**Theories and Models of Urbanization** Denise Pumain 2020-01-02 This book provides a thorough discussion about fundamental questions regarding urban theories and modeling. It is a curated collection of contributions to a workshop held in Paris on October 12th and 13th 2017 at the Institute of Complex Systems by the team of ERC GeoDiverCity. There are several chapters conveying the answers given by single authors to problems of conceptualization and modeling and others in which scholars reply to their conception and question them. Even, the chapters transcribing keynote presentations were rewritten according to contributions from the respective discussions. The result is a complete "state of the art" of what is our knowledge about urban processes and their possible formalization.

[The Oxford Handbook of Religion and Violence](#) Mark Juergensmeyer 2015-11 Violence has always played a part in the religious imagination, from symbols and myths to legendary battles, from colossal wars to the theater of terrorism. The Oxford Handbook of Religion and Violence surveys intersections between religion and violence throughout history and around the world. The forty original essays in this volume include overviews of major religious traditions, showing how violence is justified within the literary and theological foundations of the tradition, how it is used symbolically and in ritual practice, and how social acts of violence and warfare have been justified by religious ideas. The essays also examine patterns and themes relating to religious violence, such as sacrifice and martyrdom, which are explored in cross-disciplinary or regional analyses; and offer major analytic approaches, from literary to social scientific studies. The contributors to this volume--innovative thinkers who are forging new directions in theory and analysis related to religion and violence--provide novel insights into this important field of studies. By mapping out the whole field of religion and violence, The Oxford Handbook of Religion and Violence will prove an authoritative source for students and scholars for years to come.

[Islam, Sufism and Everyday Politics of Belonging in South Asia](#) Deepra Dandekar 2016-09-13 This book looks at the study of ideas, practices and institutions in South Asian Islam, commonly identified as 'Sufism', and how they relate to politics in South Asia. While the importance of Sufism for the lives of South Asian Muslims has been repeatedly asserted, the specific role played by Sufism in contestations over social and political belonging in South Asia has not yet been fully analysed. Looking at examples from five countries in South Asia (India, Pakistan, Bangladesh, Sri Lanka, and Afghanistan), the book begins with a detailed introduction to political concerns over 'belonging' in relation to questions concerning Sufism and Islam in South Asia. This is followed with sections on Producing and Identifying Sufism; Everyday and Public Forms of Belonging; Sufi Belonging, Local and National; and Intellectual History and Narratives of Belonging. Bringing together scholars from diverse disciplines, the book explores the connection of Islam, Sufism and the Politics of Belonging in South Asia. It is an important contribution to South Asian Studies, Islamic Studies and South Asian Religion.

[Buddhist Fury](#) Michael K. Jerryson 2011-07-28 Buddhist violence is not a well-known concept. In fact, it is generally considered an oxymoron. An image of a Buddhist monk holding a handgun or the idea of a militarized Buddhist monastery tends to stretch the imagination; yet these sights exist throughout southern Thailand. Michael Jerryson offers an extensive examination of one of the least known but longest-running conflicts of Southeast Asia. Part of this conflict, based primarily in Thailand's southernmost provinces, is fueled by religious divisions. Thailand's total population is over 92 percent Buddhist, but over 85 percent of the people in the southernmost provinces are Muslim. Since 2004, the Thai government has imposed martial law over the territory and combatted a grass-roots militant Malay Muslim insurgency. Buddhist Fury reveals the Buddhist parameters of the conflict within a global context. Through fieldwork in the conflict area, Jerryson chronicles the habits of Buddhist monks in the militarized zone. Many Buddhist practices remain unchanged. Buddhist monks continue to chant, counsel the laity, and accrue merit. Yet at the same time, monks zealously advocate Buddhist nationalism, act as covert military officers, and equip themselves with guns. Buddhist Fury displays the methods by which religion alters the nature of the conflict and shows the dangers of this transformation.

[Buddhist Warfare](#) Michael Jerryson 2010-01-08 This book offers eight essays examining the dark side of a tradition often regarded as the religion of peace. The authors note the conflict between the Buddhist norms of non-violence and the prohibition of the killing of sentient beings and acts of state violence supported by the Buddhist community (sangha), acts of civil violence in which monks participate, and Buddhist intersectorian violence.

[The Buddha on Mecca's Verandah](#) Irving Chan Johnson 2013-01-10 The Buddha on Mecca's Verandah examines the many ways in which people living along an international border negotiate their ethnic, cultural, and political identities. This ethnography of a small community of Thai Buddhists in the Malaysian state of Kelantan draws on rich, original vignettes to show how issues such as territoriality, identity, and power frame the experiences of borderland residents. Although the Thai represent less than 10 percent of the Kelantan population, they are vocal about their identity as non-Muslim, non-Malay citizens. They have built some of

the world's largest Buddhist statues in their tiny villages, in a state that has traditionally been a seat of Islamic governance. At the same time, the Thai grapple with feelings of social and political powerlessness, being neither Thai citizens nor Muslim Malaysians. This thoughtful study offers new perspectives and challenges the classical definition of boundaries and borders as spaces that enforce separation and distance. With insights applicable to comparative border and frontier studies around the world, *The Buddha on Mecca's Verandah* will appeal not only to anthropologists but also to specialists in Asian and Southeast Asian studies, cultural geography, religious and ethnic studies, globalization, and cosmopolitanism.

*Contesting Buddhist Narratives* Matthew J. Walton 2014 Myanmar's transition to democracy has been marred by violence between Buddhists and Muslims. While the violence originally broke out between Rakhine Buddhists and Rohingya Muslims, it subsequently emerged throughout the country, impacting Buddhists and Muslims of many ethnic backgrounds. This article offers background on these so-called "communal conflicts" and the rise and evolution of Buddhist nationalist groups led by monks that have spearheaded anti-Muslim campaigns. The authors describe how current monastic political mobilization can be understood as an extension of past monastic activism, and is rooted in traditional understandings of the monastic community's responsibility to defend the religion, respond to community needs, and guide political decision-makers. The authors propose a counter-argument rooted in Theravada Buddhism to address the underlying anxieties motivating Buddhist nationalists while directing them toward peaceful actions promoting coexistence. Additionally, given that these conflicts derive from wider political, economic, and social dilemmas, the authors offer a prescription of complementary policy initiatives.--Résumé de l'éditeur.

*Buddhist-Muslim Relations in a Theravada World* Iselin Frydenlund 2020-02-28 This book is the first to critically analyze Buddhist-Muslim relations in Theravada Buddhist majority states in South and Southeast Asia. Asia is home to the largest population of Buddhists and Muslims. In recent years, this interfaith communal living has incurred conflicts, such as the ethnic-religious conflicts in Myanmar, Sri Lanka, and Thailand. Experts from around the world collaborate to provide a comprehensive look into religious pluralism and religious violence. The book is divided into two sections. The first section provides historical background to the three countries with the largest Buddhist-Muslim relations. The second section has chapters that focus on specific encounters between Buddhists and Muslims, which includes anti-Buddhist sentiments in Bangladesh, the role of gender in Muslim-Buddhist relations and the rise of anti-Muslim and anti-Rohingya sentiments in Myanmar. By exploring historical fluctuations over time—paying particular attention to how state-formations condition Muslim-Buddhist entanglements—the book shows the processual and relational aspects of religious identity constructions and Buddhist-Muslim interactions in Theravada Buddhist majority states.

*Military Pilgrimage and Battlefield Tourism* John Eade 2017-10-02 Military Pilgrimage and Battlefield Tourism is the first volume to bring together a detailed analysis of professional military pilgrimage with other forms of commemorating military conflict. The volume looks beyond the discussion of battlefield tourism undertaken primarily by civilians which has dominated research until now through an analysis of the relationship between religious, military and civilian participants. Drawing on a comparative approach towards what has mostly been categorised as secular pilgrimage, dark tourism/thanatourism, military and religious tourism, and re-enactment, the contributors explore the varied ways in which memory, material culture and rituals are performed at particular places. The volume also engages with the debate about the extent to which western definitions of pilgrimage and tourism, as well as such related terms as religion, sacred and secular, can be applied in non-western contexts.

**Muslim Merit-making in Thailand's Far-South** Christopher M. Joll 2011-11-02 This volume provides an ethnographic description of Muslim merit-making rhetoric, rituals and rationales in Thailand's Malay far-south. This study is situated in Cabetigo, one of Pattani's oldest and most important Malay communities that has been subjected to a range of Thai and Islamic influences over the last hundred years. The volume describes religious rhetoric related to merit-making being conducted in both Thai and Malay, that the spiritual currency of merit is generated through the performance of locally occurring Malay adat, and globally normative amal 'ibadat. Concerning the rationale for merit-making, merit-makers are motivated by both a desire to ensure their own comfort in the grave and personal vindication at judgment, as well as to transfer merit for those already in the grave, who are known to the merit-maker. While the rhetoric elements of Muslim merit-making reveal Thai influence, its ritual elements confirm the local impact of reformist activism.

**If You Meet the Buddha on the Road** Michael Jerryson 2018-03-27 It is said that the famous ninth century Chinese Buddhist monk Linji Yixuan told his disciples, "If you meet the Buddha on the road, kill him." The deliberately confounding statement is meant to shock people out of complacent ways of thinking. But beyond the purposeful jolt from complacency there is another intention. This axiom suggests that, for liberation, one should seek the Buddha nature that resides within, rather than a mere Buddha exterior. The metaphor of killing the Buddha dislodges a person from the illusion that enlightenment lies outside the body. The proclamation also highlights the power of violence, even on a symbolic level. Violence abounds in Buddhist thoughts, doctrine, and actions, however unacknowledged or misunderstood. If You Meet the Buddha on the Road addresses an important absence in the study of religion and violence: the religious treatment of violence. In order to pursue an understanding of the relationship between Buddhism and violence, it is important to first consider how Buddhist scriptures and followers understand violence. Drawing on Buddhist treatments of violence, Michael Jerryson explores the ways in which Buddhists invoke, support, or justify war, conflict, state violence, and gender discrimination. In addition, the book examines the ways in which Buddhists address violence as military chaplains, cope with violence in a conflict zone, and serve as witnesses of blasphemy to Buddhist doctrine and Buddha images.

*Exploring Confrontation* Michael Roberts 1994 First Published in 1995. Routledge is an imprint of Taylor & Francis, an informa company.

*Buddhism and Islam on the Silk Road* Johan Elverskog 2011-06-06 In the contemporary world the meeting of Buddhism and Islam is most often imagined as one of violent confrontation. Indeed, the Taliban's destruction of the Bamiyan Buddhas in 2001 seemed not only to reenact the infamous Muslim destruction of Nalanda monastery in the thirteenth century but also to reaffirm the stereotypes of Buddhism as a peaceful, rational philosophy and Islam as an inherently violent and irrational religion. But if Buddhist-Muslim history was simply repeated instances of Muslim militants attacking representations of the Buddha, how had the Bamiyan Buddha statues survived thirteen hundred years of Muslim rule? Buddhism and Islam on the Silk Road demonstrates that the history of Buddhist-Muslim interaction is much richer and more complex than many assume. This groundbreaking book covers Inner Asia from the eighth century through the Mongol empire and to the end of the Qing dynasty in the late nineteenth century. By exploring the meetings between Buddhists and Muslims along the Silk Road from Iran to China over more than a millennium, Johan Elverskog reveals that this long encounter was actually one of profound cross-cultural exchange in which two

religious traditions were not only enriched but transformed in many ways.

**Buddhist Extremists and Muslim Minorities** John Clifford Holt 2016 When the civil war in Sri Lanka between Sinhala Buddhists and Tamils ended in 2009, many Sri Lankans and foreign observers alike hoped to see the re-establishment of relatively harmonious religious and ethnic relations among the various communities in the country. Instead, a different type of violence erupted, this time aimed at the Muslim community. The essays in *Buddhist Extremists and Muslim Minorities* investigate the history and current state of Buddhist-Muslim relations in Sri Lanka, in an attempt to identify the causes of this newly emergent conflict. Euro-American readers unfamiliar with this story will be surprised to learn that it inverts common stereotypes of the two religious groups. In this context, certain groups of Buddhists, generally considered peace-oriented in the West, are engaged in victimizing Muslims, who are increasingly seen as militant. The authors examine the historical contexts and substantive reasons that gave rise to Buddhist nationalism and aggressive attacks on Muslim communities. The rise of Buddhist nationalism in general is analyzed and explained, while the specific role, methods, and character of the militant Bodu Bala Sena (Army of Buddhist Power) movement receive particular scrutiny. The motivations for attacks on Muslims may include deep-seated perceptions of economic disparity, but elements of religious culture (ritual and symbol) are also seen as catalysts for explosive acts of violence. This much-needed, timely commentary promises to shift the standard narrative on Muslims and religious violence.

**T.K.V. Desikachar** Mekhala Desikachar 2019-09-29 Early on the morning of August 8, 2016, Sri T.K.V. Desikachar, son of the great yogi Sri Tirumalai Krishnamacharya, passed away in Chennai, in the Tamil Nadu, a province of southern India. Those whose written accounts are compiled here were his personal students for many years. Some of them, Indians, taught alongside him at the Krishnamacharya Yoga Mandiram for 20, 30, or 40 years. Others, Europeans, belong to the "pioneers" who, beginning in the 1960s and 1970s, went to Madras, sometimes yearly, to study with him. Some of them had first received the teaching of Krishnamurti, in London or in Switzerland, and from there went to Madras, wishing to meet this young teacher, with whom Krishnamurti himself had studied yoga. This book bears witness, then, to the fifty years of teaching they received, and to friendship. Beyond the content of that teaching, these accounts reflect a page in the history of transmitting that he "wrote", in his way, with the deep and specific attention and friendship that he gave to each. Thus there is no heritage, strictly speaking, only loyalties that, through experience, reflection, continuous research, and sharing, continue to recount the constantly revitalized story of this lifelong art, which is yoga.
