Why Do I Keep Doing This!!!? Judith Pearson 2012-01-31 What prevents people from doing what they sincerely want to do? You can come up with all sorts of explanations ranging from childhood trauma to genetics, to personality types, but what it really boils down to is the fact that most people simply aren't skilled in managing their minds. When we try to break a habit our brain sends out signals of alarm and discomfort. To get past this, we must put our "logical brain" in charge. Using self-hypnosis and Neuro-Linguistic Programming (NLP) is one of the easiest ways to achieve this. Hypnosis relaxes and quiets the mind's chatter and can provide strategies to manage the mind and to access the qualities and strengths that we already possess. NLP is the one psychological approach that spells out those strategies step-by-step. This book explains how the concepts and mechanisms of hypnosis and the principles of NLP make for effective approaches to self-hypnosis.

Hypnosis for Smoking Cessation David Botsford 2007 Combining Ericksonian hypnotherapy and NLP with techniques taken from cognitive therapy, yoga, and stress management, Botsford explains how to deal with every possible situation in smoking cessation. This work shows professionals how to influence the client and teach self-hypnosis and other techniques which will help maintain the client as a non-smoker.

The Weight, Hypnotherapy and You Weight Reduction Program Judith E. Pearson 2006 Giving mental health practitioners a complete, fully-scripted, weight reduction program that addresses the problem of obesity in adults, this manual contains complete step-by-step instructions for managing and conducting a program to add a valuable and profitable service to an existing private practice. Includes a CD which contains a reproducible client workbook.

Hypnotically Enhanced Treatment for Addictions Joseph Tramontana 2009-09-01 This book offers new strategies, techniques, and scripts as well as reviewing traditional methods of treating addictions. The five key addictions addressed are: alcohol abuse and dependency; drug abuse and addiction; gambling compulsions/obsessions and addiction; tobacco addiction (including cigars, pipes and chew); food addiction/compulsions. Many of the techniques and strategies incorporate a variety of therapeutic modalities, including: cognitive behavioral techniques, reframing and other NLP techniques, systematic desensitization, covert sensitization, 12-step-programs, guided imagery and meditation, and more. The techniques described can be employed both in and out of trance.

Healing and Wholeness Randi Fredricks 2008 *Healing and Wholeness: Complementary and Alternative Therapies for Mental Health* provides a comprehensive overview of complementary and alternative treatments for mental health, with information and research on their effectiveness for treating specific disorders. Twenty-two chapters document research and the current practice of using complementary and

alternative therapies in treating a number of disorders, including depression, anxiety, ADHD, autism, and addictions. The therapies covered are both state-of-the-art and ancient, including naturopathy, psychotherapy, hypnotherapy, nutritional therapy, herbal medicine, meditation, and others. Each chapter begins with a description of the classification of the disorder, followed by discussions of scientific documentation on diet, nutritional therapy, herbal medicine, complementary and alternative therapies, psychotherapy, and lifestyle changes. This compendium of integrative and holistic therapies provides the reader with access to a multitude of options for improving their mental health. This is a thorough guide to alternative therapies in the mental health field, organizing a large amount of information in a relevant, easy-to-use format. *Healing and Wholeness: Complementary and Alternative Therapies for Mental Health* can be used as a standard reference for the mental health care professional, the graduate student, or anyone looking to improve their emotional health. HYPNOSIS, DISSOCIATION, AND ABSORPTION Marty Sapp 2015-02-01 This updated edition of Hypnosis, Dissociation, and Absorption: Theories, Assessment, and Treatment presents the psychological theories and applications of how to use hypnosis with clients who display dissociation, absorption, fantasy proneness, and imaginative capabilities. This second edition adds information on the history of Division 30 (The Society of Psychological Hypnosis of the American Psychological Association). In addition, this new edition presents sociophenomenological, regression, relaxation, and other contemporary theories of hypnosis. This text discusses the clinical implications of applying hypnosis to several overlapping psychological disorders, such as dissociative identity disorder, borderline personality disorder, somatoform disorder, acute stress disorder, and posttraumatic stress disorder. Applications of eye-movement techniques and hypnosis for children are included within this new edition. A new section on multicultural applications of hypnosis is presented with applications of hypnosis for African American and Latino patients. In addition, the uses of hypnosis for pain control, anxiety and stress, ego strengthening, unipolar depression, smoking cessation, weight loss, and rehabilitation are described. This text provides treatment transcripts including, but not limited to, the following theoretical approaches: cognitive-behavioral, psychodynamic, Adlerian, and Ericksonian. This unique and comprehensive book will be of interest to students and professionals in the counseling and psychology fields.

Cognitive Hypnotherapy E. Thomas Dowd 2000 This book integrates cognitive therapy with hypnotherapy and provides principles and illustrations of hypnotic routines that can be used in changing cognitive self-statements, cognitive processing distortions, and tacit cognitive structures. It extends the imagery work previously used in cognitive therapy into a complete and comprehensive hypnotherapeutic approach to help people change negative and self-defeating cognitions into more positive and adaptive ones. Dr. Dowd demonstrates the use of cognitive hypnotherapy in treating various disorders, in reconstructing memories, and in helping normally healthy individuals overcome blocks to more effective performance.

Conversational Regression Jess Marion 2016-08-11 What would it be like if you could travel back in time to change the past in a way that makes life happier and more fulfilling today? What if your clients could easily let go of the past in ways that leave them deeply transformed and empowered today? Reimprinting allows you to leverage how memory functions on a neurological level to create deep unconscious change. In this book you will discover a unique approach to reimprinting that is highly conversational and fast. Gone are the days of needing to find an "initial sensitizing event" or worrying over the dangers of regression work. The approach presented in this book allows you to positively influence your clients' memories through conversational hypnosis. To the untrained eye it will look like an engaging conversation while under the surface your clients will break free from disempowering memories. In this book you will discover an in depth explanation and demonstration of this pattern, the 3 times when regression work is indicated, the neuroscience behind reimprinting, and a number of variations on the pattern. Variations include: deep trance reimprinting, Ericksonian regression work, reimprinting through Deep Trance Identification, reimprinting for smoking cessation, and reimprinting through implicit memories.

Finding True Magic: Transpersonal Hypnosis & Hypnotherapy/NLP

ADVANCED TREATMENT FOR HUNTINGTON'S DISEASE: APOMETRY, NLP, REGRESSION AND HYPNOSIS Thor Otto Alexsander In the pursuit of alleviating the burden of Huntington's Disease, this book sets out on a remarkable journey through the realms of alternative therapies, cutting-edge technologies, and the uncharted territories of consciousness and healing. "Advanced Treatment for Huntington's Disease: Apometry, NLP, Regression, and Hypnosis" is a culmination of years of exploration, research, and a deep-rooted commitment to enhancing the lives of those affected by this relentless condition. The pages that follow are a testament to the power of human ingenuity and the unwavering hope for a brighter future. Drawing upon a spectrum of disciplines, from apometry to NLP, regression, and even hypnosis, this book is an endeavor to assemble a comprehensive guide for those seeking innovative avenues of treatment and understanding. Exploring Apometry and Beyond We embark upon an exploration of apometry, a technique that goes beyond conventional boundaries. From understanding its fundamental principles to crafting apometric journeys, each chapter delves deeper into the possibilities this practice can offer. As we unravel its potential, we also contemplate its intersections with spirituality, genetics, and the intricacies of the mind-body connection. Navigating the Labyrinth of Therapies This book is not merely about apometry—it's about the amalgamation of therapies. NLP and regression techniques come to the forefront as invaluable tools in the quest for healing. From empowering individuals with effective strategies to revisiting the past for insights into the present, these techniques present a tapestry of choices that can aid in the management of Huntington's Disease and its associated challenges.

Beyond the Conventional: Parapsychology and More We embrace the unconventional. With chapters dedicated to parapsychology, paranormality, and the unexplored dimensions of therapy, we invite readers to venture beyond the known. The interaction between genetics and consciousness, the impact of spirituality on healing, and the prospect of engaging with extraterrestrial beings all find their place within these pages. A Vision for the Future As we traverse these territories of knowledge and possibility, it becomes evident that the future is brimming with potential. Apometry is not just a technique; it's a vision for the future of healing. With intersections with fields like genetics, anthropology, and even the management of holistic spaces, the horizons of possibility expand exponentially. This book is a tribute to the human spirit's resilience and innovation. It's an invitation to embrace the unfamiliar and to channel our collective energies towards a world where Huntington's Disease is not a sentence but a challenge we can collectively rise to meet. As you turn these pages, may you find inspiration, insight, and a renewed sense of hope. For the journey ahead is one of discovery, transformation, and the boundless potential of the human mind and heart.

Are you ready to break free of tobacco without drugs, patches or the agony of withdrawal? HOW TO STOP DYING FOR A CIGARETTE uses the how, when and where of your smoking habit to attack the root cause of your addiction. As you dissociate smoking from the activities to which you've attached it, you begin to resent its intrusion into your life. The more you lessen your intake of nicotine and reduce your physiological cravings, the more smoking becomes downright annoying. Before long, you won't want to be bothered to light up anymore, and you're free. Sounds too good to be true? Well, it's not! This workbook/diary, a pen or pencil and the sincere desire to get out of the clutches of tobacco companies are all you need to get started. The author created this program and used it successfully to end her 25-year smoking addiction without medication, hypnosis or workshops. The only side-effects were loss of stale tobacco odor, cessation of constant coughing, heightened senses of taste and smell, increased energy level, and a much higher likelihood of living into old age! Following simple exercises and recording your experiences and feelings in the included diary that only you will read will guide you toward freedom from tobacco. It can be done! The sincere desire and determination to succeed are all you need to get started with the HOW TO STOP DYING FOR A CIGARETTE program. Pick up this book, and you'll have made a great start toward putting down cigarettes for good.

Quit Jess Marion 2013-07-04 This book is a must have guide for every Hypnotist wanting to help smokers quit. Smoking cessation is a cornerstone of the hypnosis industry. Many hypnotists go into practice with the hopes of helping people kick

the habit. Running successful stop smoking programs helps save lives and build successful businesses. Unfortunately, few Hypnotists are trained in the art and science of working with smokers. They blindly feel their way through this challenging landscape. Some even become so discouraged that they give up working with smokers. Quit takes out the guess work, presenting an easy to follow and highly effective protocol for helping smokers quit based on the authors' experiences working with hundreds of now non-smokers. Quit leads the reader through everything from the initial phone conversation to the testing process - providing the client the opportunity to prove to themselves' that they have changed. Quit also presents 3 completely new patterns, taught nowhere else in the world, which have extremely high rates of success with smokers. If you were to run your session with just these 3 patterns your success rates would skyrocket. Quit is a must read for any change worker working with smokers and is an essential part of every hypnotist's library. Quit gives you the familiarity and confidence to work with smokers and help save lives.

Understanding Advanced Hypnotic Language Patterns John Burton 2007-02-24 This book dissects and describes the conceptual ingredients that construct hypnotic language. Clinical case examples and dozens of hypnotic language scripts are provided to illustrate the identified principles.

The Holistic Guide to Hypnotherapy Steve Webster 2017-03-29 The Holistic Guide to Hypnotherapy Here is the worlds most comprehensive and detailed revelation of the ancient art of hypnotherapy in two volumes. Whether you are currently learning it, practicing it, a hypnotherapy professional, or just plain interested in the amazing art of hypnotherapy, this book will be your most valuable resource. Hypnotherapy is not the only discipline covered in this huge store of knowledge: among many other things, you will learn about health from a holistic point of view, benefits of nutrition, meditation, about relationships, sexuality and more. Steve Webster brilliantly explains: ? Simple, complex and metaphysical hypnotherapy. ? The differences between hypnosis and hypnotherapy. ? Approaches and amazing new techniques to use on different personality types. ? How to use 18 Laws of Suggestibility to rid clients of illness, disease and behavioral disorder, and how to reprogram your mind. ? Mechanics of hypnosis, the scientific intricacies, and 27 diagnostic tools to help you.... ? How to treat the top 35 afflictions like weight loss, anxiety, pain, sleep disorders, and social phobias. ? Guided imagery, neuroplasticity, epigenetics, neuro-linguistic programming, ideomotor responses and the power of dream venting. ? Your clients coping, blocking, release, and defense mechanisms. ? Body syndromes, how emotions affect us, and the subconscious mind. ? How one health disorder, HHS, might be responsible for 85% of afflictions. ? The real Law of Attraction, and how to make it work for you. Steve has coined a new description for hypnotherapists Consciousness Engineers because thats what they are! The clients consciousness creates their reality, and the hypnotherapist adjusts that consciousness. The subconscious mind vibrates at a level where it does not know illness, disease and behavioral disorder; but the conscious mind vibrates at a lower level and attracts these negative energies. After reading the Consciousness Engineering section (Volume 2), you will understand: ? Your 3 minds, their vibrational levels, and how to increase your power of creation. ? How to manifest anything, and how to become an ascended master. ? Learn what the subconscious mind is, and how to guide your client to engage with it, and harness its amazing powers. The two volumes explain how you create your whole world, and how to create a world that brings you (and your clients!) joy and peace. It explains levels of

consciousness, how to increase yours, and how you are immortal in your quantum world. With over 100 inductions, deepeners and convincers, with over 100 original diagrams and images, and with over 100 informative tables and quotes. This book really is your hypnotherapy Bible!

ADVANCED TREATMENT FOR HEMOPHILIA: APOMETRY, NLP, REGRESSION AND HYPNOSIS Thor Otto Alexsander Welcome to "Advanced Treatment for Hemophilia: Apometry, NLP, Regression, and Hypnosis." This book is a culmination of extensive research, exploration, and a deep commitment to discovering innovative paths towards healing and well-being. Hemophilia, a condition with its unique challenges, has driven us to explore beyond conventional methods, seeking holistic solutions that bridge science and alternative therapies. The journey presented within these pages unveils a tapestry of concepts ranging from apometry, neuro-linguistic programming (NLP), regression, and hypnosis, each woven into the intricate fabric of healing. We delve into the possibilities these techniques offer, not as stand-alone remedies, but as a complementary approach to existing medical practices. Apometry, a relatively unexplored terrain, opens doors to understanding the interplay between consciousness, healing, and the ethereal dimensions of our existence. NLP, regression, and hypnosis, well-known tools of psychology, emerge as potential allies in our quest to alleviate the challenges of hemophilia and its associated burdens. As we embark on this journey, we encounter intersections with fields such as genetics, psychology, anthropology, and paranormality. The boundaries of conventional medical wisdom expand to accommodate the rich tapestry of human experience, where science and spirituality intertwine. It's important to note that while we explore unconventional avenues, we remain respectful of established medical practices. This book does not seek to replace professional medical advice but rather to offer a perspective that might enrich the journey towards wellness. "Advanced Treatment for Hemophilia" is more than a mere compilation of topics; it's an invitation to embark on a transformative exploration. We encourage you to approach these pages with an open mind, a thirst for knowledge, and a heart receptive to the possibilities that lie within the intersections of science and spirituality. Thank you for joining us on this quest for holistic healing and a deeper understanding of the human experience.

Hypnosis Without Trance James Tripp 2021-04-21 "This material has taught me more about hypnosis than my previous 20 years in psychology and 4 years as a practicing Hypnotherapist [and] should be a standard requirement for ANY Hypnotist wanting to bring about real change. If you don't learn this stuff you will be left behind!" - Michael Skirving, DNLP, DHyp, LAPHP Hypnosis: is it actually real? What causes its strange effects? And can everyone easily learn to do it? Since the seminal work of hypnosis pioneer James Braid in the 1840s, the dominant model for understanding hypnosis has been that it is simply a special state (popularly referred to as 'hypnotic trance') that renders people unusually responsive to suggestion. By this model, the practice of hypnosis is simply that of the induction of hypnotic trance, followed by the delivery of suggestions for the desired results. By summer 2008, James Tripp had been working professionally with hypnosis for 6 years. Whilst he had used what he had learned to great effect with his clients (from manual therapy to coaching and changework), it had become increasingly clear that something was amiss with the traditional trance model - instead of his clients

responding to suggestion as a result of entering 'trance', they were apparently entering 'trance' as a result of being given suggestions. The cart seemed very much before the horse. This led Tripp to embark on a mission to break down and rebuild hypnosis and suggestion work; to uncover how it really worked and also to see if it could be done more effectively and efficiently. To find a suitable laboratory for his research he stepped out of his hypnotherapy office and onto the streets of London. Across the next year he developed consistent methods for the effective evocation of classic hypnotic phenomena without using trance inductions; simply structuring suggestions and making requests that worked with people's everyday cognitive faculties to create mind-bending results. In 2009 Tripp started demonstrating his work and sharing his ideas via the Hypnosis Without Trance blog. The content was divisive to say the least - while some traditionalists were upset or angered by the assertions, many others were liberated and empowered by the material. "Hypnosis Without Trance has blown my mind and completely changed my thoughts on how hypnosis works with my clients - it's clicked together a lot of gaps that my traditional learning couldn't explain..." - Michelle Marsh, (Hypnotherapist) "I think this is the most clear and understanding approach I have ever seen or read. Thanks a lot!" - Raul de la Horra (Hypnotist, Psychotherapist and Magician) This book represents the culmination of that period of experimentation and rebuilding, presenting a new central model for hypnosis (The Hypnotic Loop). Further to this it extensively unpacks the tools, tactics and psychological subtleties required for the effective facilitation of powerful hypnotic experiences. Hypnosis Without Trance is for you if you are looking to understand how hypnosis really works, and how you might better facilitate it. Whether you are a student of hypnosis, established practitioner or curious spectator, its clear exposition will significantly deepen your understanding and grasp of this fascinating craft. "Definitely the next important big step for me - a practicing hypnotherapist for over 20 years. Absolutely brilliant! Thank you!!" - Richard Whitehurst (Hypnotherapist) "I gained more understanding of how hypnosis really works from HWT than anywhere else, and think it's a must for anyone serious about hypnosis." - Lazarus Stone (Professional Mentalist) "Using this approach I have gained more confidence and I am far more relaxed as a hypnotist than any time in the past 20 years." - Gary Plumridge (Hypnotherapist)

ADVANCED TREATMENT FOR WILLIAMS SYNDROME: APOMETRY, NLP, REGRESSION AND HYPNOSIS

Thor Otto Alexander In the journey of understanding and healing the intricate world of medical conditions, there often arises a need for innovative and holistic approaches that go beyond conventional methods. This book, "Advanced Treatment for Williams Syndrome: Apometry, NLP, Regression, and Hypnosis," emerges from a deep passion for exploring novel dimensions of healing and pushing the boundaries of what's possible. My fascination with Williams Syndrome, a genetic disorder characterized by unique cognitive and behavioral traits, led me on a quest to uncover transformative solutions that could provide relief and progress where traditional avenues fell short. The culmination of years of research, experimentation, and collaboration with experts in various fields is encapsulated within these pages. The journey begins with an exploration of Apometry, a technique that delves into the realms of consciousness and energy to bring about profound healing. Within these chapters, you'll discover not only the what and how of Apometry but also the profound impact it can have on Williams Syndrome and beyond. NLP (Neuro-Linguistic Programming), regression, and hypnosis are also essential tools in this toolkit, each offering unique avenues for understanding and addressing the complexities of this syndrome. As you delve into the intricacies of each technique, you'll find practical guidance on how to implement these approaches effectively. From creating Apometry sessions to specialized commands for specific conditions, this book aims to be a comprehensive guide for both practitioners and those seeking to understand and aid their loved ones. But this book goes beyond technique; it delves into the intersections of science and spirituality, genetics and consciousness, psychology and the paranormal. It bridges the gap between what we know and what we can imagine, presenting a vision of holistic healing that incorporates various aspects of our multidimensional

existence. My hope is that this book not only serves as a guide but also sparks new ideas and collaborations in the fields of healthcare, psychology, genetics, and beyond. The world of Williams Syndrome and other conditions alike can greatly benefit from a holistic approach that considers both the physical and metaphysical dimensions of healing. I invite you to join me on this journey of exploration and transformation. As we traverse through Apometry, NLP, regression, and hypnosis, may we uncover new horizons of understanding and bring forth a new era of healing possibilities.
