The Masonic Trowel 1867
Early English Poetry, Ballads and Popular Literature of the Middle Ages Percy Society 1842
The Middle Ages Morris Bishop 2001 In this single

indispensable volume, one of America's ranking scholars combines a life's work of research and teaching with the art of lively narration. Both authoritative and beautifully told, THE MIDDLE AGES is the full story of the thousand years between the fall of Rome and the Renaissance -- a time that saw the rise of

kings and emperors, the flowering of knighthood, the development of Europe, the increasing power of the Church, and the advent of the middle class. With exceptional grace and wit, Morris Bishop vividly reconstructs this distinctive era of European history in a work that will inform and delight scholars and general readers alike.

The Later Middle Ages, 1272-1485 George Holmes 1966

English life in the thirteenth century was characterized by: a single Christian Church owing allegiance to Rome and living on the revenues of its estates; kingship with difficulty kept intact in the face of scheming magnates jealous of their privileges; a countryside divided into thousands of small estates, tilled by peasants--some of them serfs--and owned by lords with considerable power over their tenants; armies of knights fighting on horseback; Gothic cathedrals; monasteries; castles; town gilds. Professor Holmes describes this medieval society and its evolution, after the Black Death, into a somewhat different kind of society in the late fifteenth century. He argues that the population decrease as a result of the plague, beginning in 1349,

brought about fundamental transformations: village life changed, serfdom disappeared, the great estates became less important, industry grew, and the commodities and directions of trade changed.

A Literary History of Iowa Clarence A. Andrews 1972 Originally published in 1972, *A Literary History of Iowa*, which features writers published in book form between 1856 and the late 1960s, returns to print. One of Iowa's native sons, Ellis Parker Butler, once said that in Iowa 12 dollars were spent for fertilizer each time a dollar was spent for literature. Many readers will be surprised to learn from this book the extent of Iowa's distinguished literary past--the many prizes and praise received by her authors. To those already familiar with Iowa's credits, *A Literary History of Iowa* will be a nostalgic and informative delight. During the 1920s and 1930s, Iowa had good claim to recognition as the literary capital of the country. Clarence Andrews says that as he grew up he knew a host of Iowa writers. "I also knew that Iowa was winning a disproportionate share of the Pulitzer Prizes---Hamlin Garland, Margaret Wilson, Susan

Glaspell, Frank Luther Mott, "Ding" Darling, Clark Mollenhoff. It was winning its share or more of prizes offered by publishers---and its authors' books were being selected as Book-of-the-Month and Literary Guild books. I knew too about Carl Van Vechten as part of that avant-garde group of midwest exiles---including Fitzgerald, Anderson, and Hemingway." *A Literary History of Iowa* looks at Iowans who knew and cared for the state---people who wrote poetry, plays, musical plays, novels, and short stories about Iowa subjects, Iowa ideas, Iowa people. These writers often have dealt with such themes as the state's history, the rise of technology and its impact on the community, provincialism and exploitation, the problems of personal adjustment, and the family and the community. John T. Frederick, whose own books are paramount in Iowa's literary history, has pointed to Iowa's special contributions to the literature of rural life in saying that no other state can show its portrayal in "fiction so rich, so varied, and so generally sound as can Iowa."
