After six hundred years of ruling over the peoples of North Africa, the Balkans and Middle East, the death throes of sultanate encompassed a series of wars, insurrections, and revolutions spanning the early twentieth century. This volume encompasses a full accounting of the political, economic, social, and international forces that brought about the passing of the Ottoman state. In surveying the many tragedies that transpired in the years between 1908 and 1922, *Fall of the Sultanate* explores the causes that eventually led so many to view the legacy of the Ottomans with loathing and resentment. The volume provides a retelling of this critical history as seen through the eyes of those who lived through the Ottoman collapse. Drawing upon a large gamut of sources in multiple languages, Ryan Gingeras strikes a critical balance in presenting and interpreting the most impactful experiences that shaped the lives of

the empire's last generation. The story presented here takes into account the perspectives of the empire's diverse population as well as the leaders who piloted the state to its end. In surveying the personal, communal and national struggles that defined Italy's invasion of Libya, the Balkan War, the Great War, and the Turkish War of Independence, Fall of the Sultanate presents readers with a fresh and comprehensive exposition of how and why Ottoman imperial rule ended in bloodshed and disillusionment.

*Haj to Utopia* Maia Ramnath 2011-12-01

In *Haj to Utopia*, Maia Ramnath tells the dramatic story of Ghadar, the Indian anticolonial movement that attempted overthrow of the British Empire. Founded by South Asian immigrants in California, Ghadar—which is translated as "mutiny"—quickly became a global presence in East Asia, Europe, the Middle East, and East Africa. Ramnath brings this epic struggle to life as she traces Ghadar's origins to the Swadeshi Movement in Bengal, its establishment of headquarters in Berkeley, California, and its fostering by anarchists in London, Paris, and Berlin. Linking Britain's declaration of war on Germany in 1914 to Ghadar's declaration of war on Britain, Ramnath vividly recounts how 8,000 rebels were deployed from around the world to take up the battle in Hindustan. *Haj to Utopia* demonstrates how far-flung freedom fighters managed to articulate a radical new world order out of seemingly contradictory ideas.

*Gandhi's Assassin* Dharendra Jha 2023-01-24 Dharendra Jha's deeply researched history places Nathuram Godse's life as the juncture of the dangerous fault lines in contemporary India: the quest for independence and the rise of Hindu nationalism. On a wintry Delhi evening on 30 January 1948, Nathuram Godse shot Gandhi at point-blank range, forever silencing the man who had delivered independence to his nation. Godse's journey to this moment of

international notoriety from small towns in western India is, by turns, both riveting and wrenching. Drawing from previously unpublished archival material, Jha challenges the standard account of Gandhi's assassination, and offers a stunning view on the making of independent India. Born to Brahmin parents, Godse started off as a child mystic. However, success eluded him. The caste system placed him at the top of society but the turbulent times meant that he soon became a disaffected youth, desperately seeking a position in the infant nation. In such confusing times, Godse was one of hundreds, and later thousands, of young Indian men to be steered into the sheltering fold of early Hindutva, Indian nationalism. His association with early formations of the RSS and far-right thinkers such as Sarvakar proves that he was not working alone. Today he is considered to be a patriotic hero by many for his act of bravery, despite being found guilty in court and executed in 1949.

**Global Trends 2040** National Intelligence Council 2021-03 "The ongoing COVID-19 pandemic marks the most significant, singular global disruption since World War II, with health, economic, political, and security implications that will ripple for years to come." -Global Trends 2040 (2021) Global Trends 2040-A More Contested World (2021), released by the US National Intelligence Council, is the latest report in its series of reports starting in 1997 about megatrends and the world's future. This report, strongly influenced by the COVID-19 pandemic, paints a bleak picture of the future and describes a contested, fragmented and turbulent world. It specifically discusses the four main trends that will shape tomorrow's world: - Demographics-by 2040, 1.4 billion people will be added mostly in Africa and South Asia. - Economics-increased government debt and concentrated economic power will escalate problems for the poor and middleclass. - Climate-a hotter world will increase water, food, and health insecurity. - Technology-the

emergence of new technologies could both solve and cause problems for human life. Students of trends, policymakers, entrepreneurs, academics, journalists and anyone eager for a glimpse into the next decades, will find this report, with colored graphs, essential reading.

**The Muslim World After 9/11** Angel Rabasa 2004-11-17 Momentous events since September 11, 2001-Operation Enduring Freedom, the global war on terrorism, and the war in Iraq-have dramatically altered the political environment of the Muslim world. Many of the forces influencing this environment, however, are the products of trends that have been at work for many decades. This book examines the major dynamics that drive changes in the religio-political landscape of the Muslim world-a vast and diverse region that stretches from Western Africa through the Middle East to the Southern Philippines and includes Muslim communities and diasporas throughout the world-and draws the implications of these trends for global security and U.S. and Western interests. It presents a typology of ideological tendencies in the different regions of the Muslim world and identifies the factors that produce religious extremism and violence. It assesses key cleavages along sectarian, ethnic, regional, and national lines and examines how those cleavages generate challenges and opportunities for the United States. Finally, the authors identify possible strategies and political and military options for the United States to pursue in response to changing conditions in this critical and volatile part of the world.

Studying the Sikhs John Stratton Hawley This basic guide and resource book targets four fields—religious studies, history, world literature, and ethnic or migration studies—in which Sikhism is now receiving greater attention. The authors explain the problems of studying and interpreting Sikhism, and opportunities for integrating Sikh studies into a broader curriculum in each field. They also provide a sense of the Sikh community's own approach

to education, and evaluate materials and approaches at the North American university level. Included are a sample syllabus with an explanatory essay, a bibliographical guide, a glossary, and a general bibliography. Gurinder Singh Mann's review of his course on Sikhism is an effective mini-guide to the field as a whole.
