The Land Reform Deception Alexander Charles Laurie 2016
This work explores what is inarguably the most socially and economically transformative event in Zimbabwe since

independence in 1980-the land seizure era. It explains why Mugabe risked the social and economic well-being of Zimbabwe by targeting commercial farms, which were a vital source of commodities, a major employer, and a critical source of tax revenue. It also uncovers why the 'land redistribution program,' as Mugabe and the ruling ZANU-PF party claimed the takeovers to be, occurred 20 years after independence and in a very chaotic manner.

A Critical Survey of Studies on Malay and Bahasa

Indonesia A. Teeuw 2013-04-17 In this book I have aimed at completeness in the sense that all publications known to me, which are wholly or partly devoted to Malay and Bahasa Indonesia (B.I.), or are important for the study of these languages, have been included. Popular publications in non-professional periodicals have been included only exceptionally. All the publications mentioned in the text are incorporated in the Bibliography (p. 91-157). The countless articles in four post-war, semi-professional periodicals in : 'lalaya and Indonesia, Dewan Bahasa, Pembina Bahasa Indonesia. 11:1 edan Bahasa, Bahasa dan Budaja, are not mentioned separately in the Bibliography, but sections 33 to 36 contain a survey, as complete and systematic as possible, of the contents of these periodicals in so far as they pertain to the Malay language; nor have I discussed in the text or incorporated in the Bibliography several hundreds of titles of practical textbooks or school-books of Malay or B.I. which are of no importance to the scientific study of these language. These titles have been entered in a separate Appendix (p. 158--171). The fact that completeness was aimed at certainly does not mean that it has been achieved. Especially various recent writings from Indonesia and Malaya may have escaped my attention. Experience has

also proved that publications on Malay sometimes appear in the most unexpected places. The qualification above: "publications ... devoted to ... , or impor tant for the study of" Malay and B.I. has been taken in a wide sense.

Negative Indefinites Doris Penka 2011 In this book, Doris Penka delivers a cross-linguistic, unified analysis of the semantics and syntax of negative indefinites, as in the expressions nobody, nothing, no (as determiner), never and nowhere and their counterparts in other languages. While it is standard to assume that negative indefinites behave like negative quantifiers, the author argues that these expressions are not inherently negative and are only licensed by a covert negation. In an analysis motivated by three phenomena found in the structure and semantics of negative indefinites in different languages - namely negative concord (in which multiple occurrences of negative constituents express a single negation), split readings (in which negative and indefinite parts take scope independently of each other), and the limited distribution of negative indefinites in Scandinavian languages - Doris Penka considers data from a wide range of languages and reviews the most recent literature on

the semantics and syntax of negative indefinites. Her book will interest all linguists working on negation in particular and the syntax-semantics interface more generally.

The Grammar of English-Afrikaans Code Switching Ondene Van Dulm 2007 This dissertation focuses on structural aspects of code switching between South African English and Afrikaans. Specifically, the main aim is to investigate the merit of an account of intrasentential code switching in terms of feature checking theory, a theory associated with minimalist syntax. The hypothesis is that feature checking theory and its related principles and operations provides an adequate framework within which to characterise and explain structural aspects of English-Afrikaans intrasentential code switching. A number of word order differences between English and Afrikaans, specifically involving verb position, are analysed within the framework of feature checking theory, where the movement of lexical items is proposed to be driven by the need to check strong uninterpretable features associated with functional heads. The constructions include constructions with adverbs, focalisation and topicalisation constructions, embedded that and wh clauses, and yes-no questions. On the basis of the feature checking analyses, predictions are made regarding the well-formedness of constructions of these types in which code switching between English and Afrikaans occurs. The predictions are tested on the basis of data elicited from 30 fluent English-Afrikaans bilingual participants by means of (i) judgments of the relative well-formedness of visually-presented sentence pairs, (ii) judgments of the relative well-formedness of auditorily-presented utterance pairs, (iii) sentence construction, (iv) video clip description, and (v)

magnitude estimation of the relative well-formedness of visually-presented sentence sets. The results indicate support for some of the predictions, but uniform support for the hypothesis is not evident. Further linguistic factors playing a role in participants' performance are discussed. This dissertation is of interest to scholars in the field of bilingualism, particularly those interested in the application of syntactic theory to bilingual phenomena, and in experimental techniques tapping bilingual processing.

An Introduction to Classical Electromagnetic Radiation

Glenn S. Smith 1997-08-13 This book provides a thorough description of classical electromagnetic radiation, starting from Maxwell's equations, and moving on to show how fundamental concepts are applied in a wide variety of examples from areas such as classical optics, antenna analysis, and electromagnetic scattering. Throughout, the author interweaves theoretical and experimental results to help give insight into the physical and historical foundations of the subject. A key feature of the book is that pulsed and time-harmonic signals are presented on an equal footing. Mathematical and physical explanations are enhanced by a wealth of illustrations (over 300), and the book includes more than 140 problems. It can be used as a textbook for advanced undergraduate and graduate courses in electrical engineering and physics, and will also be of interest to scientists and engineers working in applied electromagnetics. A solutions manual is available on request for lecturers adopting the text.

Corpus Linguistics and African Englishes Alexandra U. Esimaje 2019-02-15 Corpus linguistics has become one of the most widely used methodologies across the different

linguistic subdisciplines; especially the study of world-wide varieties of English uses corpus-based investigations as one of the chief methodologies. This volume comprises descriptions of the many new corpus initiatives both within and outside Africa that aim to compile various corpora of African Englishes. Moreover, it contains cutting-edge corpus-based research on African Englishes and the use of corpora in pedagogic contexts within African institutions. This volume thus serves both as a practical introduction to corpus compilation (Part I of the book), corpus-based research (Part II) and the application of corpora in language teaching (Part III), and is intended both for those researchers not yet familiar with corpus linguistics and as a reference work for all international researchers investigating the linguistic properties of African Englishes.

The Development of Afrikaans Fritz Ponelis 1993 The development of Afrikaans is investigated within its sociohistorical context from the beginnings of the Afrikaans speech community in the 17th century to the present. Language contact in the loose and heterogeneous early Cape society gave rise to a divergent variety of Dutch later to be named Afrikaans. There was extensive borrowing as well as creolisation due to the strong presence of foreigners who had to acquire Dutch rapidly and under adverse social conditions. Changes in the linguistic core and functions of Afrikaans are set forth in a number of chapters.

Examining the Phenomenon of "Teaching Out-of-field"

Linda Hobbs 2019-01-01 This book identifies and surveys the major themes around 'out-of-field teaching', that is, teaching subjects or year levels without a specialization. This has been an issue in many countries

for some time, yet until recently there has been little formal research and poor policy responses to related problems. This book arises out of collaborations between members of an international group of researchers and practitioners from Australia, Germany, Ireland, England, South Africa, Indonesia and the United States. Cross-national comparisons of ideas through case studies, descriptions of practice and research data interrogates the experiences, practices, and contexts relating to out-of-field teaching. In particular, the book considers the phenomenon of out-of-field teaching in relation to national policy contexts, local school leadership practices, professional development. The book represents an essential contribution on a highly topical issue that has implications for quality and equitable education around the globe.

Language in South Africa Victor N. Webb 2002-01-01 A discussion of the role which language, or, more properly, languages, can perform in the reconstruction and development of South Africa. The approach followed in this book is characterised by a numbers of features - its aim is to be factually based and theoretically informed.

Orientalism Edward W. Said 2014-10-01 More than three decades after its first publication, Edward Said's groundbreaking critique of the West's historical, cultural, and political perceptions of the East has become a modern classic. In this wide-ranging, intellectually vigorous study, Said traces the origins of "orientalism" to the centuries-long period during which Europe dominated the Middle and Near East and, from its position of power, defined "the orient" simply

as "other than" the occident. This entrenched view continues to dominate western ideas and, because it does not allow the East to represent itself, prevents true understanding. Essential, and still eye-opening, *Orientalism* remains one of the most important books written about our divided world.

Promoting Social Cohesion Through Education Eluned Roberts-Schweitzer 2006-01-01 This volume has three foci - the rationale for considering how aspects of education can affect social cohesion; case studies that review particular country experiences with curricula and textbooks; and practical guidelines and applications to help countries improve areas of education.

Academic Literacy Albert Weideman 2007-01-01 Academic literacy - prepare to learn is different from traditional courses in that it is task-based: it requires of language learners who are developing their academic literacy to do authentic academic tasks and to solve real academic problems.

Dialect Change Peter Auer 2005-06-17 Dialects are constantly changing, and due to increased mobility in more recent years, European dialects have 'levelled', making it difficult to distinguish a native of Reading from a native of London, or a native of Bonn from a native of Cologne. This comprehensive study brings together a team of leading scholars to explore all aspects of recent dialect change, in particular dialect convergence and divergence. Drawing on examples from a wide range of European countries - as well as areas where European languages have been transplanted - they examine a range of issues relating to dialect contact

and isolation, and show how sociolinguistic conditions differ hugely between and within European countries. Each specially commissioned chapter is based on original research, giving an overview of work on that particular area and presenting case studies to illustrate the issues discussed. Dialect Change will be welcomed by all those interested in sociolinguistics, dialectology, the relevance of language variation to formal linguistic theories, and European languages.

Fiela's Child Dalene Matthee 1992-09 Set in nineteenth-century rural Africa, *Fiela's Child* tells the gripping story of Fiela Komoetie and a white, three-year old child, Benjamin, whom she finds crying on her doorstep. For nine years Fiela raises Benjamin as one of her own children. But when census takers discover Benjamin, they send him to an illiterate white family of woodcutters who claim him as their son. What follows is Benjamin's search for his identity and the fundamental changes affecting the white and black families who claim him. "Everything a novel can be: convincing, thought-provoking, upsetting, unforgettable, and timeless."—Grace Ingoldby, *New Statesman* "*Fiela's Child* is a parade that broadens and humanizes our understanding of the conflicts still affecting South Africa today."—Francis Levy, *New York Times Book Review* "A powerful creation of time and place with dark threads of destiny and oppression and its roots in the almost Biblical soil of a storyteller's art."—Christopher Wordsworth, *The Guardian* "The characters in the novel live and breathe; and the landscape is so brightly painted that the trees, birds, elephants, and rivers of old South Africa are characters themselves. A book not to miss."—Kirkus Reviews

Van Afrikaans gepraat Christo van Rensburg 2018-11-01 'n Nuwe boek oor Afrikaans se Afrika-komvandaan Van Afrikaans gepraat 'n splinternuwe boek deur Christo van Rensburg is nou te koop. Waar het Afrikaans begin? Wie het eerste Afrikaans gepraat? Was die Kaap regtig Hollands? Hoe het die Khoi en die Portugese met mekaar handel gedryf? Watter rol het slawe gespeel in die ontstaan van Afrikaans? Wat is die invloed van townships op Afrikaans? Hoe het die verskeie trekke Afrikaans beïnvloed? Die taalkontak wat daaruit gevolg het of selfs ook die vrees vir taalkontak is een van Afrikaans se belangrike stories. Die skryf van Afrikaans het op verskillende maniere begin met sterk invloede uit die Islam. Afrikaans se standaardisering gaan met heelwat vertellings gepaard. Van Afrikaans gepraat is ook in Engels beskikbaar as *Finding Afrikaans*. To make matters worse, the house they are going to live in is an ancient Victorian place.

Mission as Ministry of Reconciliation Robert L Schreiter 2013 Mission as Ministry of Reconciliation offers a valuable elucidation of the importance mission as ministry of reconciliation. It expounds on the practical implications of this understanding in a variety of settings. It brings together perspectives from different church traditions, including the Lausanne Movement and the Catholic Church, and also speaks about the socio-ethical implications of mission. In short, this rich book affirms that there is hope--even if it is hope in a fragile world, as the concluding chapter puts it. At the very heart of the gospel of Jesus Christ is a message of hope and reconciliation. Nothing could be more relevant or necessary in a broken world, and this book centers such a message at the heart of mission.

Language Policy and Nation-Building in Post-Apartheid

South Africa Jon Orman 2008-08-27 The preamble to the post-apartheid South African constitution states that 'South Africa belongs to all who live in it, united in our diversity' and promises to 'lay the foundations for a democratic and open society in which government is based on the will of the people and every citizen is equally protected by law' and to 'improve the quality of life of all citizens'. This would seem to commit the South African government to, amongst other things, the implementation of policies aimed at fostering a common sense of South African national identity, at societal development and at reducing of levels of social inequality. However, in the period of more than a decade that has now elapsed since the end of apartheid, there has been widespread discontent with regard to the degree of progress made in connection with the realisation of these constitutional aspirations. The 'limits to liberation' in the post-apartheid era has been a theme of much recent research in the fields of sociology and political theory (e. g. Luckham, 1998; Robins, 2005a). Linguists have also paid considerable attention to the South African situation with the realisation that many of the factors that have prevented, and are continuing to prevent, effective progress towards the achievement of these constitutional goals are linguistic in their

origin.
