The Teacher's Handbook of the Tonic Sol-Fa System Alexander T. Cringan 2016-09-30

Excerpt from The Teacher's Handbook of the Tonic Sol-Fa System: A Guide to the Teaching of Singing in Schools by the Tonic Sol-Fa System
Improved teaching can only be looked for through an improved knowledge of the subject, and increased skill in the methods of teaching by the regular teachers. The object of this work is to aid the teacher in presenting the subject in a manner which will make the study a source of pleasure and profit to teacher and pupil alike. The author offers his experience in the hope that it may lighten the labours of his co-workers in a great and good cause. The plan of this work deals in detail with each branch of the subject, and explains, by means of Specimen Lessons and appropriate suggestions, the simplest and most practical methods of application. A number of exercises are given in each department, which, although insufficient in themselves, will enable the teacher to prepare others as may be deemed

2015-07-06 Excerpt from A Manual of Musical Copyright Law: For the Use of Music-Publishers and Artists, and of the Legal Profession A treatise on musical copyright, combining the results of a refined musical training with those of a legal one, is, the author believes, without precedent, or nearly so; the fact that his antecedents enable him to realise this combination was brought to his notice by several influential musical publishers and induced him to commit his practical experiences to paper. It was pointed out that one who is exclusively a lawyer wants the personal contact with the publishing trade, which is necessary for explaining and adjusting the legal rights and obligations of composers, executants and publishers of music, both as between themselves and as between either of those three classes and the public. Such an one may easily overlook, or not quite grapple with, an infinity of subtle points likely to arise in business. He is not practically familiar with those niceties of trade which are only acquired by a series of

personal dealings with music publishers, British and foreign, during many years. Not having the habit of closely analysing and dissecting melodic phrases, and relying merely on an untutored ear, he overlooks details of importance, with the result that he sees resemblances where the whole phrase, studied in its entirety, shows that none really exist; again, there are cases where the cultured musician would scent out an origin, common both to a supposed piratical copy of a given theme and to the theme itself; and the family likeness may be sufficiently definite to take away the right to complain of an infringement, but the mere lawyer, in such cases, might be misled into advising an action by the close similarity between the original phrase and the copy. Manual of Musical Terms, Together With the Elements of Notation and Condensed Biographies of Noteworthy Musicians Notation is a system of signs used in writing music. The written signs for the time-value (length, duration) of musical tones, are called Notes; the written signs for pauses (intervals of silence) between the tones, are called Rests. The Staff The Staff consists of five parallel horizontal lines. Notes are written on the lines, or in the spaces between. For higher or lower tones, additional short lines are provided, called Leger-lines. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. The Digital Frontier Sangeet Kumar
2021-08-10 The global web and its digital ecosystem can be seen as tools of emancipation, communication, and spreading knowledge or as means of control, fueled by capitalism, surveillance, and geopolitics. The Digital Frontier interrogates the world wide web and the digital ecosystem it has spawned to reveal how their conventions, protocols, standards, and algorithmic regulations represent a novel form of global power. Sangeet Kumar shows the operation of this power through the web's "infrastructures of control" visible at sites where the universalizing imperatives of the web run up against local values, norms, and cultures. These include how the idea of the "global common good" is used as a ruse by digital oligopolies to expand their private enclosures, how seemingly

collaborative spaces can simultaneously be exclusionary as they regulate legitimate knowledge, how selfhood is being redefined online along Eurocentric ideals, and how the web's political challenge is felt differentially by sovereign nation states. In analyzing this new modality of cultural power in the global digital ecosystem, The Digital Frontier is an important read for scholars, activists, academics and students inspired by the utopian dream of a truly representative global digital network.

Platform Scale Sangeet Paul Choudary 2015

"Platform Scale explains the design of a family of emerging digital business models that enables today's startups to achieve rapid scale: the platform business model. The many manifestations of the platform business model - social media, the peer economy, cryptocurrencies, APIs and developer ecosystems, the Internet of things, crowdsourcing models, and many others - are becoming increasingly relevant. Yet, most new platform ideas fail because the business design and growth strategies involved in building platforms are not well understood. Platform scale is a builder's manual for anyone building a platform business today. It lays out a structured approach to desinging and growing a platform

Making Music and Enriching Lives Bonnie Blanchard 2007 Making Music and Enriching Lives fills an important niche in the very large world of books about music. It's unlike any other instructional book in the way it addresses comprehensive, across-the-board issues that affect all teachers, students, and musicians. In this book, you will find specifics not only about how to teach music, but also about how to motivate and inspire students of any age. In this first volume of her Music for Life series, Bonnie Blanchard (with Cynthia Blanchard Acree) shares successful approaches with both students and teachers that have worked wonders in her own studio to produce successful students who are energized about their lessons and their music. These books touch on all aspects of music instruction from running a studio to student motivation and teaching technique to performing, while addressing not just the musician, but the whole person along the way.

Platform Revolution: How Networked Markets Are Transforming the Economy and How to Make Them Work for You Geoffrey G. Parker 2016-03-28 A practical guide to the new economy that is transforming the way we live, work, and play. Uber. Airbnb. Amazon. Apple. PayPal. All of these companies disrupted their markets when they launched. Today they are industry leaders. What's the secret to their success? These cutting-edge businesses are built on platforms: two-sided markets that are revolutionizing the way we do business. Written by three of the most sought-after experts on platform businesses, Platform Revolution is the first authoritative, fact-based book on platform models. Whether platforms are connecting sellers and buyers, hosts and visitors, or drivers with people who need a ride, Geoffrey G. Parker, Marshall W. Van Alstyne, and Sangeet Paul Choudary reveal the what, how, and why of this revolution and provide the first "owner's manual" for creating a successful platform business.

Platform Revolution teaches newcomers how to start and run a successful platform business, explaining ways to identify prime markets and monetize networks. Addressing current business leaders, the authors reveal strategies behind some of today's up-and-coming platforms, such as Tinder and SkillShare, and explain how traditional companies can adapt in a changing marketplace. The authors also cover essential issues concerning security, regulation, and consumer trust, while examining markets that may be ripe for a platform revolution, including healthcare, education, and energy. As digital networks increase in ubiquity, businesses that do a better job of harnessing the power of the platform will win. An indispensable guide, Platform Revolution charts out the brilliant future of platforms and reveals how they will irrevocably alter the lives and careers of millions.

an Indian American girl whose world turns upside down when she involuntarily starts bursting into glamorous song-and-dance routines during everyday life. You know how in Bollywood when people are in love, they sing and dance from the mountaintops? Eleven-year-old Sonali wonders if they do the same when they're breaking up. The truth is, Sonali's parents don't get along, and it looks like they might be separating. Sonali's little brother, Ronak, is not taking the news well, constantly crying. Sonali would never do that. It's embarrassing to let out so many feelings, to show the world how not okay you are. But then something strange happens, something magical, maybe. When Sonali gets upset during a field trip, she can't bury her feelings like usual—instead, she suddenly bursts into a Bollywood song-and-dance routine about why she's upset! The next morning, much to her dismay, Sonali's reality has shifted. Things seem brighter, almost too bright. Her parents have had Bollywood makeovers. Her friends are also

it. The key is to take the smallest of action steps every day and God will put the right people and situations in your life to get you to your destiny. Let me repeat that. Work on something every single day that will bring you closer to your goal. Stop wondering what you can do and start acting. Start acting like the person you want to be and you will become that person. My story is about having a vision. My hope is for you to discover your gifts, focus on them and work until something magical happens. Vision, writing it down and working hard and letting God do the rest. His name alone sets the tone for who he is, what he does and the magnitude of his skill set. Super-producer Xavier "Zaytoven" Dotson copped his name from the German composer and pianist Ludwig van Beethoven because of the many similarities the two musicians share. Both were born in Germany, both mastered the organ and piano at a young age, both boast a genuine interest in music and most notably possessed the same good foresight to align themselves with key

people who could help further their careers. For Beethoven it was the dignitaries of Vienna, for Zaytoven it was Gucci Mane, king of the streets of east Atlanta."

Hooked Nir Eyal 2014-11-04 Revised and Updated, Featuring a New Case Study How do successful companies create products people can't put down? Why do some products capture widespread attention while others flop? What makes us engage with certain products out of sheer habit? Is there a pattern underlying how technologies hook us? Nir Eyal answers these questions (and many more) by explaining the Hook Model—a four-step process embedded into the products of many successful companies to subtly encourage customer behavior. Through consecutive “hook cycles,” these products reach their ultimate goal of bringing users back again and again without depending on costly advertising or aggressive messaging. *Hooked* is based on Eyal's years of research, consulting, and practical experience. He wrote the book he wished had been available to him as a start-up founder—not abstract theory, but a how-to guide for building better products. *Hooked* is written for product managers, designers, marketers, start-

Hindustani Classical Music Soubhik Chakraborty 2021-12-01 This work aims to address the historical development of the great Indian raga tradition, enhanced by computational approaches, and to use computational strategies to analyze aspects of contemporary Hindustani classical music (HCM). It is divided into two parts with Part 1 focusing on the history and aesthetics

of HCM and Part 2 covering its computational aspects. The historical development of HCM in the ancient, medieval and modern periods; its terms and genre; and its Khayal gharanas are covered in Part 1. The subtopics include essential concepts such as raga, tala, shruti, thaata, gharana, khayal, dhrupad, thumri, tappa, etc. Part 2 covers the state-of-the-art in computational musicology, raga analysis and song analysis using statistics. The subtopics include statistical modeling, inter onset interval, note duration analysis, pitch movement between the notes, rate of change of pitch (pitch velocity) and probabilistic analysis of musical notes. The author concludes the work with reflecting on the lives of a few renowned musicians and musicologists with an account of hilarious moments taken from their lives to excite the reader to know more about HCM. This book would be useful for musicians, musicologists, researchers in music history, aesthetics, computational musicology, and advanced

Music Teacher's Manual (Classic Reprint)

Julia Ettie Crane 2017-07-21 Excerpt from Music Teacher's Manual Since at this period, according to Stanley Hall, the chief educational need of the child is that his mind be provided with rich culture material stimulating to the imagination, the importance of the musical surround ings during infancy can scarcely be overestimated, and the methods by which music is taught in the schools advance or hinder ideal home conditions at this period far beyond our present realization. If the child enters kindergarten, the teacher has the opportunity to furnish some of the means, through song and rhythm, by which play is enriched with elements peculiarly enjoyable to the child.
