Andr   Marie Ivanoff 1994-01-01 First published in 1994. Routledge is an imprint of Taylor & Francis, an informa company.

**Social Work Practice with Men at Risk** Rich Furman 2010-04-22 Treating men as a culturally distinct group, Rich Furman integrates key conceptions of masculinity into culturally sensitive social work practice with men. Focusing on veterans, displaced workers, substance abusers, mental health consumers, and other groups that might be unlikely to seek help, Furman deftly explores the psychosocial development of men, along with the globalization of men's lives, alternative conceptions of masculinity, and special dynamics within male relationships. Furman bolsters his conclusions with case studies and evidence-

based interventions. His cutting-edge research merges four key social work theories and explores how they inform practice with mental health issues, compulsive disorders, addiction, and violence. By promoting gender equity and culturally competent practice with men, Furman bridges the gap between clinical and macro practice. *Social Work Practice with Men at Risk* is a crucial text for educators and practitioners hoping to pursue effective, far-reaching interventions.

**Interviewing in the Social Services** Elizabeth De Schweinitz 1962

*Federal Probation* 1937

*Re-Thinking Social Research* Beth Humphries 2017-07-05 Social research plays an important part in the social sciences and in the planning and implementation of personal social services. Whilst considerable attention has been paid to the methods used to undertake social research, little has been done to explore the processes under which it is carried out. This volume explores the process of social research from an anti-discriminatory perspective. Contributors address themes connected to every aspect of social research from its design, through fieldwork to implementation of findings. Papers adopt critical perspectives to explore issues to do with many aspects of power and 'difference' in research including the power of black feminist research, issues in collaborative research, anti-discriminatory methodologies, quality of life in people with learning difficulties and participatory research. The book addresses many key issues which have been at the centre of current social debate and offers a unique contribution to the literature on research

methodology. As such, it is likely to have a wide readership with both academic audiences and practice based welfare professions.

American English File 3e Level 4 Student Book Christina Latham-Koenig 2020-07-28 American English File Second Edition retains the popular methodology developed by world-renowned authors Christina Latham-Koenig and Clive Oxenden: language + motivation = opportunity. With grammar, vocabulary, and pronunciation practice in every lesson, students are equipped with a solid foundation for successful speaking. Plus - an array of digital resources provides even more choice and flexibility. Students can learn in the classroom or on the move with Online Practice. language assessment. The first goal is to explore the difference between fairness and justice in language assessment. The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment, immigrant status, citizenship, and other rights. The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. "This book will have an enormous impact on the field of language assessment. Using Rasch analysis models to explore and identify sources of unfairness, the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results. A real strength of the book is that it guides readers through analytical techniques in an accessible way." Dan Douglas, Professor Emeritus, Applied Linguistics Program, Iowa State University.

**Cultural, Autobiographical and Absent Memories of Orphanhood** Delyth Edwards 2017-10-24 This book offers an empirically informed understanding of how cultural, autobiographical and absent memories of orphanhood interact and interconnect or come into being in the re-telling of a life story and construction of an identity. The volume investigates how care experienced identities are embedded within personal, social and cultural practices of remembering. The book stems from research carried out into the life (hi)stories of twelve undervalued 'historical witnesses' (Roberts, 2002) of orphanhood: women who grew up in Nazareth House children's home in Belfast, Northern Ireland, during the 1940s, 50s and 60s. Several themes are covered, including histories of care in Northern Ireland, narratives and memories, sociologies of home, and self and identity. The result is an impressive text that works to introduce readers to the complexity of memory for care experienced people and what this means for their life story and identity.

**Mobile Era** Laura A. Hebert 2022-06-15 Gender and Human Rights in a Global, Mobile Era delves into feminist debates surrounding the relationship between gender and human rights through engaging feminist perspectives on the multifaceted issue of human trafficking. Building on analyses of domestic servitude, commercial sex, and labor trafficking by military contractors, and grounded in intersectional feminist cosmopolitanism and feminist theorizing on vulnerability, precarity, and ethical interdependence, Laura Hebert makes several interrelated contributions. As she explores how a feminist gender analysis illuminates the structures and norms enabling trafficking, Hebert simultaneously considers the future of feminist rights advocacy. Emphasizing the sociality of human rights, she encourages feminist scholars and activists to look beyond states as the duty-bearers of human rights and the assumption that human rights are made meaningful mainly through the establishment of legal rights at the national level. She challenges the idea that "feminism" can be reduced to advocacy on behalf of women's rights. She also encourages critical reflection on how divisions associated with feminist politics have impeded opportunities for the building of feminist solidarities across differences aimed at the realization of the human rights of all. Strongly interdisciplinary, Gender and Human Rights in a Global, Mobile Era will be of interest to students and scholars throughout the social sciences and humanities.
