Women Editing Modernism Jayne Marek 2021-10-21 For many years young writers experimenting with forms and aesthetics in the early decades of this century, small journals known collectively as "little" magazines were the key to recognition. Joyce, Stein, Eliot, Pound, Hemingway, and scores of other iconoclastic writers now considered central to modernism received little encouragement from the established publishers. It was the avant-garde magazines, many of them headed by women, that fostered new talent and found a readership for it. Jayne Marek examines the work of seven women editors—Harriet Monroe, Alice Corbin Henderson, Margaret Anderson, Jane Heap, H.D., Bryher (Winifred Ellerman), and Marianne Moore—whose varied activities, often behind the scenes and in collaboration with other women, contributed substantially to the development of modernist literature. Through such publications as Poetry, The Little Review, The Dial, and Close Up, these women had a profound influence that has been largely overlooked by literary historians. Marek devotes a chapter as well to the interactions of these editors with Ezra Pound, who depended upon but also derided their literary tastes and accomplishments. Pound's opinions have had lasting influence in shaping critical responses to women editors of the early twentieth century. In the current reevaluation of modernism, this important book, long overdue, offers an indispensable introduction to the formative influence of women editors, both individually and in their collaborative efforts.

Women's Literary Creativity and the Female Body D. Hoeveler 2007-11-12 This volume addresses one aspect of a challenging topic: what does it mean for women to create within particular literary and cultural contexts? How is the female body written on textuality? In short, how is the female body analogous to the geographical space of land? How have women inhabited their bodies as people have lived in nation-states?

The Measure of Madness Philip Gerrans 2014-07-03 Drawing on the latest work in cognitive neuroscience, a philosopher proposes that delusions are narrative models that accommodate anomalous experiences. In *The Measure of Madness*, Philip Gerrans offers a novel explanation of delusion. Over the last two decades, philosophers and cognitive scientists have investigated explanations of delusion that interweave philosophical questions about the nature of belief and rationality with findings from cognitive science and neurobiology. Gerrans argues that once we fully describe the computational and neural mechanisms that produce delusion and the way in which conscious experience and thought depend on them, the concept of delusional belief retains only a

heuristic role in the explanation of delusion. Gerrans proposes that delusions are narrative models that accommodate anomalous experiences. He argues that delusions represent the operation of the Default Mode Network (DMN)—the cognitive system that provides the raw material for humans' inbuilt tendency to provide a subjectively compelling narrative context for anomalous or highly salient experiences—without the “supervision” of higher cognitive processes present in the nondelusional mind. This explanation illuminates the relationship among delusions, dreams, imaginative states, and irrational beliefs that have perplexed philosophers and psychologists for over a century. Going beyond the purely conceptual and the phenomenological, Gerrans brings together findings from different disciplines to trace the flow of information through the cognitive system, and applies these to case studies of typical schizophrenic delusions: misidentification, alien control, and thought insertion. Drawing on the interventionist model of causal explanation in philosophy of science and the predictive coding approach to the mind influential in computational neuroscience, Gerrans provides a model for integrative theorizing about the mind.

Movies and Mental Illness Danny Wedding 2014-09-20 This popular and critically acclaimed text, using movies to help learn about mental illness, is being fully updated with DSM-5 and ICD-10 diagnoses, dozens of evocative and informative frame grabs, a full film index, "Authors' Picks," sample syllabus, more international films and shorts.... Films can be a powerful aid to learning about mental illness and psychopathology – for students of psychology, psychiatry, social work, medicine, nursing, counseling, literature or media studies, and for anyone interested in mental health. *Movies and Mental Illness*, written by experienced clinicians and teachers who are themselves movie aficionados, has established a great reputation as a uniquely enjoyable and highly memorable text for learning about psychopathology. The new edition has been fully updated to include DSM-5 and ICD-10 diagnoses. The core clinical chapters each use a fabricated case history and Mini-Mental State Examination along with synopses and discussions about specific movies to explain, teach, and encourage discussion about all the most important mental health disorders. Each chapter also includes: Critical Thinking Questions; "Authors' Picks" (Top 10 Films); What To Read if You Only Have Time to Read One Book or Article; and Topics for Group Discussions. Other features of the new, expanded edition include: • Full index of films • Sample course syllabus • Ratings of around 1,500 films • Fascinating appendices, such as "Top 50 Heroes and Villains," psychotherapists in movies, misconceptions about mental illness in movies, and recommended websites. Do you want to propose a film for the 4th edition of *Movies and Mental Illness*? Have a look at the authors' blogspot! They welcome all comments on the films they already plan to discuss, or suggestions for films to include in the

new edition!

The Gale Encyclopedia of Psychology Bonnie B. Strickland 2001 Covers the entire spectrum of psychology, including: notable people, theories and terms; landmark case studies and experiments; applications of psychology in advertising, medicine and sports; and career information.

German Pioneers on the American Frontier Andreas Reichstein 2001 Wilhelm Wagner (1803-1877), son of Peter Wagner, was born in Dürkheim, Germany. He married Friedericke Odenwald (1812-1893). They had nine children. They emigrated and settled in Illinois. His brother, Julius Wagner (1816-1903) married Emilie M. Schneider (1820-1896). They had seven children. They emigrated and settled in Texas.

Applications of Flow in Human Development and Education Mihaly Csikszentmihalyi 2014-08-08 The third volume of the collected works of Mihaly Csikszentmihalyi covers his work on the application of flow in areas that go beyond the field of leisure where the concept was first applied. Based on his personal experience with schooling and learning, as well as that of many others and contrary to what Cicero claimed, Csikszentmihalyi arrived at the conclusion that instead of taking pride in making the roots of knowledge as bitter as possible, we should try to make them sweeter. Just as flow became a popular and useful concept in voluntary activities, it could likewise be applied in education with the end result of young people being more likely to continue learning not just because they have to but because they want to. This volume brings together a number of articles in which Csikszentmihalyi develops ideas about how to make education and more generally the process of learning to live a good life, more enjoyable. Since theory is the mother of good practice, the first eleven chapters are devoted to theoretical reflections. Some are general and explore what it means to be a human being, what it means to be a person, when we look at life from the perspective of flow. Others are more narrowly focused on such topics as consumption, education, teaching and learning. They help laypeople reflect how they can arrange their lives in such a way as to leave a small ecological footprint while getting the most enjoyment. The second section of the volume contains a dozen empirical articles on similar topics. They deal with the development of identity and self-worth; with the formation of goals and motivation; with loneliness and family life.

Strength of Mind Jacqueline Healy 2013 Women were admitted to Melbourne Medical School in 1887, some 25 years after the course had commenced but 21 years before women were entitled to vote in Victoria. This publication celebrates the achievements of Melbourne Medical School graduates from 1887 to the present.

The Complete Book of 1940s Broadway Musicals Dan Dietz 2015-02-02 The debut of Oklahoma! in 1943 ushered in the modern era of Broadway musicals and was followed by a number of successes that have become beloved classics. Shows produced on Broadway during this decade include Annie Get Your Gun, Brigadoon, Carousel, Finian’s Rainbow, Pal Joey, On the Town, and South Pacific. Among the major performers of the decade were Alfred Drake, Gene Kelly, Mary Martin, and Ethel Merman, while other talents who contributed to shows include Irving Berlin, Gower Champion, Betty Comden, Adolph Green, Agnes de Mille, Lorenz Hart, Alan Jay Lerner, Frederick Loewe, Cole Porter, Jerome Robbins, Richard Rodgers, and Oscar Hammerstein II. In The Complete Book of 1940s Broadway Musicals, Dan Dietz examines every musical and revue that opened on Broadway during the 1940s. In addition to providing details on every hit and flop, this book includes revivals and one-man and one-woman shows. Each entry contains the following information: Opening and closing dates Plot summary Cast members Number of performances Names of all important personnel, including writers, composers, directors, choreographers, producers, and musical directors Musical numbers and the names of performers who introduced the songs Production data, including information about tryouts Source material Critical commentary Details about London and other foreign productions Besides separate entries for each production, the book offers numerous appendixes, such as a discography, film versions, published scripts, Gilbert and Sullivan operettas, and non-musical productions that utilized songs, dances, or background music. A treasure trove of information, The Complete Book of 1940s Broadway Musicals provides readers with a complete view of each show. This significant resource will be of use to scholars, historians, and casual fans of one of the greatest decades in musical theatre history.

Psychoanalytic Terms and Concepts Elizabeth L. Auchincloss 2012-10-30 This is the first revised, expanded, and updated edition of Psychoanalytic Terms and Concepts since its third edition in 1990. It presents a scholarly exposition of English-language psychoanalytic terms and concepts, including those from all contemporary schools of theory and practice. Each entry starts with a brief definition that is followed by an explanation of the significance of the term/concept for psychoanalysis, its historical development, and the present-day controversies about best usage.

Great Events from History Robert F. Gorman 2007 Contains essays that examine significant events in the history of the early twentieth century from 1901 to 1940, covering world politics, society and culture, literary movements, art and music, immigration, and legislation; arranged chronologically with maps, illustrations, and quotations for primary source documents.

Mediating the Spatiality of Conflicts Armina Pilav 2020 At a three-day conference held at the TU Delft on November 6-8, 2019 researchers, scholars, activists, practitioners and artists presented individual papers that addressed the relationships between spatiality, mediation and conflict from a variety of perspectives.0n addition to academic paper contributions, the conference welcomed other proposals in different formats and media: audio-visual material (film, video, photography), digital or physical archives, experimental design proposals, installations, performances, etc.0The thematic core of the conference explored new ? or innovative ? theoretical and methodological approaches and insights on: (1) Spaces of conflict as transitional spaces of material interactions between violence and everyday life; and (2) Spaces of memory as transformative space of violence).0This conference proceedings shares the outcome of the academic event.

Rhythms of the Brain Gyorgy Buzsaki 2006-08-03 This book provides eloquent support for the idea that spontaneous neuron activity, far from being mere noise, is actually the source of our cognitive abilities. In a sequence of "cycles," György Buzsáki guides the reader from the physics of oscillations through neuronal assembly organization to complex cognitive processing and memory storage. His clear, fluid writing-accessible to any reader with some scientific knowledge-is supplemented by extensive footnotes and references that make it just as gratifying and instructive a read for the specialist. The coherent view of a single author who has been at the forefront of research in this exciting field, this volume is essential reading for anyone interested in our rapidly evolving understanding of the brain.

Law, Memory, Violence Stewart Motha 2016-02-22 The demand for recognition, responsibility, and reparations is regularly invoked in the wake of colonialism, genocide, and mass violence: there can be no victims without recognition, no perpetrators without responsibility, and no justice without reparations. Or so it seems from law’s limited repertoire for assembling the archive after ‘the disaster’. Archival and memorial practices are central to contexts where transitional justice, addressing historical wrongs, or reparations are at stake. The archive serves as a repository or ‘storehouse’ of what needs to be gathered and recognised so that it can be left behind in order to inaugurate the future. The archive manifests law’s authority and its troubled conscience. It is an indispensable part of the liberal legal response to biopolitical violence. This collection challenges established approaches to transitional justice by opening up new dialogues about the problem of assembling law’s archive. The volume presents research drawn from multiple jurisdictions that address the following questions. What resists being archived? What spaces and practices of memory - conscious and unconscious - undo legal and sovereign alibis and confessions? And what narrative forms expose the limits of responsibility, recognition, and reparations? By treating the law as an ‘archive’, this book traces the failure of universalised categories such as ‘perpetrator’, ‘victim’, ‘responsibility’, and ‘innocence,’ posited by the liberal legal state. It thereby uncovers law’s counter-archive as a challenge to established forms of representing and responding to violence.

The Hesitant Mistress Dvanna Hightower 2013-06-09 The submissive man in a vanilla relationship faces a daunting challenge. How can he convince his demure girlfriend to take charge without turning her off? How can he show her that female domination is not a sick stereotype, but a healthy and romantic way to enhance her life? This book is the answer to his prayers. His girlfriend's hesitation is perfectly understandable. Since female dominants are so often depicted as arrogant sadists intent on hurting and humiliating men, it's not surprising that any woman would feel reluctant to adopt this role in her relationship. After all, who would treat her beloved partner as if she hated him? But she has no need to worry. The real female dominant is not a cruel psychopath. Her relationship involves mutual trust, cooperation, and communication. She can be nurturing and reasonable. She can share her feelings and needs. She can be herself, more bravely than ever - and her partner will love her for it. In The Hesitant Mistress, author and dominant Dvanna Hightower gently introduces the novice mistress to a new world of life-enhancing possibilities. The male submissive will try to give his lady everything she desires; all she needs to do is recognize the confidence she already has inside her. Part self-help book, part kinky instruction manual, The Hesitant Mistress is an

indispensable introduction to female-led relationships. Any woman who reads it will never be the same.----- CONTENTS -----I. Introduction:A Warning for the Man in Her Life; Some Reassurances for the Hesitant Mistress; Your Journey; The Female Dominant; The Female-Led Relationship; Is This Abuse?; The Male Submissive; How It Works - A Brief DemonstrationII. Gaining Confidence:Being Yourself; You are Attractive; Stop Apologizing; Say What You Mean; Don't Justify; Give Up Validation; Be Aware of Your Space; Wear Something Sexy; Know You Can Handle It; Become Self-Reliant; Declare A Preference; Lead. Don't Follow; Vocalize Your InstinctsIII. Training Him:You Were Made for This; Set Boundaries; Be Consistent; Set Expectations; Being Bossy; Watch Your Language; Reward and Punish; Answers and Objections; It's Your DecisionIV. Scening:Of Scenes and Bedrooms; Safewords; Stop and Think About It; Take Your Time; Caring Too Much; Fetishes; Games to Start Out With; Putting It All Into Practice; New Beginnings; A View From the Bottom - A Submissive's Addendum----- A Warning for the Man in Her Life -----This book will teach your partner how to be more dominant. That means she will learn how to actually be more dominant, not just how to act like a dominatrix long enough for you to get your jollies off in the bedroom. Your partner will learn how to say no to you. She will learn how to train you. She will learn how to punish you and hold you accountable for your actions. She will learn that she can demand whatever she wants from you, despite whatever you might want from her. So beware, my unsuspecting male friend... if you bought this book for her, you might get more than you asked for. You may want to quietly set it aside and buy her a set of fuzzy handcuffs instead. You have been warned.

National Interest and International Solidarity Jean-Marc Coicaud 2008 Following the end of the cold war, the 1990s witnessed an intense period of geopolitical upheaval. Humanitarian intervention became an important tool for powerful nations and international coalitions trying to alter the course of unstable countries plunged into chaos. The motivations for these interventions and their implementation have generated heated policy debates ever since. This book has its origins in the intellectual and political climate of that time. The contributors analyze the arguments and counterarguments used in the debates over humanitarian intervention, then extrapolate their findings to a broader international context. In short, the book assesses the extent to which national interest and internationalist considerations enter into the rationale for actors to get involved in international crises.

Writing Emotions Ingeborg Jandl 2017 After a long period of neglect, emotions have become an important topic within literary studies. This collection of essays stresses the complex link between aesthetic and non-aesthetic emotional components. Against this background, emotional patterns are discussed by focusing on the practice of writing as well as on the impact of emotional patterns on receptive processes. Readers will be confronted with a concept of aesthetic emotions as formative within both the writing and the reading processes. Essays ranging in subject from the beginning of modern drama to digital formats and theoretical questions discuss examples from English, German, French, Russian and American literature.

Toward a Theory of Peace Randall Caroline Watson Forsberg 2019-12-15 Military analyst, peace activist, teacher, and social theorist Randall Caroline Watson Forsberg (1943–2007) founded the Nuclear Freeze campaign and the Institute for Defense and Disarmament Studies. In *Toward a Theory of Peace*, completed in 1997 and published for the first time here, she delves into a vast literature in psychology, anthropology, archeology, sociology, and history to examine the ways in which changing moral beliefs came to stigmatize forms of "socially sanctioned violence" such as human sacrifice, cannibalism, and slavery, eventually rendering them unacceptable. Could the same process work for war? Edited and with an introduction by political scientists Matthew Evangelista (Cornell University) and Neta C. Crawford (Boston University), both of whom worked with Forsberg.

The Concept of Water R D V Glasgow 2009 Water is commonly taken for granted and treated with contempt, yet it is the very foundation of human existence. Assuming countless forms, it is deeply associated both with life and death, body and soul, purity and pollution, creation and destruction. "The Concept of Water" seeks to bring together the various aspects of our deeply ambiguous relationship with water, providing a systematic account of its symbolic and philosophical significance. This involves looking at how water has been conceived and the role it has played in everyday thought, mythology, literature, religion, philosophy, politics and science, both across cultures and through history. R. D. V. Glasgow was born in Sheffield and currently lives in Zaragoza. His previous books are "Madness, Masks and Laughter" (1995), "Split Down the Sides" (1997), and "The Comedy of Mind" (1999).

Unknown Empire Dean W. Arnold 2020-07

Whole Language Carl Bernard Smith 1994 This book presents a debate between "reasonable" educators who either claim that there is evidence for the effectiveness of whole language, or who challenge the claim that whole language works across the broad spectrum of learners. The book presents the debate in the form of formal debate resolutions, opening "statements," transcripts of a "face-to-face shoot-out" at a convention of the National Reading Conference in San Antonio, Texas, further written responses, and commentary on the debate. Contents of the book are: "'And the Winner Is...!' The Context of the Debate" (Carl B. Smith); "Call Me Teacher" (Susan Ohanian); "Whole Language and Research: The Case for Caution" (Michael C. McKenna and others); "Moderator's Comments" (Carl B. Smith); "The Answer Is Yes..." (Patrick Shannon); "Unlike Patrick, We Do Accept Reality..." (Michael McKenna); "Who the Hell Are You?" (Susan Ohanian); "Let Us Not Permit Ourselves to Be Forced into Bitterly Polarized Positions..." (Richard Robinson); "Audience Participation" (moderated by Carl B. Smith); "People Who Live in Glass Houses..." (Patrick Shannon); "Emerging Perspectives on Whole Language" (Michael C. McKenna and others); "Whole Language: Now More Than Ever" (Shelley Harwayne); "Is Whole Language 'The Real Thing'? Advertisements and Research in the Debate on Whole Language" (Steven Stahl); "New Questions, Different Inquiries" (Jerome Harste); and "Commentary on the ERIC Whole Language Debate" (Michael Pressley). A selected, annotated bibliography of approximately 1,000 items from the ERIC database concerning whole language is included. (RS)

Declamation on the Nobility and Preeminence of the Female Sex Henricus Cornelius Agrippa 2007-11-01 Originally published in 1529, the *Declamation on the Preeminence and Nobility of the Female Sex* argues that women are more than equal to men in all things that really matter, including the public spheres from which they had long been excluded. Rather than directly refuting prevailing wisdom, Agrippa uses women's superiority as a rhetorical device and overturns the misogynistic interpretations of the female body in Greek medicine, in the Bible, in Roman and canon law, in theology and moral philosophy, and in politics. He raised the question of why women were excluded and provided answers based not on sex but on social conditioning, education, and the prejudices of their more powerful oppressors. His declamation, disseminated through the printing press, illustrated the power of that new medium, soon to be used to generate a larger reformation of religion.

Contemporary Perspectives on Cognition and Writing Patricia Portanova 2018 Explores the historical context of cognitive studies, the importance to our field of studies in neuroscience, the applicability of habits of mind, and the role of cognition in literate development and transfer.

Companion to Women's and Gender Studies Nancy A. Naples 2020-03-26 A comprehensive overview of the interdisciplinary field of Women's and Gender Studies, featuring original contributions from leading experts from around the world The Companion to Women's and Gender Studies is a comprehensive resource for students and scholars alike, exploring the central concepts, theories, themes, debates, and events in this dynamic field. Contributions from leading scholars and researchers cover a wide range of topics while providing diverse international, postcolonial, intersectional, and interdisciplinary insights. In-depth yet accessible chapters discuss the social construction and reproduction of gender and inequalities in various cultural, social-economic, and political contexts. Thematically-organized chapters explore the development of Women's and Gender Studies as an academic discipline, changes in the field, research directions, and significant scholarship in specific, interrelated disciplines such as science, health, psychology, and economics. Original essays offer fresh perspectives on the mechanisms by which gender intersects with other systems of power and privilege, the relation of androcentric approaches to science and gender bias in research, how feminist activists use media to challenge misrepresentations and inequalities, disparity between men and women in the labor market, how social movements continue to change Women's and Gender Studies, and more. Filling a significant gap in contemporary literature in the field, this volume: Features a broad interdisciplinary and international range of essays Engages with both individual and collective approaches to agency and resistance Addresses topics of intense current interest and debate such as transgender movements, gender-based violence, and gender discrimination policy Includes an overview of shifts in naming, theoretical approaches, and central topics in contemporary Women's and Gender Studies Companion to Women's and Gender Studies is an ideal text for instructors teaching courses in gender, sexuality, and feminist studies, or related disciplines such as psychology, history, education, political science, sociology, and cultural studies, as well as practitioners and policy makers working on issues related to gender and sexuality.

Women After All: Sex, Evolution, and the End of Male Supremacy Melvin Konner 2015-03-09 “A sparkling, thought-provoking account of sexual differences. Whether you’re a man or a woman, you’ll find his conclusions gripping.”—Jared Diamond There is a human genetic fluke that is surprisingly common, due to a change in a key pair of chromosomes. In the normal condition the two look the same, but in this disorder one is malformed and shrunken beyond recognition.

The result is a shortened life span, higher mortality at all ages, an inability to reproduce, premature hair loss, and brain defects variously resulting in attention deficit, hyperactivity, conduct disorder, hypersexuality, and an enormous excess of both outward and self-directed aggression. It is called maleness. Melvin Konner traces the arc of evolution to explain the relationships between women and men. With patience and wit he explores the knotty question of whether men are necessary in the biological destiny of the human race. He draws on multiple, colorful examples from the natural world—such as the mating habits of the octopus, black widow, angler fish, and jacana—and argues that maleness in humans is hardly necessary to the survival of the species. In characteristically humorous and engaging prose, Konner sheds light on our biologically different identities, while noting the poignant exceptions that challenge the male/female divide. We meet hunter-gatherers such as those in Botswana, whose culture gave women a prominent place, invented the working mother, and respected women's voices around the fire. Recent human history has upset this balance, as a dense world of war fostered extreme male dominance. But our species has been recovering over the past two centuries, and an unstoppable move toward equality is afoot. It will not be the end of men, but it will be the end of male supremacy and a better, wiser world for women and men alike.

California Indian Languages Victor Golla 2011-09-20 "Victor Golla has been the leading scholar of California Indian languages for most of his professional life, and this book shows why. His ability to synthesize centuries of fieldwork and writings while bringing forward new ideas and fresh ways of looking at California's famous linguistic diversity will make this the primary text for anyone interested in California languages."--Leanne Hinton, Professor Emerita of Linguistics, University of California, Berkeley and author of How to Keep Your Language Alive "This book is a wonderful contribution that only Golla could have written. It is a perfect confluence of author and subject matter."--Ives Goddard, Senior Linguist, Emeritus, Smithsonian Institution "Golla is a gifted polymath and California Indian Languages is certainly his landmark achievement, required reading for any linguist, archaeologist, ethnographer, or historian interested in aboriginal California."--Robert L. Bettinger, Professor of Anthropology, University of California Davis and author of Hunter-Gatherer Foraging "The preeminent figure in his field, Victor Golla has written a masterpiece filled with treasures for every audience: Indian communities working toward cultural and linguistic revival; general readers interested in the many cultures of Native California; and scholars in the fields of language, archaeology, and prehistory. The information here is so detailed that it supersedes all previous reference works."--Andrew Garrett, Professor of Linguistics, University of California Berkeley and Director, Survey of California and Other Indian Languages "This is a truly magnificent work, at once authoritative, comprehensive, accessible to a wide readership, and fascinating. Masterfully integrating linguistic, archaeological, historical, and cultural information, the author describes not just the languages, but also the major figures in the story: speakers, explorers, missionaries, and scholars. It is beautifully written, a great pleasure to read, and difficult to put down."--Marianne Mithun, author of The Languages of Native North America

The Uncanny Child in Transnational Cinema Jessica Balanzategui 2018-12-11 This book illustrates how global horror film images of children re-conceptualised childhood at the beginning of the twenty-first century, unravelling the child's long entrenched binding to ideologies of growth, futurity, and progress. The Uncanny Child in Transnational Cinema analyses an influential body of horror films featuring subversive depictions of children that emerged at the beginning of the twenty-first century, and considers the cultural conditions surrounding their emergence. The book proposes that complex cultural and industrial shifts at the turn of the millennium resulted in potent cinematic renegotiations of the concept of childhood. In these transnational films—largely stemming from Spain, Japan, and America—the child resists embodying growth and futurity, concepts to which the child's symbolic function is typically bound. By demonstrating both the culturally specific and globally resonant properties of these frightening visions of children who refuse to grow up, the book outlines the conceptual and aesthetic mechanisms by which long entrenched ideologies of futurity, national progress, and teleological history started to waver at the turn of the twenty-first century.

Shell Shock P. Leese 2002-07-12 To the British soldiers of the Great War who heard about it, 'shell shock' was uncanny, amusing and sad. To those who experienced it, the condition was shameful, unjustly stigmatized and life-changing. The first full-length study of the British 'shell shocked' soldiers of the Great War combines social and medical history to investigate the experience of psychological casualties on the Western Front, in hospitals, and through their postwar lives. It also investigates the condition's origin and consequences within British culture.

The Victorian Governess Novel Cecilia Wadsö Lecaros 2001 An investigation of the Victorian governess novel as a specific genre. Based on a comprehensive set of nineteenth-century novels, governess manuals, articles and biographical material, it shows how the Victorian Governess novel made up a vital part of the governess debate, as well as of the more general debate on female education.

Good Research Guide Martyn Denscombe 2003 The Good Research Guide has been a bestselling introduction to the basics of social research since it was first published in 1998. This new second edition of the book offers the same clear guidance on how to conduct successful small-scale research projects and adds even more value by including new sections on internet research, phenomenology, grounded theory and image-based methods. The book provides: a clear summary of the relevant strategies, methods and approaches to data analysis a jargon-free coverage of the key issues an attractive layout and user-friendly presentation checklists to guide good practice. Practical and comprehensive, The Good Research Guide is an invaluable tool for students of education, health studies, business studies and other social sciences, who need to conduct small-scale research projects as part of undergraduate, postgraduate or professional studies.

Female Domination Elise Sutton 2003-11-01

Searching for Wanda Elise Sutton 2010-06-15 In her third book, notable FemDom author Elise Sutton strays away from the more common lifestyles of FemDom practitioners who pursue relationships based on the principals of loving female authority, and instead she takes an honest look at men who claim to be seeking "unloving female authority" at the hands of a sadistic woman. This book also takes notice of real life experiences of female sadists and the wives and significant others of masochists. Nevertheless, the primary focus of this book is the life of the man from whom the term "masochist" was coined. Many have heard of Leopold von Sacher-Masoch but few have heard his life story. With the narrative of Leopold's sexual journey as its foundation, this book examines contemporary self-described masochists who are in search of a cruel, sadistic woman. In other words, just like Leopold, these men are "Searching for Wanda".

Power/Knowledge Michel Foucault 1980-11-12 Michel Foucault has become famous for a series of books that have permanently altered our understanding of many institutions of Western society. He analyzed mental institutions in the remarkable *Madness and Civilization*; hospitals in *The Birth of the Clinic*; prisons in *Discipline and Punish*; and schools and families in *The History of Sexuality*. But the general reader as well as the specialist is apt to miss the consistent purposes that lay behind these difficult individual studies, thus losing sight of the broad social vision and political aims that unified them. Now, in this superb set of essays and interviews, Foucault has provided a much-needed guide to Foucault. These pieces, ranging over the entire spectrum of his concerns, enabled Foucault, in his most intimate and accessible voice, to interpret the conclusions of his research in each area and to demonstrate the contribution of each to the magnificent -- and terrifying -- portrait of society that he was patiently compiling. For, as Foucault shows, what he was always describing was the nature of power in society; not the conventional treatment of power that concentrates on powerful individuals and repressive institutions, but the much more pervasive and insidious mechanisms by which power "reaches into the very grain of individuals, touches their bodies and inserts itself into their actions and

attitudes, their discourses, learning processes and everyday lives" Foucault's investigations of prisons, schools, barracks, hospitals, factories, cities, lodgings, families, and other organized forms of social life are each a segment of one of the most astonishing intellectual enterprises of all time -- and, as this book proves, one which possesses profound implications for understanding the social control of our bodies and our minds.

History & Arts of the Dominatrix Anne O Nomis 2013-12-18 The academic book on the history of the Dominatrix through the ages, with meticulous research from libraries and museums. From the ancient Dominatrix Goddess Inanna - Ishtar, the 17th - 19th Century Governess Dominatrix, the 20th Century 'Bizarre' ladies. Lastly Nomis theory on the Dominatrix's practices as the 'Seven Realm Arts'.

Aviation Psychology and Human Factors Monica Martinussen 2017-07-12 This book covers the application of psychological principles and techniques to situations and problems of aviation. It offers an overview of the role psychology plays in aviation, system design, selection and training of pilots, characteristics of pilots, safety, and passenger behavior. It covers concepts of psychological research and data analysis and shows how these tools are used in the development of new psychological knowledge. The new edition offers material on physiological effects on pilot performance, a new chapter on aviation physiology, more material on fatigue, safety culture, mental health and safety, as well as practical examples and exercises after each chapter. **Terpsichore in Sneakers** Sally Banes 2011-03-01 Drawing on the postmodern perspective and concerns that informed her groundbreaking *Terpsichore in Sneakers*, Sally Bane's *Writing Dancing* documents the background and development of avant-garde and popular dance, analyzing individual artists, performances, and entire dance movements. With a sure grasp of shifting cultural dynamics, Banes shows how postmodern dance is integrally connected to other oppositional, often marginalized strands of dance culture, and considers how certain kinds of dance move from the margins to the mainstream. Banes begins by considering the act of dance criticism itself, exploring its modes, methods, and underlying assumptions and examining the work of other critics. She traces the development of contemporary dance from the early work of such influential figures as Merce Cunningham and George Balanchine to such contemporary choreographers as Molissa Fenley, Karole Armitage, and Michael Clark. She analyzes the contributions of the Judson Dance Theatre and the Workers' Dance League, the emergence of Latin postmodern dance in New York, and the impact of black jazz in Russia. In addition, Banes explores such untraditional performance modes as breakdancing and the "drunk dancing" of Fred Astaire. Ebook Edition Note: All images have been redacted.

Encyclopedia of Management Theory Eric H. Kessler 2013-03-01 In discussing a management topic, scholars, educators, practitioners, and the media often toss out the name of a theorist (Taylor, Simon, Weber) or make a sideways reference to a particular theory (bureaucracy, total quality management, groupthink) and move on, as if assuming their audience possesses the necessary background to appreciate and integrate the reference. This is often far from the case. Individuals are frequently forced to seek out a hodgepodge of sources varying in quality and presentation to provide an overview of a particular idea. This work is designed to serve as a core reference for anyone interested in the essentials of contemporary management theory. Drawing together a team of international scholars, it examines the global landscape of the key theories and the theorists behind them, presenting them in the context needed to understand their strengths and weaknesses to thoughtfully apply them. In addition to interpretations of long-established theories, it also offers essays on cutting-edge research as one might find in a handbook. And, like an unabridged dictionary, it provides concise, to-the-point definitions of key concepts, ideas, schools, and figures. Features and Benefits: Two volumes containing over 280 signed entries provide users with the most authoritative and thorough reference resources available on management theory, both in terms of breadth and depth of coverage. Standardized presentation format, organized into categories based on validity and importance, structures entries so that readers can assess the fundamentals, evolution, and impact of theories. To ease navigation between and among related entries, a Reader's Guide groups entries thematically and each entry is followed by Cross-References. In the electronic version, the Reader's Guide combines with the Cross-References and a detailed Index to provide robust search-and-browse capabilities. An appendix with a Chronology of Management Theory allows readers to easily chart directions and trends in thought and theory from early times to the present. An appendix with Central Management Insights allows readers to easily understand, compare, and apply major theoretical messages of the field. Suggestions for Further Reading at the end of each entry guide readers to sources for more detailed research and discussion. Key themes include: Nature of Management Managing People, Personality, and Perception Managing Motivation Managing Interactions Managing Groups Managing Organizations Managing Environments Strategic Management Human Resources Management International Management and Diversity Managerial Decision Making, Ethics, and Creativity Management Education, Research, and Consulting Management of Operations, Quality, and Information Systems Management of Entrepreneurship Management of Learning and Change Management of Technology and Innovation Management and Leadership Management and Social / Environmental Issues PLUS: Appendix of Chronology of Management Theory PLUS: Appendix of Central Management Insights

Reimagining Utopias Iveta Silova 2017-07-13 *Reimagining Utopias* explores the shifting social imaginaries of post-socialist transformations to understand what happens when the new and old utopias of post-socialism confront the new and old utopias of social science. This peer-reviewed volume addresses the theoretical, methodological, and ethical dilemmas encountered by researchers in the social sciences as they plan and conduct education research in post-socialist settings, as well as disseminate their research findings. Through an interdisciplinary inquiry that spans the fields of education, political science, sociology, anthropology, and history, the book explores three broad questions: How can we (re)imagine research to articulate new theoretical insights about post-socialist education transformations in the context of globalization? How can we (re)imagine methods to pursue alternative ways of producing knowledge? And how can we navigate various ethical dilemmas in light of academic expectations and fieldwork realities? Drawing on case studies, conceptual and theoretical essays, autoethnographic accounts, as well as synthetic introductory and conclusion chapters by the editors, this book advances an important conversation about these complicated questions in geopolitical settings ranging from post-socialist Africa to Eastern Europe and Central Asia. The contributors not only expose the limits of Western conceptual frameworks and research methods for understanding post-socialist transformations, but also engage creatively in addressing the persisting problems of knowledge hierarchies created by abstract universals, epistemic difference, and geographical distance inherent in comparative and international education research. This book challenges the readers to question the existing education narratives and rethink taken-for-granted beliefs, theoretical paradigms, and methodological frameworks in order to reimagine the world in more complex and pluriversal ways.

The Handbook of Discourse Analysis Deborah Schiffrin 2008-04-15 The Handbook of Discourse Analysis makes significant contributions to current research and serves as a comprehensive and authoritative guide to the central issues in contemporary discourse analysis. Features comprehensive coverage of contemporary discourse analysis. Offers an overview of how different disciplines approach the analysis of discourse. Provides analysis of a wide range of data, including political speeches, everyday conversation, and literary texts. Includes a varied range of theoretical models, such as relevance theory and systemic-functional linguistics; and methodology, including interpretive, statistical, and formal methods Features comprehensive coverage of contemporary discourse analysis.

The FemDom Experience Elise Sutton 2007-01 An experience is the process of personally participating in an activity, event or lifestyle. Fantasy does not always translate over to reality because reality must contend with the bodily limitations of the physical world, whereas fantasy enjoys the unlimited boundaries of the imagination. Nevertheless, fantasy is often the product of reality. For one person's fantasy is another person's reality. ; ; Notable FemDom author Elise Sutton examines the Female Domination lifestyle by taking the reader into the personal relationships and sexual practices of everyday people who live astonishing secret lives. ; ; Elise adds her insight and commentary as she examines what constitutes a successful FemDom relationship.
