays an important part in this narrative, operating almost as a character in its own right. Topi, as a Hindi bull in the Urdu china shop, invokes the historical stand-off between the two languages. The novel also explores the culture and psyche of Uttar Pradesh with its very Muslim Aligarh, its very Hindu Benares, and their exotic confluence in Lucknow."--BOOK JACKET.
