2018-03-01 Questo volume contiene alcuni
progetti e ricerche che fanno parte di un
processo culturale contemporaneo che vede la

trasformazione del concetto di tutela del paesaggio, intesa non più come un travasamento di vincoli sul territorio, quanto piuttosto una tutela finalizzata all'individuazione di nuove modalità di gestione, valorizzazione, promozione delle forme e delle attività identitarie che regolano i paesaggi. In questo senso i paesaggi rurali rappresentano una categoria interessante di paesaggio culturale, la cui sopravvivenza è legata a doppio filo con il mantenimento delle pratiche agricole tradizionali e degli usi delle comunità locali. I contributi afferiscono a diverse discipline ed evidenziano la necessità di una multidisciplinarietà nell'approccio ai temi del paesaggio.

Values, Cities and Migrations Grazia Napoli

spatial and economic systems in a multicultural city. The book consists of seventeen papers in two parts. The first part, "Values and Relational Systems in Multicultural Societies", features how social sciences--including appraisal and valuation, urban planning, philosophy, psychology, and geography--take different approaches to studying values and relationships, converging to form a unified mosaic of complementary and interconnected knowledge. The second part, "Permeability and Permanence of Values in a Contemporary Multicultural City", highlights the most crucial topics on which appraisals and models focus to interpret and represent the influence of migration on the real estate market in different urban and territorial contexts, from historical centers, small towns, to tourist cities, also taking into account sustainability, maintenance and regeneration of cities.

Moressa 2017

New Metropolitan Perspectives Francesco Calabrò 2022-08-24 The book aims to face the challenge of post-COVID-19 dynamics toward green and digital transition, between metropolitan and return to villages' perspectives. It presents a multi-disciplinary scientific debate on the new frontiers of strategic and spatial planning, economic programs and decision support tools, within the urban-rural areas networks and the metropolitan cities. The book focuses on six topics: inner and marginalized areas local development to re-balance territorial inequalities; knowledge and innovation ecosystem for urban regeneration and resilience; metropolitan cities and territorial dynamics; rules, governance, economy, society; green buildings, post-carbon city and ecosystem services; infrastructures and spatial information systems; cultural heritage: conservation, enhancement and management. In addition, the

Nations 2020-2030. The book will benefit all researchers, practitioners and policymakers interested in the issues applied to metropolitan cities and marginal areas.

World Population Policies 2013 United Nations Publications 2014-02-17 This report provides a comprehensive overview of key aspects of population policies and dynamics for 197 countries since the mid-1970s. Updated biennially, it documents changes in key aspects of Government views and policies related to population size and growth, population age structure, fertility, reproductive health and family planning, health and mortality, spatial distribution and internal migration, and international migration. The report also includes two-page country profiles, with the first page containing information on changes in the Government views and policies and the second page containing data on selected population indicators corresponding to 1985, 1995, 2005 and 2013, the most recent revision year.

Africa Donatella Strangio 2018-04-04 L'Africa è il filo conduttore di questi saggi che vogliono essere anche un tributo oltre che un segnale tangibile della testimonianza degli studi di Calchi Novati, al quale il volume è dedicato. Il volume è diviso in diverse parti (che riguardano la metodologia, il colonialismo, gli aspetti storico e socio-economici e il fenomeno delle migrazioni) proprio a sottolineare la ricchezza delle prospettive che offre lo studio dell'Africa che, se da una parte potrebbero rappresentare un puzzle di temi diversi dall'altra offre complessità, varietà e approfondimenti nell'affrontarne la lettura. A questo riguardo sono stati coinvolti studiosi di diverse discipline, storici, storici-economici, antropologi, demografi i cui lavori hanno come oggetto l'Africa italiana (Libia, Eritrea, Somalia e in parte Etiopia) ma non solo (Algeria, Tunisia, Kenya) in considerazione del fatto che l'Africa oggi è il prodotto di come questa area del mondo è entrata nel contesto internazionale, attraverso il processo di

decolonizzazione. L'interdisciplinarietà è probabilmente il metodo migliore per conoscere la complessità dell'Africa; sono diversi e complessi gli aspetti che si sono stratificati nel corso del tempo e quindi si ritiene utile affrontarne lo studio attraverso questo approccio.

Il pluralismo al bivio Giulio Battioni 2017-11-30

«Stare insieme, sulla faccia della terra, è diventato un compito quotidiano. (...) Sicuramente il terzo millennio sarà ricordato per aver iniziato un tratto di questa storia: la storia della convivenza degli esseri umani al plurale su tutta la terra». Il rebus pluralista è il problema per eccellenza del nostro tempo. Il problema è forse risolvibile. La libertà individuale e la giustizia sociale, la dignità della persona e la cultura, nella sua pluralità storica di forme morali, religiose, linguistiche e civili, possono convivere, anzi convivono in una miracolosa quanto ovvia sintesi: la natura umana. La filosofia politica e del diritto, la scienza politica, la storia delle idee e i vari metodi delle scienze sociali

suggeriscono nelle pagine che seguono alcune risposte, pongono ulteriori dubbi e propongono nuove domande.

Comparative Demography of the Syrian Diaspora: European and Middle Eastern Destinations

Elwood D. Carlson 2020-01-15 This book provides a demographic profile of the Syrian diaspora into Europe and identifies the issue of forced migration as a separate and increasingly salient topic within the more general field of migration research. It describes the progressive increase in numbers of Syrian refugees in different European countries during recent years and gives a demographic profile of the Syrian refugee population. The book also compares and synthesizes the demographic profiles presented, to show how the population of Syrian refugees differs from country to country in terms of age structure, sex ratio, family status, educational attainment and other social and economic characteristics. By providing a solid

international statistics, this book will be a great resource to students, academics in migration and refugee studies as well as social scientists and policy-makers in European countries.

Quaderni del CERM 3. Migrazioni e cittadinanza

Daniele Brigadoi *Cologna* 2022-07-19 Gli scritti raccolti in questo terzo Quaderno del CERM nascono dal desiderio di promuovere un'occasione di studio sulla cittadinanza, sollecitata dall'esigenza di mettere a confronto due diverse prospettive, quella sociologica e quella giuridica. I cultori delle due materie, da tempo, concentrano la propria attenzione sul tema utilizzando le "proprie" categorie. Ciò costituisce un indubbio fattore di arricchimento, evidenziando le potenzialità di un approccio interdisciplinare, ma, sul piano del metodo, implica anche un dialogo costante, che permetta di valorizzare il contributo di ciascun sapere scientifico ed eviti, anche sul piano terminologico, incomprensioni fuorvianti. Gli scritti di questo volume tentano di offrire un

contributo a questo dialogo, nella consapevolezza che solo un adeguato supporto conoscitivo possa assicurare al decisore politico gli strumenti necessari per affrontare la sfida dell'integrazione dei migranti e promuovere il consolidamento di ordinamenti autenticamente multiculturali.

Migrant Labour and the Reshaping of Employment Law Bernard Ryan 2023-04-20

The presence of migrant workers has become a central feature of labour markets in highly developed countries. The International Labour Organisation estimates that in 2013 there were 112 million resident migrant workers in the 58 highest-income countries, who made up 16% of the workforce. Non-resident workers have also increasingly become part of the labour available for employment in other states, often on a temporary basis. This work takes a thematic and comparative approach to examine the profound implications of contemporary labour migration for highly developed

*Rapporto Annuale Sull'economia
Del Lavoro in Italia Edizione 2017
Dimensione Internazionale Delle
Migrazioni Il Mulino Pdf upload Jason p
Ferguson*

countries. In so doing, it aims to promote greater recognition of labour migration-related questions, and of the interests of migrant workers, within employment law scholarship. The work comprises original analyses by leading scholars of migration and employment law at the European Union level, and in Australia, Canada, Germany, Italy, the Netherlands, Spain, the United Kingdom and the United States. The specific position of migrant workers is addressed, for example as regards equality of treatment, or the position in employment law of migrant workers without a right to work. The work also explores the effects of migration levels and patterns upon general employment law - including the law relating to collective bargaining, and remedies against exploitation.

Economic and Social Perspectives on European Migration Francesca Fauri 2020-12-29

This book addresses a wide range of migration-related issues in the European context and examines the socioeconomic consequences

of migratory flows throughout Europe, focusing on a number of emblematic European countries. The book is divided into three parts. The first part deals with the tension between migrants and their integration processes in the receiving country, which is deeply influenced by the attitude of the local population and the different approach to highly and less skilled immigrants. The second part analyses the impact of migration on the economic structure of the receiving country, while the third part explores the varying degree of immigrants' socioeconomic integration in the country of destination. The book offers an essential interdisciplinary contribution to the issue of migration and provides readers with a better understanding of the effects that different forms of migration have had and will continue to exert on economic and social change in host countries. It also examines migration policy issues and builds on historical and empirical case studies with policy recommendations on labour market integration and welfare policy issues.

Italiani che lasciano l'Italia AA. VV.
2020-06-11T00:00:00+02:00 Tra un passato di
emigrazione dato per archiviato e un presente di
immigrazione a tratti problematico, il fenomeno
degli italiani che sempre più spesso lasciano il
paese è rimasto in questi anni in secondo piano.

Solo recentemente il mondo della ricerca sociale ha iniziato a interessarsi ai giovani che, a causa di un mercato del lavoro fiacco e poco attrattivo, sono tornati a emigrare. Tra gli anni immediatamente precedenti all'inizio della crisi del 2009 e il 2019 la presenza italiana all'estero è aumentata del 70% e l'Italia occupa oggi la nona posizione nella graduatoria mondiale dei paesi di emigrazione. Attraverso una serie di ricerche empiriche svolte in diversi paesi, europei e del nord America, il volume dà conto delle aspettative e delle difficoltà, dei successi e degli insuccessi, dei nuovi emigranti italiani, affrontando sia il fenomeno delle emigrazioni destinate all'inserimento in un mercato del lavoro qualificato, sia delle emigrazioni che finiscono per generare lavoro poco qualificato e, in alcuni casi, anche sotto pagato.

Migration and the Search for Home Paolo Boccagni 2016-10-31 This book explores the impact of transnational migration on the views, feelings, and practices of home among migrants. Home is usually perceived as what placidly lies in the background of everyday life, yet migrants' experience tells a different story: what happens to the notion of home, once migrants move far away from their "natural" bases and search for new ones, often under marginalized living conditions? The author analyzes in how far migrants' sense of home relies on a dwelling place, intimate relationships, memories of the

Rapporto Annuale Sull'economia
Dell'industria e del Commercio

Migrazioni Il Mulino Pdf upload Jason p
Ferguson

difference these factors make in practice. Analyzing their claims, conflicts, and dilemmas, this book showcases how in the migrants' case, the sense of home turns from an apparently intimate and domestic concern into a major public question.

Trade Unions and Migrant Workers Stefania Marino 2017-12-29 This timely book analyses the relationship between trade unions, immigration and migrant workers across eleven European countries in the period between the 1990s and 2015. It constitutes an extensive update of a previous comparative analysis – published by Rinus Penninx and Judith Roosblad in 2000 – that has become an important reference in the field. The book offers an overview of how trade unions manage issues of inclusion and solidarity in the current economic and political context, characterized by increasing challenges for labour organizations and rising hostility towards migrants.

The Uncontrollability of the World Hartmut

Rosa 2020-10-06 The driving cultural force of that form of life we call 'modern' is the desire to make the world controllable. Yet it is only in encountering the uncontrollable that we really experience the world - only then do we feel touched, moved and alive. A world that is fully known, in which everything has been planned and mastered, would be a dead world. Our lives are played out on the border between what we can control and that which lies outside our control. But because we late-modern human beings seek to make the world controllable, we tend to encounter the world as a series of objects that we have to conquer, master or exploit. And precisely because of this, 'life,' the experience of feeling alive and truly encountering the world, always seems to elude us. This in turn leads to frustration, anger and even despair, which then manifest themselves in, among other things, acts of impotent political aggression. For Rosa, to encounter the world and achieve resonance with it requires us to be open to that which extends

Rapporto Annuale Sulleconomia
Delinquenza Edizione 2017 La
Dimensione Internazionale Delle
Migrazioni Il Mulino Pdf upload Jason p
Ferguson

beyond our control. The outcome of this process cannot be predicted, and this is why moments of resonance are always concomitant with moments of uncontrollability. This short book - the sequel to Rosa's path-breaking work on social acceleration and resonance - will be of great interest students and scholars in sociology and the social sciences and to anyone concerned with the nature of modern social life.

Understanding Financial Accounts OECD
2017-11-06 Understanding Financial Accounts seeks to show how a range of questions on financial developments can be answered with the framework of financial accounts and balance sheets, by providing non-technical explanations illustrated with practical examples.

World Development Report 2019 World Bank
2018-10-31 Work is constantly reshaped by technological progress. New ways of production are adopted, markets expand, and societies evolve. But some changes provoke more attention than others, in part due to the vast

uncertainty involved in making predictions about the future. The 2019 World Development Report will study how the nature of work is changing as a result of advances in technology today. Technological progress disrupts existing systems. A new social contract is needed to smooth the transition and guard against rising inequality. Significant investments in human capital throughout a person's lifecycle are vital to this effort. If workers are to stay competitive against machines they need to train or retool existing skills. A social protection system that includes a minimum basic level of protection for workers and citizens can complement new forms of employment. Improved private sector policies to encourage startup activity and competition can help countries compete in the digital age. Governments also need to ensure that firms pay their fair share of taxes, in part to fund this new social contract. The 2019 World Development Report presents an analysis of these issues

Migrants at Work Cathryn Costello 2014-10-30
There is a highly significant and under-considered intersection and interaction between migration law and labour law. Labour lawyers have tended to regard migration law as generally speaking outside their purview, and migration lawyers have somewhat similarly tended to neglect labour law. The culmination of a collaborative project on 'Migrants at Work' funded by the John Fell Fund, the Society of Legal Scholars, and the Research Centre at St John's College, Oxford, this volume brings together distinguished legal and migration scholars to examine the impact of migration law on labour rights and how the regulation of migration increasingly impacts upon employment and labour relations. Examining and clarifying the interactions between migration, migration law, and labour law, contributors to the volume identify the many ways that migration law, as currently designed, divides the objectives of labour law, privileging concerns about the labour

supply and demand over worker-protective concerns. In addition, migration law creates particular forms of status, which affect employment relations, thereby dividing the subjects of labour law. Chapters cover the labour laws of the UK, Australia, Ireland, Israel, Italy, Germany, Sweden, and the US. References are also made to discrete practices in Brazil, France, Greece, New Zealand, Mexico, Poland, and South Africa. These countries all host migrants and have developed systems of migration law reflecting very different trajectories. Some are traditional countries of immigration and settlement migration, while others have traditionally been countries of emigration but now import many workers. There are, nonetheless, common features in their immigration law which have a profound impact on labour law, for instance in their shared contemporary shift to using temporary labour migration programmes. Further chapters

labour rights, human rights, and human trafficking and smuggling, developing cross-jurisdictional and multi-level perspectives. Written by leading scholars of labour law, migration law, and migration studies, this book provides a diverse and multidisciplinary approach to this field of legal interaction, of interest to academics, policymakers, legal practitioners, trade unions, and migrants' groups alike.

The Welfare of Syrian Refugees Paolo Verme
2015-12-22 The Syrian refugee crisis, which began in 2011, is one of the most pressing disasters in the world today, with its effects reverberating around the globe. By the end of 2015, more than 7.6 million of the country's people had been internally displaced and 4.3 million were registered refugees. The number of internally displaced persons and refugees amounts to about half of Syria's precrisis population. Thousands have died while trying to reach safety. Due to the large humanitarian response, there is now a wealth of available

information on refugees' income and expenses, food and nutrition, health, education, employment, vulnerability, housing, and other measures of well-being. These data have been little explored, as humanitarian organizations face daily challenges that make the full use of existing data very difficult. The Welfare of Syrian Refugees: Evidence from Jordan and Lebanon aims to assess the poverty and vulnerability of these refugees and evaluate existing and alternative policies designed to help them. The authors find that current policies, including cash transfers and food vouchers, are effective in reducing poverty, but fail to lead to— nor are they designed to yield—economic inclusion and self-reliance. Those goals would require a different humanitarian and development paradigm, one that focuses on growth policies for areas affected by refugees where the target population has a mix of refugees and hosting populations. This volume is the result of the first

Frontex and Non-Refoulement Roberta Mungianu
2016-08-18 Since the Frontex Border Agency's establishment in 2004, its activities have foregrounded the complexity and difficulty of protecting the human rights of those seeking access to the European Union. In this connection, protection from refoulement should be paramount in the Agency's work. By navigating through the intricacies of Frontex's structure and working methods, this book answers abiding questions: which circumstances would trigger European Union responsibility if violations were to occur in Frontex's joint operations? What is the

legal standing of the principle of non-refoulement in relation to Frontex's activities? Can Frontex be entrusted with an exclusive search and rescue mandate? This book offers a theoretical and practical insight into the legislative intricacies of Frontex's work, examining the responsibility of the EU, and scrutinising the interaction of international law and EU law with a focus on the principle of non-refoulement.

Napoli Paolo Frascani

2017-01-19T00:00:00+01:00 Statistiche nazionali, pagelle sulla vivibilità, indicatori del tasso di criminalità e inquinamento si intrecciano al racconto del revival turistico e ai segnali di una nuova vivacità culturale. La Napoli d'oggi è un Giano bifronte. Per capirla bisogna calarsi nella sua storia recente, fare un viaggio nella città reale. Come 'testimone informato dei fatti', l'autore si confronta con le caotiche, smaglianti, mitiche o drammatiche rappresentazioni di Napoli, consapevole dell'ampliarsi della distanza dall'estero del Paese. Una distanza che è stata

volutamente sottovalutata dalla politica o, all'opposto, mediaticamente interpretata come punto di non ritorno. Napoli non può essere 'una città normale' perché, lo ricorda Roberto Saviano, «i napoletani vivono sotto i proiettili e abbassano la testa». Eppure – a guardar bene – questa città sotto l'inadeguatezza della propria classe dirigente e la fragilità della compagine sociale, esprime degli anticorpi vitali, degli elementi di dinamicità inattesi e spesso poco visibili a uno sguardo superficiale.

Education, Occupation and Social Origin Fabrizio Bernardi 2016 This innovative book takes a comparative approach to the social origin-education-destination triangle (OED), looking at the intergenerational transmission of advantage in 14 countries. The intention is to debate the claim that education is the 'great social equalizer'. The contributors examine the relation between family background, education and occupational achievement over time and across educational levels, focusing on the relationship

between individuals' social origins and their income and occupational outcomes. It will be of interest to academics and students of social policy and those interested in social inequalities and their reproduction over time.

Settling In 2018 Indicators of Immigrant Integration OECD 2018-12-09 This joint publication by the OECD and the European Commission presents a comprehensive international comparison across all EU, OECD and G20 countries of the integration outcomes for immigrants and their children, through 25 indicators organised around three areas: labour market and skills ...

Indicators of Immigrant Integration 2015 Settling In OECD 2015-07-02 This publication presents and discusses the integration outcomes of immigrants and their children through 27 indicators organised around five areas: Employment, education and skills, social inclusion, civic engagement and social cohesion.

Giovani politica società Terenzio Fava 2019-08-26T00:00:00+02:00 La scelta di concentrare l'attenzione sugli studenti universitari è dettata dal ruolo che questa categoria sociale ha svolto nel passato rispetto alla partecipazione e alla contestazione politica. L'obiettivo è quello di porre attenzione sui cambiamenti nell'interesse e nel coinvolgimento giovanile rispetto alla sfera politica e sociale. Alla

luce peraltro delle tesi della centralità sociale, secondo cui si tratterebbe del segmento giovanile maggiormente orientato verso la cosa pubblica per via del bagaglio di risorse economiche, sociali e culturali di cui dispone. Un dato questo che al presente si interseca, tuttavia, con dinamiche che segnano e complicano, in Italia come nel più ampio contesto europeo e internazionale, le traiettorie dei giovani verso la partecipazione politica. In un quadro, segnato dall'affermarsi del populismo, in cui l'età, dopo decenni di "invisibilità", ritorna a giocare un ruolo cruciale nella spiegazione delle dinamiche politiche e delle scelte di voto.

Migrants, Refugees and Asylum Seekers' Integration in European Labour Markets

framework of EU laws and policies, have a beneficial or negative impact on the effective capacity of these countries to integrate migrants, refugees and asylum seekers into their labour markets. The analysis builds on the understanding of socio-cultural, institutional and legal factors as "barriers" or "enablers"; elements that may facilitate or obstruct the integration processes. The book examines the two dimensions of integration being access to the labour market (which, translated into a rights language means the right to work) with its corollaries (recognition of qualifications, vocational training, etc.), and non-discriminatory working conditions (which, translated into a rights language means right to both formal and substantial equality) and its corollaries of benefits and duties deriving from joining the labour market. It thereby offers a novel approach to labour market integration and migration/asylum issues given its focus on legal aspects, which includes most recent policy

changes and legal decisions (including litigation cases). The robust, evidence-based and comparative research illustrated in the book provides academics and students, but also practitioners and policy makers, with up to date knowledge that will likely impact positively on policy changes needed to better address integration conundrums.

Giorni migliori Giuseppe Civati 2017-07-10 Un progetto politico che contiene le istruzioni per affrontare una difficile transizione e restituire al Paese un vero patto sociale: manifesto, trasparente, plausibile, sostenibile e rappresentativo. Che abbia a cuore chi rischia, chi soffre e si espone di più. Che dia finalmente diritti a chi da questo patto è escluso. Che non conduca al suo rifiuto, che non sia devastato dalle contraddizioni che lo minano alla base. Che ci faccia vivere nella Repubblica e dividerne le opportunità. Bisogna cogliere l'urgenza di questa transizione per saper preparare un futuro migliore grazie ai propri sforzi e l'iniziativa

di ciascuno fin da ora. Enea vide per la prima volta la nostra costa da fuggiasco, migrante, alla ricerca di nuove terre, accompagnato dal padre e dal figlio, portando con sé i propri valori e le proprie credenze: salutò l'«umile Italia» e non fu, nemmeno per lui, un arrivo facile. L'«umile Italia» è al centro della riflessione di Giuseppe Civati, deputato e segretario di Possibile, uno dei movimenti più innovativi della politica italiana. In queste pagine discute di sinistra (planetaria, non minoritaria), di vocazione del nostro Paese, dell'urgenza di partire dalle cose fondamentali: la questione del diluvio che ci attende, se non interverremo presto, anzi subito; le disuguaglianze che crescono; una politica che promuova la ricerca perché è ricerca essa stessa; le tasse che i grandi gruppi multinazionali nemmeno pagano; l'enorme questione dell'automazione robotica e dell'intelligenza artificiale, strettamente collegata ai big data. All'insegna di una linea politica coerente, che si sottrae al trasformismo e al confronto

superficiale tra grandi blocchi politici senza progetti, Civati propone una strada più semplice, fatta di progetti di governo maturi e precisi, della mobilitazione dei cittadini, di strumenti per la partecipazione che diano nuovo slancio alla democrazia della nostra comunità e con essa alla sua vocazione. Una campagna culturale prima che politica ed elettorale, fatta di radicalità e però di misura, di progressività in tutte le accezioni del termine, di un'Europa che esiste solo in quanto progetto di riforma sociale, com'era su un'isola non lontana dall'approdo di Enea, Ventotene. E di laicità, di diritti e di femminismo, anche. Un manifesto per gli elettori di oggi ma soprattutto per quelli di domani, a cui Civati si rivolge fin da ora, convinto che la politica si risolva in questo: in un progetto di lungo periodo. Giuseppe Civati (Monza - 1975) è deputato dal 2013, nello stesso anno ha partecipato alle primarie per la segreteria del Partito democratico, che abbandonerà nel 2015.

inizio 2016. Dottore di ricerca in Filosofia, è autore di numerosi libri, tra i quali Cannabis, Qualcuno ci giudicherà, Il trasformista, 10 cose buone per l'Italia che la sinistra deve fare subito. Per Imprimatur ha pubblicato La condizione necessaria. Stefano Catone (Gallarate - 1986) è laureato in Relazioni Internazionali, con perfezionamento in gestione dell'immigrazione e dell'asilo, ha scritto per Imprimatur Nessun Paese è un'isola. Migrazioni, accoglienza e il futuro dell'Italia. Francesco Foti (Trieste - 1984) è consulente creativo, copywriter e social media manager, dopo una lunga militanza nel Partito democratico, di cui è stato responsabile della Comunicazione per il Friuli Venezia Giulia, nel 2015 aderisce immediatamente al processo fondativo di Possibile, entrando a far parte del suo Comitato Organizzativo.

Irregular Immigration in Southern Europe

Maurizio Ambrosini 2018-01-05 Focusing on the dynamics of irregular immigration in Southern EU Member States, this book analyses how the

phenomenon is managed at national and local levels in different legal and political systems. In doing so, it answers vital policy questions regarding the continued existence of irregular migration, pathways to legality, and relations between unauthorized migrants and receiving societies. The author argues that while the economic crisis and migrant flows coming from the South and East of the Mediterranean Sea have called this regime into question, it is the needs of labour markets in Southern Europe and compliance with European Union rules that has had a more dominant effect. The particular manner in which labour markets, political actors, social institutions, and migrants' networks intersect are shown to be distinctive features of the migration regime in this region. Describing bordering and debordering practices, from the island of Lampedusa to local communities in distant regions, this book brings fresh insights to urgent areas of debate within the field. It

socially accepted, such as women who perform domestic and care activities, whereas others are rejected and marginalized, as is often the case for asylum seekers, despite having permission to reside. Drawing together twenty years of research and addressing the current crisis, it will appeal to policy-makers, students and scholars of migration.

International Migration Outlook 2019 OECD
2019-10-15 The 2019 edition of the International Migration Outlook analyses recent developments in migration movements and policies in OECD countries and some non-OECD economies. It also examines the evolution of labour market outcomes of immigrants in OECD countries.

Critical Mobilities Ola Söderström 2013 The field of mobility studies examines social phenomena through the lens of movement. In this perspective, societies are regarded as being constantly reconfigured as they are shaped by a series of mobile entities (capital, people, information). This book engages critically with

many of the claims and challenges of mobility studies by providing empirically rich reports of mobilities and their limitations. Instead of assuming a seamless world of flows, the volume foregrounds questions of power, inequality, and moorings as integral to the movement of capital, goods, images, practices, or people. It brings together the work of several internationally renowned scholars, who engage with these movements at critical sites. This is the first book to provide a critical and interdisciplinary view of mobilities covering a broad range of issues rather than a single domain. The chapters deal with current and important issues, such as organ transplants, illegal migrations, urban globalization, international policies of higher education institutions, and scientific diasporas. As a whole, the book provides new insights into how power relations shape mobilities and societies.

publication outlines the performance of the Asian Development Bank (ADB) in achieving the goals of Strategy 2030, the institution's long-term strategic framework. It is the 14th in the series of annual reports that tracks development progress in Asia and the Pacific, assesses ADB's development effectiveness, and identifies areas where the institution's performance needs to be strengthened.

Fuori di qui Pietro Vulpiani 2018-11-16 Ago della bilancia delle tensioni sociali, l'immigrazione produce opportunità ma anche problemi: alimenta solidarietà e prevaricazione, economia e precarietà, amicizia e diffidenza. Questo volume svela i lati oscuri dell'immigrazione, dagli sbarchi mediatizzati alla controversa gestione del fenomeno, alle retoriche dell'integrazione. Nuove povertà e odio razziale, insicurezza, criminalità e terrorismo mettono a dura prova la convivenza, mescolando rancore e xenofobia. Il dibattito pubblico oscilla tra idealizzazione e demonizzazione del migrante, trascurando

discriminazioni, fondamentalismi e la fuga dal paese di italiani e stranieri.

The New Geography of Jobs Enrico Moretti 2012 A rising young economist at Berkeley makes correlations between success and geography, explaining how such rising centers of innovation as San Francisco, Boston and Austin are likely to offer influential opportunities and shape the national and global economies in positive or detrimental ways.

The Recognition Principle Vinicio Busacchi 2015-02-27 This book responds to the need for a clearer understanding of issues related to the theme of recognition in various disciplinary fields in which it plays an important role, such as psychology, sociology and politics. The book also considers in particular detail the usefulness of a theoretical-speculative definition of the question of recognition. It also shows that no philosophy of recognition can be solidly built, or claim epistemic strength and practical-operational

psychological and anthropological excavation, without a specific 'discourse on man'. Through an engagement with such a discourse, this book is able to explore the concept of recognition as a general principle, namely the 'recognition principle'.

The Age of Discontinuity Peter F. Drucker 2011-12-31 The closing decades of the twentieth century have been characterized as a period of disruption and discontinuity in which the structure and meaning of economy, polity, and society have been radically altered. In this volume Peter Drucker focuses with great clarity and perception on the forces of change that are transforming the economic landscape and creating tomorrow's society. Drucker discerns four major areas of discontinuity underlying contemporary social and cultural reality. These are: (1) the explosion of new technologies resulting in major new industries; (2) the change from an international to a world economy—an economy that presently lacks policy, theory, and

institutions; (3) a new sociopolitical reality of pluralistic institutions that poses drastic political, philosophical, and spritual challenges; and (4) the new universe of knowledge based on mass education and its implications in work, leisure,

and leadership. Peter Drucker brings to this work an intimate knowledge and objective view of the particular and general. The Age of Discontinuity is a fascinating and important blueprint for shaping a future already very much with us.
