From Text to Literature S. Olsen 2005-09-14 The articles in this collection focus attention on the concept of literature and on the relationship between this concept and the concepts of a literary work and a literary text. Adopting an analytic approach, the articles attempt to clarify how these concepts govern our thinking about the phenomenon of literature in various ways, exploring the issues which arise when these concepts are employed as theoretical instruments for describing and analyzing the phenomenon of literature.

Biblical Interpretation W. Randolph Tate 2008-05-01 This comprehensive exploration of the interpretive process, now available in paperback, has served as a successful textbook. It focuses on the three "worlds" of

biblical interpretation--the world of the author, the world of the text, and the world of the reader--to help students develop an integrated hermeneutical strategy. The book offers clear explanations of interpretive approaches, which are supported by helpful biblical examples, and succinct synopses of various interpretive methods. Pedagogical aids include end-of-chapter review and study sections with key terms, study questions, and suggestions for further reading.

Approaches to Literary Readings of Ancient Jewish Writings Klaas Smelik 2013-09-26 In this volume twelve contributions discuss the relevance, accuracy, potential, and possible alternatives to a literary reading of ancient Jewish writings, especially the Hebrew Bible.

Exercises in Criticism Louis Bury 2014 *Exercises in Criticism* is an experiment in applied poetics in which critic and poet Louis Bury utilizes constraint-based methods in order to write about constraint-based literature. By tracing the lineage and enduring influence of early Oulipian classics, he argues that contemporary American writers have, in their adoption of constraint-based methods, transformed such methods from apolitical literary laboratory exercises into a form of cultural critique, whose usage is surprisingly widespread, particularly among poets and "experimental" novelists. More, Bury's own use of critical constraints functions as a commentary on how and why we write and talk about books, culture, and ideas.

The Reception of Northrop Frye 2021-08-31 The widespread opinion is that Northrop Frye's influence reached its zenith in the 1960s and 1970s, after which point he became obsolete, his work buried in obscurity. This almost universal opinion is summed up in Terry Eagleton's 1983 rhetorical question, "Who now reads Frye?" In *The Reception of Northrop Frye*, Robert D. Denham catalogues what has been written about Frye – books, articles, translations, dissertations and theses, and reviews – in order to demonstrate that the attention Frye's work has received from the beginning has progressed at a geomantic rate. Denham also explores what we can discover once we have a fairly complete record of Frye's reception in front of us – such as Hayden White's theory of emplotments applied to historical writing and Byron Almén's theory of musical narrative. The

sheer quantity of what has been written about Frye reveals that the only valid response to Eagleton's rhetorical question is "a very large and growing number," the growth being not incremental but exponential.

How Prophecy Works William L. Kelly 2019-12-09 There is a longstanding scholarly debate on the nature of prophecy in ancient Israel. Until now, no study has based itself on the semantics of the Hebrew lexeme *n̄bî* ("prophet"). This investigation by William L. Kelly discusses the nature and function of prophecy in the corpus of the Hebrew book of Jeremiah. It analyses all occurrences of *n̄bî* in Jeremiah and performs a close reading of three primary texts, Jeremiah 1.4–19, 23.9–40 and 27.1–28.17. The result is a detailed explanation of how prophecy works, and what it meant to call someone a *n̄bî* in ancient Israel. Combining the results of the semantic analysis and close readings, the study reaches conclusions for six main areas of study: (1) the function and nature of prophecy; (2) dreams and visions; (3) being sent; (4) prophets, priests and cult; (5) salvation and doom; and (6) legitimacy and authority. These conclusions explain the conceptual categories related to *n̄bî* in the corpus. I then situate these findings in two current debates, one on the definition of *n̄bî* and one on cultic prophecy. This study contributes to critical scholarship on prophecy in the ancient world, on the book of Jeremiah, and on prophets in ancient Israel. It is the first major study to analyse *n̄bî* based on its semantic associations. It adds to a growing consensus which understands prophecy as a form of divination. Contrary to some trends in Jeremiah scholarship, this work demonstrates the importance of a close reading of the Masoretic (Hebrew) text. This study uses a method of a general nature which can be applied to other texts. Thus there are significant implications for further research on prophecy and prophetic literature.

Fault Lines and Controversies in the Study of Seventeenth-century English Literature Claude J. Summers 2002 Written by various experts in the field, this volume of thirteen original essays explores some of the most significant theoretical and practical fault lines and controversies in seventeenth-century English literature. The turn into the twenty-first century is an appropriate time to take stock of the state of the field, and, as part of that stocktaking, the need arises to assess both where literary study of the early modern period has been and where it might desirably go. Hence, many of the essays in this collection look both backward and forward. They chart the changes in the field over the past half century, while also looking forward to more change in the future.

Uttering the Unutterable Louis F. Groarke 2023-01-15 Literature utters the unutterable, not through logic, not through science, not through argument, but through a pitch of eloquence so pronounced the conscientious reader cannot fail to pay attention. Louis Groarke argues that literature is an honorific term we use to describe texts that are so overpowering they lift us to an encounter with an ineffable ultimate that is beyond logical or

scientific explanation. In *Uttering the Unutterable* he proposes a wisdom epistemology that identifies an experience of transcendence as the defining criterion of literature. Offering four mutually reinforcing definitions of literature in line with Aristotle's theory of four causes, Groarke compares the experience of reading to Aristotle's account of philosophical contemplation and maintains that literature has inevitable ethical content. Moving beyond the Aristotelianism of the late Chicago School, Groarke presents a new synthesis that breaks through essentialist stereotypes and contends that literature, like religion, points to an ineffable transcendental, to something beyond what we can adequately explain, prove, systematize, quantify, or enclose in a theory. *Uttering the Unutterable* explores how Aristotelian philosophy provides the most complete and compelling account of literature for philosophers, literary critics, and theorists.

The Origins of Russian Literary Theory Jessica Merrill 2022-07-15 Russian Formalism is widely considered the foundation of modern literary theory. This book reevaluates the movement in light of the current commitment to rethink the concept of literary form in cultural-historical terms. Jessica Merrill provides a novel reconstruction of the intellectual historical context that enabled the emergence of Formalism in the 1910s. Formalists adopted a mode of thought Merrill calls the philological paradigm, a framework for thinking about language, literature, and folklore that lumped them together as verbal tradition. For those who thought in these terms, verbal tradition was understood to be inseparable from cultural history. Merrill situates early literary theories within this paradigm to reveal abandoned paths in the history of the discipline—ideas that were discounted by the structuralist and post-structuralist accounts that would emerge after World War II. *The Origins of Russian Literary Theory* reconstructs lost Formalist theories of authorship, of the psychology of narrative structure, and of the social spread of poetic innovations. According to these theories, literary form is

always a product of human psychology and cultural history. By recontextualizing Russian Formalism within this philological paradigm, the book highlights the aspects of Formalism's legacy that speak to the priorities of twenty-first-century literary studies.

Theory of Literature Rene Wellek 2024-04-02 Theory of Literature was born from the collaboration of Ren Wellek, a Vienna-born student of Prague School linguistics, and Austin Warren, an independently minded "old New Critic." Unlike many other textbooks of its era, however, this classic kowtows to no dogma and toes no party line. Wellek and Warren looked at literature as both a social product--influenced by politics, economics, etc.--as well as a self-contained system of formal structures. Incorporating examples from Aristotle to Coleridge, written in clear, uncondescending prose, Theory of Literature is a work which, especially in its suspicion of simplistic explanations and its distrust of received wisdom, remains extremely relevant to the study of literature today.

Narrative Form S. Keen 2003-11-13 This handbook concisely introduces narrative form to advanced students of fiction. Beginning with a survey of major theorists and approaches, and using clearly defined terms, Narrative Form explains critical vocabulary and offers a variety of strategies for analyzing the formal qualities of fiction. Keen suggests that interpretations of form can be effectively integrated with contemporary approaches to literature, including feminist, postcolonial, and cultural studies methodologies. Narrative Form shows how to use the language of formal analysis accurately and innovatively.

Digital Critical Editions Daniel Apollon 2014-07-15 Provocative yet sober, Digital Critical Editions examines how transitioning from print to a digital milieu deeply affects how scholars deal with the work of editing critical texts. On one hand, forces like changing technology and evolving reader expectations lead to the

development of specific editorial products, while on the other hand, they threaten traditional forms of knowledge and methods of textual scholarship. Using the experiences of philologists, text critics, text encoders, scientific editors, and media analysts, Digital Critical Editions ranges from philology in ancient Alexandria to the vision of user-supported online critical editing, from peer-directed texts distributed to a few to community-edited products shaped by the many. The authors discuss the production and accessibility of documents, the emergence of tools used in scholarly work, new editing regimes, and how the readers' expectations evolve as they navigate digital texts. The goal: exploring questions such as, What kind of text is produced? Why is it produced in this particular way? Digital Critical Editions provides digital editors, researchers, readers, and technological actors with insights for addressing disruptions that arise from the clash of traditional and digital cultures, while also offering a practical roadmap for processing traditional texts and collections with today's state-of-the-art editing and research techniques thus addressing readers' new emerging reading habits.

Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline. As with any body of scholarship, various schools of thought exist, and sometimes conflict, within it. I.R. Makaryk has compiled a welcome guide to the field. Accessible and jargon-free, the Encyclopedia of Contemporary Literary Theory provides lucid, concise explanations of myriad approaches to literature that have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new

schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools, and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements, as well as the influence, of specific scholars, and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant, complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini-bibliographies, and cross-referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture.

Early Israel Alex Shalom Kohav 2022-11-29 Early Israel offers the most sweeping reinterpretation of the Pentateuch since the nineteenth-century Documentary Hypothesis. Engaging a dozen-plus modern academic disciplines—from anthropology, biblical studies, Egyptology and semiotics, to linguistics, cognitive poetics and consciousness studies; from religious studies, Jewish studies, psychoanalysis and literary criticism, to mysticism studies, cognitive psychology, phenomenology and philosophy of mind—it wrests from the

Pentateuch an outline of the heretofore undiscovered ancient Israelite mystical-initiatory tradition of the First Temple priests. The book effectively launches a new research area: Pentateuchal esoteric mysticism, akin to a "center" or "organizing principle" discussed in biblical theology. The recovered priestly system is discordant vis-à-vis the much-later rabbinical project. This volume appeals to a diverse academic community, from Biblical and Jewish studies to literary studies, religious studies, anthropology, and consciousness studies.

Rehabilitating Literary Theory Khaled Besbes 2011 The present work seeks to bring literary theory in line with the most recent practical turn the humanities are witnessing. When simplified, succinctly presented, and skillfully used in multi-coded interpretation within a semiocritical framework, literary theories become practical exercises in criticism, not only facilitating the interpretation of literature, but also making it more enjoyable and more rewarding. This book is different from its counterparts in the sense that it includes an exceptionally expanded model of the practice of literary theories, and replaces long and theoretical discussions with brief synopses of the examined theories. It relies on less-overused texts for illustration as it compiles and organizes the terms and phrases that are often used by the proponents of the discussed theories. The most influential literary theories that have so far been developed in academia are included: the New Criticism, reader-response criticism, structuralism, deconstruction, feminism, Marxism, psychoanalytic criticism, linguistic criticism, cultural materialism, new historicism, postcolonialism, and semiotics. Through eliminating the excesses made in the name of theory, this book will restore the faith of students, teachers, and practitioners in the useful and enduring nature of literary theory for the analysis and appreciation of literature.

Central and Eastern European Literary Theory and the West Michał Mrugalski 2022-12-05 Literary theory flourished in Central and Eastern Europe throughout the twentieth century, but its relation to Western literary scholarship is complex. This book sheds light on the entangled histories of exchange and influence both within the region known as Central and Eastern Europe, and between the region and the West. The exchange of ideas between scholars in the East and West was facilitated by both personal and institutional relations, both official and informal encounters. For the longest time, however, intellectual exchange was thwarted by political tensions that led to large parts of Central and Eastern Europe being isolated from the West. A few literary theories nevertheless made it into Western scholarly discourses via exiled scholars. Some of these scholars, such as Mikhail Bakhtin, become widely known in the West and their thought was transposed onto new, Western cultural contexts; others, such as Olga Freidenberg, were barely noticed outside of Russian and Poland. This volume draws attention to the schools, circles, and concepts that shaped the development of theory in Central and Eastern Europe as well as the *histoire croisée* – the history of translations,

transformations, and migrations – that conditioned its relationship with the West.

Landscape Theory in Design Susan Herrington 2016-12-08 Phenomenology, Materiality, Cybernetics, Palimpsest, Cyborgs, Landscape Urbanism, Typology, Semiotics, Deconstruction - the minefield of theoretical ideas that students must navigate today can be utterly confusing, and how do these theories translate to the design studio? *Landscape Theory in Design* introduces theoretical ideas to students without the use of jargon or an assumption of extensive knowledge in other fields, and in doing so, links these ideas to the processes of design. In five thematic chapters Susan Herrington explains: the theoretic groundings of the theory of philosophy, why it matters to design, an example of the theory in a work of landscape architecture from the twentieth and twenty-first centuries, debates surrounding the theory (particularly as they elaborate modern and postmodern thought) and primary readings that can be read as companions to her text. An extensive glossary of theoretical terms also adds a vital contribution to students’ comprehension of theories relevant to the design of landscapes and gardens. Covering the design of over 40 landscape architects, architects, and designers in 111 distinct projects from 20 different countries, *Landscape Theory in Design* is essential reading for any student of the landscape.
