Getting Off the Planet Mary Jane Chambers 2005 Today, the training of American astronauts is almost taken for granted, but prior to 1961 no one knew whether humans could function in space at all. Space suits, working in free fall, and surviving the punishing accelerations of launch and re-entry were all complete unknowns. It was well recognised that if we were to send men into space, they would first have to be extensively trained. But

what was that training to consist of? And exactly who would provide the training? As it turns out, the training was, at times, as dangerous and demanding as the space flights that followed -- for the training experts as well as the astronauts. At the forefront of the effort to train America's astronauts was Dr Randall Chambers. Over the course of a long and distinguished career he turned his mind (and body) to a wide variety of disciplines, in order to best prepare our astronauts for space flight. It was not unusual for Dr Chambers to put himself in the astronaut's position, literally -- before he would put the astronaut there. Dr Chambers and his co-workers not only had to be the very best in their profession, they had to define and refine that profession as they went along -- pioneers in the truest sense of the word. As the requirements and demands of human space activities increased, the lives of the astronauts were

completely dependent on their trainers always being one step ahead of them. Career journalist Mary Jane Chambers has witnessed her husband's career first hand, and has worked with him to present a story that non-scientists will enjoy -- no equations, no charts; but rather a human tale of amazing people. This book is the story of a dedicated man of science, a friend of the astronauts, and an unsung hero of the space age. Behind every successful space program there are special people with the dedication of Dr Randall Chambers.

you' and 'yes now'—and even shows you how to jump in.” —Van Jones, host of CNN's The Messy Truth, author of Rebuild the Dream and The Green Collar Economy “The Power of Onlyness is a book for our times. . . . Merchant forces us to dig deep, into the book and ourselves, and it goes beyond self-knowledge and self-empowerment, obliterating the fear of otherness with an understanding of the onlyness of us all.” —Sally Haldorson, 800-CEO-READ An innovation expert illuminates why your power to make a difference is no longer bound by your status If you're like most people, you wish you had the ability to make a difference, but you don't have the credentials, or a seat at the table, can't get past the gatekeepers, and aren't high enough in any hierarchy to get your ideas heard. In The Power of Onlyness, Nilofer Merchant, one of the world's top-ranked business thinkers, reveals that, in fact, we *Going Wild Pilot Projects Take Off Childrensmuseums Pdf Pdf upload Dona p Williamson*

have now reached an unprecedented moment of opportunity for your ideas to “make a dent” on the world. Now that the Internet has liberated ideas to spread through networks instead of hierarchies, power is no longer determined by your status, but by “onlyness”—that spot in the world only you stand in, a function of your distinct history and experiences, visions and hopes. If you build upon your signature ingredient of purpose and connect with those who are equally passionate, you have a lever by which to move the world. This new ability is already within your grasp, but to command it, you need to know how to meaningfully mobilize others around your ideas. Through inspirational and instructive stories, Merchant reveals proven strategies to unleash the centrifugal force of a new idea, no matter how weird or wild it may seem. Imagine how much better the world could be if every idea could have its shot, *Downloaded from vla.ramtech.uri.edu on September 28, 2023 by Dona p Williamson*

not just the ones that come from expected people and places. Which long-intractable problems would we solve, what new levels of creativity would be unlocked, and who might innovate a breakthrough that could benefit ourselves, our communities, and especially our economy. This limitless potential of onliness has already been recognized by Thinkers 50, the Oscars of management, which cited it one of the five ideas that will shape business for next twenty years. Why do some individuals make scalable impact with their ideas, regardless of their power or status? The Power of Onliness unravels this mystery for the first time so that anyone can make a dent. Even you.
