**Descriptosaurus** Alison Wilcox 2008-11-11 Descriptosaurus is the first book for creative writing that is a thematic expansion of a dictionary and a thesaurus. It provides children with a comprehensive resource with which to expand their descriptive vocabulary, experiment with language and sentence structure and build up narratives based around the following areas: Settings – landscapes, settlements and atmospheres Characters – appearance, emotions and personality Creatures – appearance, abilities and habitats. This model was created as a result of feedback from children as to the resources they required to inspire and assist them with their writing. **Shedwords 100 words to explore** Rob Smith 2021-04-28 A book to inspire and support teachers to explore and teach amazing words. A resource to widen the vocabulary of teachers and the children they teach. When children are inspired by, and begin to love, words their literacy learning and engagement in writing can be transformed. The words presented in this book are not often in use. Words that are forgotten, unusual, largely un-known. For each word, an image inspires teachers and children to think more about the word and how it can be used. This book elevates writing through the use of a wider vocabulary but also through visual prompts to support composition and story-making. This highly visual book inspires teachers and children to love words, to explore them and to want to know more about what they mean, how they are used and where they came from. Rob Smith is a lover of words and the founder of the Literacy Shed.

**Beyond Early Writing** David Waugh 2015-06-15 This essential text for primary trainees and teachers examines the key skill of writing beyond the earliest school years. Teaching writing involves much more than simply teaching the mechanics of spelling, grammar and punctuation, important though these are. There are particular issues around writing in school, including the fact that children's writing consistently lags behind their reading in external tests such as SATs, boys' relative lack of success and teachers' lack of confidence in modelling writing. This book addresses these topics as well as focusing on other pertinent practice issues such as working with proficient writers, engaging disengaged writers and working with children who have EAL and SEN.

**Writing Pie** Corbett 1997-07 This is a bank of ideas designed to help teachers to develop the writing of primary-school pupils. It is concerned mainly with the compositional aspects of writing, rather than spelling, handwriting and punctuation, and consists of five main sections, dealing with writing stories and poems, writing for information, writing from reading, writing from personal experience, and redrafting and proof-reading.

**Colourful Semantics** NHS Forth Valley 2020-03-24 This comprehensive resource pack, developed in conjunction with education staff, draws on the principles of Alison Bryan's original Colourful Semantics approach to provide professionals with an engaging, dynamic way to support children's language development. By coding sentences using colour, symbols and signs, this visual approach aims to: Teach understanding of question words Develop vocabulary and increase sentence complexity Increase range and complexity of verbs (children with delayed or disordered spoken language skills often overuse simple verbs such as do, go or get) Improve children's written language skills This practical resource consists of three parts: a printed book containing ready-made session plan ideas, black and white vocabulary cards and worksheets; an online version using the current Colourful Semantics colour coding system, and an online version using the colour coding system used by Speech and Language Therapists from NHS Forth Valley. This is an essential pack for teachers and professionals looking to work on language development with children aged four to nine. **Descriptosaurus** Alison Wilcox 2017-11-15 Now in a fully updated third edition, Descriptosaurus is the first book for creative writing that is a thematic expansion of a dictionary and a thesaurus; it provides children with a comprehensive resource with which to expand their descriptive vocabulary, experiment with language and sentence structure and build up narratives based around settings, characters and creatures. Descriptosaurus positions the word, zooms in on it to examine the meaning, expands it into phrases, and then provides alternatives in words, phrases and sentences; the model was created and refined over a number of years as a result of feedback from children inside and outside the classroom as to the resources they required to inspire and assist them with their writing. For reluctant writers or those faced with blank page syndrome, it provides essential starting points to encourage putting pen to paper, not only inspiring children, but also building their confidence, encouraging them to use, apply and create using the correct grammatical structures, and adding colour to their writing through evaluation and

experimentation. New features for this updated third edition include: Sample poems Word banks and model sentences to provide a step-by-step process for development of vocabulary and understanding of phrase, clause and sentence structure Contextualised grammar and punctuation instruction and guidance Units of work where the models can be incorporated in a creative focus A companion website containing all the features of the book, games, planning sheets and vocabulary builders This is an ideal resource to dramatically improve children's creative writing for all KS2 primary and KS3 secondary English teachers, literacy coordinators and parents. **Writing with Stardust** Liam O Flynn 2013-05-27 'Writing with Stardust' will launch your writing skills into a different orbit. It not only shows you how to write, it teaches you how to look at the world with an 'artist's eye'. Spring is described as nature's defibrillator in the book. In the same way, the techniques used here will be the high voltage pacemaker you have been looking for in your writing. Ready to greet you are females with constellation-blue eyes and megawatt smiles. Males with Hercules-gold hair move like panthers in slow-mo. Thumb plump bumblebees, wings a-thrum, loot from honeypots of mustard-yellow flowers. Willowy waterfalls swoop into infinity pools while the stars above sparkle like angel fire. Pine and peat, mint and meringue; all the smells and tastes you could wish for are inside. Join us on a multisensory voyage of discovery that will change the way you think forever. Nature can be a cruel mistress, however. Blood-red moons leer over boiling seas while mariners try to defy ancient curses. Grim faced men fight for their lives under starless skies and sun blasted deserts burn hotter than Greek fire. Even the lightning flashes like the cold, gold prongs of the Apocalypse. The book provides a platform for students, parents, teachers and lovers of English to launch their descriptive powers into a new orbit. The word banks contain words for five different levels of ability. Whether you are a young English student or a seasoned scribe, you will find that this book will transform the way you think about descriptive writing.

**11+ Essentials Creative Writing Examples** 2018-06-30

**The Power of Beauty** Inga R. Gammel 2015 The fascination of beauty has given rise to a long-standing European philosophical tradition on the idea of beauty the beginnings of which link back to ancient Greek mythology. However, at the dawn of Modernity the discourse on beauty slowly disappeared from theory and philosophy. While classical tradition dealt with the many and varied aspects of beauty in relation to cosmos, man's way of life, education and the arts, modern theory trivialized the idea of beauty and finally abandoned the topic. This book is an attempt to put beauty on the agenda again by reviewing the very origin of this ancient idea. The reflections on beauty and the ugly are present already in Homer's mythology, and these ideas are further developed and refined in Plato's philosophy. Also Cicero is guided by the Greek legacy in his approach to life, rhetoric, and beauty. The examination of the ancient sources shows the profound knowledge, the elegance, the charm and wit present in ancient thinking. Instead of being just history, these sources hold sound counseling highlighting the importance of beauty. In this way the ancient legacy constitutes a challenge to the arrogance of modern thinking.

**Jumpstart! Grammar** Pie Corbett 2015-10-23 Fully updated to help teachers deal with the new 2016 Grammar Tests, this second edition presents a collection of simple to use, multi-sensory games and activities that will jumpstart pupils' understanding of grammar in action It includes coverage of the subjunctive and past progressive, selecting which tense is the most definite,

identifying when a word is used as a subordinating conjunction/preposition, explaining how a comma can change meaning, and an increased emphasis on the passive. Jumpstart! Grammar will prepare children for any grammar tests on the horizon in an engaging way so that they love playing with words and spinning sentences to make ideas dance. And, of course, they will be able to name the parts if that is what is required. Fun games will focus first on helping children hear the difference various types of grammar can make followed by activities to help them understand what different effects you can create with grammar. Technical terms will only be introduced once the children have established what the various features can do, with a particular focus on those terms that really help children discuss what makes language coherent and effective. In today's increasingly competitive society, preparation for the 11+ has been increasingly tough, whichever education authority area you live in. One aspect of 11+ preparation that many children struggle with is the writing task - but this is appearing more and more in the papers. Essex (CSSE) introduced it 3 years ago; currently emphasising the importance of descriptive writing and Instructional Writing; however, there is no guarantee that they will stick to this. Other areas ask for different genres of writing; but there is one thing that they all have in common - the writing is a short writing task, taking no more than 20 minutes to complete. This handy book, produced by an experienced teacher and 11+ tutor who has been teaching Year 5 & 6 children in Essex for a number of years, contains lessons, guidance and instructions for a range of key genres of writing; including: Descriptive writing Instructions, Conversations Playscripts Postcards Diary Entries Invitations And a variety of persuasive writing There is also a useful section explaining many of the rules of punctuation. **Early Reading Instruction** Diane McGuinness 2006-01-20 Early Reading Instruction is a comprehensive analysis of the research evidence from early writing systems to computer models of reading. In this book, Diane McGuinness provides an innovative solution to the "reading war"—the century-old debate over the efficacy of phonics (sound-based) versus whole-word (meaning-based) methods. She has developed a prototype—a set of elements that are critical to the success of a reading method. McGuinness shows that all writing systems, without exception, are based on a sound unit in the language. This fact, and other findings by paleographers, provides a platform for the prototype. Other elements of the prototype are based on modern research. For example, observational studies in the classroom show that time spent on three activities strongly predicts reading success: learning phoneme/symbol correspondences, practice at blending and segmenting phonemes in words, and copying/writing words, phrases, and

sentences. Most so-called literacy activities have no effect, and some, like sight word memorization, have a strongly negative effect. The National Reading Panel (2000) summarized the research on reading methods after screening out thousands of studies that failed to meet minimum scientific standards. In an in-depth analysis of this evidence, McGuinness shows that the most successful methods (children reading a year or more above age norms) include all the elements in the prototype. Finally, she argues, because phonics-type methods are consistently shown to be superior to whole-word methods in studies dating back to the 1960s, it makes no sense to continue this line of research. The most urgent question for future research is how to get the most effective phonics programs into the classroom.

Each chapter focuses on a non-fiction text type: instructions, explanations, non-chronological reports, diary entries, newspaper reports and persuasive texts. There are photocopiable model texts for each year group, along with annotated versions guiding teachers through language features, grammar, spelling and punctuation opportunities, saving hours of lesson planning. Mitch Hudson and Anna Richards, expert teachers and creators of the popular Grammarsaurus website, answer common questions from teachers: 'When should I teach this punctuation mark?', or 'Which spellings should I be teaching my Year 3 class?'. With model texts covering a range of subject areas and up-to-date content using the latest curriculum framework, teachers can feel confident in tackling writing and SPaG across all the key areas of non-fiction. Please note that the PDF eBook version of this book cannot be printed or saved in any other format. It is intended for use on interactive whiteboards and projectors only.

Teaching for Mastery in Writing Mike Cain 2018-08-09 Teaching for Mastery in Writing provides a practical approach to developing mastery in writing which helps all primary children to develop their skills and inspires a love of writing. This innovative book follows an approach that integrates mastery into existing teaching sequences – an approach which aims to improve the writing ability of all children, not just the more able. Writing is a tough discipline for children in today's primary

schools. The number of skills they are expected to learn is a source of amazement to many adults outside education. It is no easier to teach, not least because of the many and varied demands on schools, including the National Curriculum, SPaG tests, assessment frameworks and inspections. Now, more than ever, it is crucial that teachers focus on helping children become the most effective communicators they can be through the medium of writing. Throughout the book, Mike Cain promotes the importance of a classroom culture characterised by focused talk and reasoning, and provides lots of ideas for challenging children in their writing through the development of key learning dispositions and critical thinking skills.
