The Light of Burning Shadows

Chris Evans 2010-08-05

Konowa Swift Dragon was once commander of the Iron Elves, the legendary Elven regiment of the human army of the Calahrian Empire. Now recalled from exile and disgrace, he is second-in-command of the reconstituted regiment -- a motley band of misfits who are elves in name alone. Konowa's destiny is to stand against the looming threat of the Shadow Monarch, whose destructive

ambitions have called down an alien power from the stars and riven the land with all manner of ancient evils. The same Shadow Monarch whose tainted mark he bears... His quest leads Konowa deep into the desert wastes: the burning lands to which the original Iron Elves were banished. There he and his current companions must face trials beyond their imagining, to learn how to defeat the Shadow Monarch for all time.

Literature and Culture of the Chicago Renaissance

Yoshinobu Hakutani 2019-07-12 The Chicago Renaissance has long been considered a less important literary movement than the Harlem Renaissance. While the Harlem Renaissance began and flourished during the 1920s, but faded during the 1930s, the Chicago Renaissance originated between 1890 and 1910, gathered momentum in the 1930s, and paved the way for the postmodern and postcolonial developments in American Literature. To portray Chicago as a modern, spacious, cosmopolitan city, the writers of the Chicago Renaissance developed a new style of writing based on a distinct cultural aesthetic that reflected ethnically diverse sentiments and aspirations. Whereas the Harlem Renaissance was dominated by African American writers, the Chicago Renaissance originated from the interactions between African and European American writers. Much like modern jazz, writings in the movement became a hybrid, cross-cultural product of black and white Americans. The second period of the movement developed at two stages. In the first stage, the older generation of African American writers continued to deal with racial issues. In the second stage, African American writers sought solutions to racism by comparing American culture with other cultures. The younger generation of African American writers, such as Ishmael Reed, Charles Johnson, and Colson Whitehead, followed their predecessors and explored Confucianism, Buddhist Ontology, and Zen. This volume features essays by both veteran African Americanists and upcoming young critics. It is highlighted by essays from scholars located around the globe, such as Toru Kiuchi of Japan, Yupei Zhou of China, Mamoun Alzoubi of Jordan, and Babacar M'Baye of Senegal. It will be invaluable reading for students of Americanists at all levels.

Substance Misuse and Young People Ilana Crome 2019-12-19 Substance Misuse and Young People: Critical Issues is a comprehensive source of information on young people's requirements for assessment, treatment and other interventions because of their misuse of substances. It highlights approaches that enhance understanding of the routes that lead young people to substance misuse and also the routes away from it. The emergence of new substances and methods of misuse makes this ever more relevant. The authors are international experts in the fields of psychiatry, paediatrics, medicine, psychology, genetics, resilience, neuropharmacology and epidemiology. This book acknowledges how widespread both substance misuse and psychiatric disorders are and explores the complex, challenging links between co-occurring conditions. Use of substances is associated with illness and premature mortality, and more so for people who have combined disorders. The authors critically assess the vital need for intervention during adolescence and early adulthood. They provide detailed clinical views of the psychosocial interventions and medications currently available and illustrate them with case studies that emphasise adolescents' experiences and thoughtful lifestyle-specific interventions. This book provides theoretical knowledge and indicates the practical skills that practitioners require for work with young people who misuse substances. It is highly applicable to medical practitioners, psychologists, pharmacists, social workers, police officers, probation officers, educationalists and related social and healthcare professionals.

Imagined Democracies Yaron Ezrahi 2012-10-15 This book proposes a revisionist approach to democratic politics. Yaron Ezrahi focuses on the creative unconscious collective imagination that generates ever-changing visions of legitimate power and authority, which compete for enactment and institutionalization in the political arena. If, in the past, political authority was grounded in fictions such as the divine right of kings, the laws of nature, historical determinism and scientism, today the space of democratic politics is filled with multiple alternative social imaginaries of the desirable political order. Exposure to electronic mass media has made contemporary democratic publics more aware that credible popular fictions have greater impact on shaping our political realities than do rational social choices or moral arguments. The pressing political question in contemporary democracy is, therefore, how to select and enact political fictions that promote peace and how to found the political order on checks

and balances between alternative political imaginaries of freedom and justice.

Early Childhood Education and Care Quality in Europe and the USA Konstantina Rentzou 2020-05-21 This book captures information about early childhood education and care (ECEC) policies and practices in different countries and aims to question the degree to which these countries have managed to meet the needs of children, families, and the ECEC workforce. The book illustrates how different countries have adapted different strategies focusing on policy when it comes to quality ECEC. The goal of the book is twofold. First and foremost, it aims to present key findings and challenges for improving ECEC as a whole. Second, it aims to highlight problems and concerns which the field of ECEC faces, with respect to delivering high-quality care and education to all children. As neither "ECEC" nor "quality" are universal concepts - but are shaped by social-cultural values, as well as national, economic, and political contexts in which ECEC services are provided - this cross-country volume is extremely relevant for fully understanding issues in the field of ECEC. This book was originally published as a special issue of *Early Child Development and Care*.
From Unification to Nazism Eley Geoff 2019-07-16 Originally published in 1986, and bringing together essays written over a 10 year period, this volume offers a coherent and challenging interpretation of the German past. The book argues that the German Empire between 1871 and 1914 may have enjoyed greater stability and cohesion than is often assumed. It suggests that Imperial Germany's political institutions showed considerable flexibility and capacity for growth and puts forward the idea that without WWI, or in the event of a German victory, the Empire might well have demonstrated its viability as a modern state. In that case, the origins of fascism should be sought mainly in the subsequent experiences of war, revolution and economic crisis and not so much in the Empire's so-called structural backwardness.

Youth Citizenship and the European Union Elvira Cicognani 2020-06-29 This book applies a number of different disciplinary and geographical perspectives to ascertain whether and how European youth identify with the EU, trust EU institutions and engage in EU issues. It investigates the factors and processes that predict the different ways in which young Europeans engage (or do not engage) with social and political issues and become active European citizens. The volume is based on results from the first two years of the Horizon 2020 CATCH-EyoU project ("Constructing Active Citizenship with European Youth: Policies, Practices, Challenges and Solutions"). It addresses different dimensions of active citizenship in the EU and different processes and contexts that explain the construction of youth active citizenship, including societal-level factors such as policy context and media; interaction-level contexts such as school and family; and individual-level factors. The final chapter emphasizes the impact of the current historical context on the development of young Europeans' civic identity and their understanding of the social and political reality. With contributions from a variety of disciplines including psychology, political science, communications and education, and spanning geographic contexts across Europe, this book will be of interest to researchers studying contemporary European youth and the construction of young people's identity. This book was originally published as a special issue of the *European Journal of Developmental Psychology*.
